COMMUNITY MEETING FOR THE BAY ROAD COMPLETE STREETS PROJECT

Date and Time: Wednesday, April 29, 2026, 6:00 PM to 7:30 PM

Meeting Location: PAL Center,
3399 Bay Rd, Redwood City, CA 94063

About the Project – The City of Redwood City and the County of San Mateo identified Bay Road from 5th Avenue to 15th Avenue as a priority corridor for traffic safety improvements based on community feedback, traffic volumes, speed, collision data, and presence of major pedestrian generators such as schools. The Bay Road Complete Streets Project aims to improve access to bus stops and pedestrian crossings along the corridor and to add bicycle facilities to support walking and biking to and from destinations in the area.

The Planning and Design Process – The City of Redwood City and the County of San Mateo will be hosting a community meeting as the first step in the project’s planning and community outreach effort to receive community feedback on the current transportation opportunities and challenges along Bay Road from 5th Avenue to 15th Avenue and to identify alternatives for traffic safety enhancements. The feedback will be used to complete the design and ultimately project construct in 2027-2028.

Following the meeting, you can access documents presented and all project updates on the project website: <https://www.redwoodcity.org/city-hall/current-projects/infrastructure-projects?id=219>
