**III. Summary of Results**

There were 25 instances of dog waste not being picked up in March and in April, exceeding the adopted standards by five pieces per month. Further, when compared to Monitoring Period 3, there was an increase from no public conflicts to one public conflict between an off-leash dog and park patron. Harassment of wildlife and entry into prohibited sensitive areas were not observed during this monitoring period. Instances of dogs traveling off-trail decreased from one to zero, and leash compliance also decreasing from 83% to 71.4%.

In terms of visitor demographics, 601 total visitors were observed during Monitoring Period 4, with 47.3% of visitors bringing dogs and 52.7% visiting without dogs. Sixty-seven percent of visitors with dogs let their dogs off-leash, while 32.6% kept them on-leash. Compared to Monitoring Period 3, there was an increase in observed visitors from 561 to 601. The number of visitors without dogs decreased from 334 to 317, while the number of visitors with dogs increased from 227 to 284.
