Terminations, Revocations and Flashes

There were thirty-one (31) terminations during the reporting period. Eighty-one percent (81%) were successful.

Total # of Supervisees Successfully Terminated		Total # of Supervisees Unsuccessfully Terminated	
PRCS – 22	MS – 3	PRCS – 1	MS – 5
<ul style="list-style-type: none"> • Early Terminations: 7 • Normal Terminations: 15 			

In the reporting period, we filed a total of twenty-four (24) revocations. PRCS had twenty-three (23) revocations and MS had one (1) revocation. Of the twenty-four (24) revocations, there were eighteen (18) New Law Violations. The breakdown by violation category is below:

Violation Type	PRCS	MS	% of Q3 Revocations
Violent Felonies per PC § 667.5(c)	0	0	0%
Serious Felonies per PC § 1192.7(c)	2	0	8%
Other Crimes	15	1	67%
Technical Violations	6	0	25%
Total	23	1	100%

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Twenty-five percent (25%) of revocations were for technical violations. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. It is important to note that the Probation Department usually files formal revocations after lower sanctions have been attempted, including flash incarcerations for PRCS cases. However, at times, officers may decide that a formal revocation is more appropriate than utilizing lower sanctions, depending on the circumstances of the violation. Seventy-five percent (75%) of revocations filed were for new law violations involving property, drug/alcohol related crimes as well as other crimes. Of the eighteen (18) New Law Violations, nine (9) were misdemeanors and nine (9) were felonies.

There were nine (9) **flash incarcerations** during this reporting period.

Five (5) cases were **transferred** to another county for supervision.

Recidivism Definition

San Mateo County: Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but **excludes** PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

Attorney General: An arrest resulting in a charge within three years of an individual's release from incarceration or placement on supervision for a previous criminal conviction.

BSCC: A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

REALIGNMENT BULLETIN CY2025 Q1: JANUARY TO MARCH

Executive Summary:

Offenses committed by the supervised and in-custody realignment populations in San Mateo County during January through March (Q1) continue to show that this population primarily commits drugs and alcohol offenses as well as vehicle theft and weapons offenses. However, we also see a number of assorted offenses (misc.) and evading in the top categories.

Overview:

During Q1, Drugs & Alcohol (17%), Vehicle Theft (15%), Weapons (15%), Miscellaneous (12%), Evading (10%), and Assault (8%) were the top committing offenses for the realignment population (this includes the new supervised cases and in-custody realignment offenders). Please note, "miscellaneous" refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: elder abuse, organized retail theft, unlawful sexual intercourse, failure to register as sex offender and trespassing.

The data used for this analysis was derived from information provided by the San Mateo County Probation Department and the SMCSO Corrections Division.

AB109 In-Custody on the Last Day of the Quarter:

On the last day of the quarter (March 31, 2025), the total AB109 in-custody population was 7.59% (71) of the overall average daily population (935), a slight decrease from the prior quarter 8.87% (81) with an ADP of 913.

During Q1 CY2025, burglary, vehicle theft, and miscellaneous comprised the top new charges committed by the in-custody population. Please note that the category "Other Property Crimes" refers to offenses such as elder theft, receiving stolen property, embezzlement, forgery, and larceny. "Miscellaneous" refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: evading, false imprisonment, stalking, and arson.

FISCAL YEAR 2024-25 SECOND QUARTER
SUMMARY REPORT NARRATIVE

SAN MATEO COUNTY HEALTH

BEHAVIORAL HEALTH
& RECOVERY SERVICES

Please Note: The BHRS Service Connect Dashboard is presented one quarter in arrears to present accurate data because submission deadlines are too soon after the quarter close.

AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services

The total number of participants referred to BHRS for treatment since July 1, 2017, is 3,365; of these, 1,968 entered treatment and/or recovery plans. (Participants served by BHRS is a lower number than those referred because not all assessments result in treatment). The total number of Service Connect services—including both mental health and substance use treatment services—provided to participants since the inception of the program is 28,471.

Open Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS service. The numbers do include participants that continued from quarter to quarter, so a participant could be counted more than once in each quarter if their case was open across multiple fiscal quarters. The Q2 count is 83, which is lower than in recent quarters.

Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant receiving four or more services, meaning the participant has returned to BHRS for multiple appointments for different services, demonstrating the participant is engaged because they actively participate. Engagement has dropped since last quarter and is lower than the spike in engagement that occurred in Q4 of FY2324. Engagement rates tend to increase for multiple quarters after the reporting period, as service data becomes more complete.

Percent of Participants with Substance Abuse Recovery Plan or a Mental Health Treatment Plan

This graph presents the percentage of participants who had a mental health treatment plan or a substance abuse recovery plan. Substance abuse recovery plans are typically at a rate of two to one as compared to a mental health treatment plan. However, AOD treatment plans this quarter are even higher than in recent quarters, which represents a significant trend.

Living Situation Upon Program Admission and Discharge

This graph shows the living situations of participants at the time the participant was admitted to the program and then the living situation when discharged from the program, for participants who were discharged in the reporting period. The purpose of this measure is to monitor the service impact on improvement of the living situation of the participant. Q2 shows that 18 participants who were discharged during this reporting period were homeless upon discharge, down from the 24 participants in this group who had been homeless upon admission, which is

encouraging. Data aberrations require a closer look at this dataset, with possible refinement to identify admission and discharge housing status for the same individuals.

Total Individuals Referred to Service Connect and Total Admitted for Services

Not all individuals referred to the program meet the assessment criteria for admission to the program, so this graph measures the difference between the number of persons referred and the number that are admitted and served for each quarter. The results for Q2 demonstrate a continued decrease in both referrals and the number served, although numbers may shift after the reporting period as service data becomes more complete. The data methodology for these numbers was reviewed and improved for this quarter; numbers should not be compared to reports from previous quarters.

Social Orientation and Gender Identity (SOGI) Data

BHRS collects SOGI data in five categories at admissions and across the life of a case to inform other levels of government of the needs of all populations. Q2 Sexual Orientation shows five reporting as Bisexual, four as Lesbian/Gay, and one as Other. Two participants indicated their pronouns are They/Them. These continue to be high counts for both categories.

Correctional Health Services (Unavailable)

Previous counts represented the participants who were screened, medically treated, and referred for mental illness and substance abuse treatment by Correctional Health. Due to a staffing change and transition to a new electronic health record system, this data is no longer available and will need to be re-defined.

Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect—counts do not include episodes when subject was not a participant in Service Connect. Q2 showed a decrease with three PES visits and zero hospitalizations.

BHRS plans to review and revise data methodology for this report for FY2526.
