Honorable Planning Commissioners, I have a few questions regarding the MPROSD project at the Alves property. Can the parcel next to Highway One be utilized for recreational parking in addition to the coastside office for the District? Is there a water source for the upland area? Will it be utilized for grazing or some other agricultural use?

I viewed this item at the recent MPROSD zoom meeting, but their format did not allow public comment after the staff presentation which was unfortunate. Hopefully these questions can be answered in any case.

Respectfully submitted, Kerry Burke
