**NFOCC MEETING DATE:** November 20, 2025  
**SPECIAL NOTICE/HEARING:** 10 Days, within 300 feet  
**VOTE REQUIRED:** Majority

**TO:** Members, North Fair Oaks Community Council

**FROM:** Planning Staff

**SUBJECT:** Consideration of an Off-Street Parking Exception, pursuant to Section 8.344.040 of the San Mateo County Zoning Regulations, to allow for the continued use of one covered parking space where two covered parking spaces are required, in association with the proposed remodel of and small addition to an existing single-family residence, which includes the creation of one bedroom.

County File Number: PLN2025-00319 (Thomas)

**PROPOSAL**

The applicant, Nick Thomas, is requesting an Off-Street Parking Exception to allow the continued use of a one-car detached garage where two covered parking spaces are required. This exception is associated with a proposed remodel and minor addition to the existing single-family residence which includes the creation of one new bedroom.

**RECOMMENDATION**

That the North Fair Oaks Community Council provide a recommendation to the Director of Planning and Building on the proposed Off-Street Parking Exception.

**BACKGROUND**

Report Prepared By: Jonathan Bruns, Project Planner

Owner/Applicant: Madeleine Zetterquist / Nick Thomas

Location: 630 -12<sup>th</sup> Avenue, North Fair Oaks

APN: 060-124-160

Parcel Size: 5,343 sq. ft.

Existing Zoning: R-1/S-73 (One-Family Residential District / 5,000 sq. ft. Minimum Parcel Size)

General Plan Designation: Residential, Medium Density Residential

Existing Land Use: Single-Family Residence

Water Supply: California Water Service – Bear Gulch

Sewage Disposal: Fair Oaks Sewer District

Flood Zone: Zone X (Area of Minimal Flood Hazard); FEMA Panel No. 06081C0302E, Effective October 16, 2012

Environmental Evaluation: This project is categorically exempt from the California Environmental Quality Act (CEQA), pursuant to Section 15301, Class 1, as the project involves minor alterations to an existing structure, involving negligible or no expansion of existing or former use.

Setting: The project site is developed with a 1,184 sq. ft. single-family residence and a 314 sq. ft. detached garage. The property is an interior lot fronting 12th Avenue, which comes to a dead-end near the subject property. The surrounding parcels are developed and are comprised largely of single-family residences also with one-car covered parking garages.

## **DISCUSSION**

### **A. KEY ISSUES**

#### **1. Compliance with the General Plan/North Fair Oaks Community Plan**

##### **Urban Land Use Policies**

Policy 8.9 (*Designation of Existing Urban Communities*) of the General Plan identifies North Fair Oaks as an urban community, and the North Fair Oaks Community Plan has designated the land use density as Single-Family Residential. Policy 8.36 (*Uses*) seeks to allow uses in zoning districts that are consistent with the overall land use designation and to adopt the land use designations of the North Fair Oaks Community Plan.

The subject parcel is zoned R-1/S-73 (One-Family Residential / 5,000 sq. ft. minimum parcel size). The subject property is developed with a single-family residential development which is allowed in this zoning district. The proposed project would continue the single-family residential use of the parcel and does not introduce any new or incompatible uses.

Policy 8.40 (*Parking Regulations*) seeks to establish minimum on-site parking requirements and parking development standards to accommodate the parking needs of development, provide convenient and safe access, and prevent congestion of public streets.

Chapter 8.344 of the Zoning Regulations establishes the minimum parking requirements for development. The regulations require two-covered on-site parking spaces for each dwelling unit having two or more bedrooms. While this project seeks an exception to this provision, the Zoning Regulations provide an exception process for cases where compliance would result in practical difficulties and/or an unusual hardship.

##### **Chapter 3: Circulation and Parking**

Chapter 3 of the North Fair Oaks Community Plan provides in part, an overview of current and future parking needs and recommended parking management strategies for North Fair Oaks. Policy 5E seeks to modify parking policies to allow affordable housing development projects, minor expansions of single-family homes, transit-supportive development projects, and other uses where reduced parking demand can be demonstrated to qualify for further reduced parking requirements or exemptions per approval from the San Mateo County Current Planning Division.

The project proposes an interior remodel of and small addition to the existing residence. The project does not involve modifications to the detached garage and proposes a minor addition resulting in only minor changes to the exterior of the residence. The minor addition is located along the right/rear of the residence and is in line with the side of the house facing the detached garage. The area in which the detached garage is located is not sufficient to enlarge the garage. The Off-Street Parking Exception is intended to remedy the non-conforming situation as compliance with the current parking requirement (two-covered parking spaces) would not be practical given existing site conditions and proposed scope of work.

2. Compliance with the Zoning Regulations

a. S-73 Development Standards

The proposed project involves the remodel of and small addition to the existing residence, largely consisting of updates to the kitchen and family room, upgrades to finishes, window replacement, and conversion of the existing kitchen into a new bedroom with an attached bathroom. The project does include the minor addition of new square footage, a minor change to the rear setback, and lot coverage of the existing structure. There is no change in height to the existing residence. While the project does include minor alterations to the existing floor plan of the residence, the configuration remains largely the same. As mentioned previously, the off-street parking exception is required because the project proposes to create a new bedroom, and the current residence only has a one-car detached garage where two covered spaces are required. However, given the limited project scope and layout of the existing residence, the creation of an additional covered space would be impractical.

b. Parking Requirements

The proposed project includes the request to allow for continued use of a one-car garage, where two covered parking spaces are required. The project, as proposed, also includes the provision of one uncovered, off-street parking space located in the front yard area of the residence on the existing driveway.

Section 8.344.030 of the County's Zoning Regulations defines the number of parking spaces required for development. As mentioned previously, the regulations require that, for each dwelling unit having two or more bedrooms, two off-street covered spaces are provided. The project proposes adding a third bedroom to the existing residence which triggers compliance with the parking requirements currently in effect. The existing residence has a detached one-car garage that was

constructed as part of the original residence. The applicants propose to continue the use of the oversized driveway on site to accommodate parking of at least one additional car off-street, albeit uncovered.

3. Compliance with Off-Street Parking Exception Findings

The granting of an Off-Street Parking Exception is subject to the following findings:

- a. **That the establishment, maintenance and/or conducting of the off-street parking facilities as proposed are as nearly in compliance with the requirements set forth in Section 8.344.030 of the Zoning Regulations as are reasonably possible.**

The project proposes to allow the continued use of an existing one-car detached garage, where two covered spaces are required for the proposed scope of work. Given the location of the existing structures on the property and in relation to the property lines, there is insufficient space to enlarge the garage to a conforming size/configuration. However, the oversized driveway provides one additional off-street space albeit uncovered and within the front yard area brings the project into substantial conformance with the Zoning Regulations.

- b. **That the establishment, maintenance and/or conducting of the use will not, under the circumstances of the particular case, be detrimental to the public welfare or injurious to property or improvements in said neighborhood.**

The project parcel is zoned and developed for single-family residential development. The proposed project is limited to the project parcel and does not propose a new use. The resulting development remains consistent with the Zoning Regulations and North Fair Oaks Community Plan. The project was reviewed in consultation with the Department of Public Works and received conditional approval. All neighbors within 300 feet of the subject property have been notified of the project. The notice period began on September 18, 2025, and ended on September 29, 2025. No comments were received. In addition, a notice of this meeting was sent to all neighbors, located within 300 feet of the project site. Therefore, the project involves no aspects that are detrimental to public welfare or injurious to property or improvement in said neighborhood.
