Dennis Aguirre

SUBJECT: PLN2019-00160
Addition/Remodel- 10699 La Honda Road

San Mateo County Fire/CAL Fire has reviewed your plans for fire requirements and found them acceptable for permit issuance. This is a preliminary design review of your planning case for fire department requirements at time of submittal. When this design is submitted for a building permit, there may be additional requirements according to the actual design submitted and the current codes at time of building permit submittal. This review is neither permission nor approval for final plan check for a permit. Submit the following information to the planner with the Planning & Building Division of San Mateo County under the above permit:

1. If applicant intends to build on the property, the current driveway and slope does not meet Fire Department access requirements.

Our review is not construed as encompassing the structural integrity of the facility nor abrogating more restrictive requirements by other agencies having responsibility. Final acceptance is subject to field inspection and necessary tests.

All fire conditions and requirements must be incorporated into your building plans, (see attached conditions) prior to building permit issuance. It is your responsibility to notify your contractor, architect and engineer of these requirements.

If you have any questions regarding the above conditions, please call the administration office during normal working hours.

Reference our website for information on Fire Marshal standards in the County.
