

PROBATION DEPARTMENT COUNTY OF SAN MATEO

Quarterly Post-Release Community and Mandatory Supervision Update April – June 2026: 42 New Supervisees

*since realignment began in October 2011, there have been 3,437 supervisees.

FY 2025-2026 Fourth Quarter Highlights

- 34 new PRCS supervisees; 8 new MS supervisees
- 33% of new supervisees live out of county (FYTD: 37%)
- 14% of new supervisees were transient (FYTD: 19%)
- 58 revocations were filed
- 38% of violations were technical violations (FYTD: 38%)
- 57% of terminations were successful (FYTD: 61%)

PRCS and MS Released to SMC Supervision

Gender

Race

PRCS			
Redwood City	5	Half Moon Bay	1
East Palo Alto	4	San Mateo	1
Daly City	3	San Carlos	1
South San Francisco	3	Transient	5
Menlo Park	2	Out of County	9
Total Supervisees	34		

MS			
Daly City	1	Transient	1
Redwood City	1	Out of County	5
Total Supervisees	8		

Terminations, Revocations and Flashes

There were twenty-three (23) terminations during the reporting period. Fifty-seven percent (57%) were successful.

Total # of Supervisees Successfully Terminated		Total # of Supervisees Unsuccessfully Terminated	
PRCS – 12	MS – 1	PRCS – 5	MS – 5
• Early Terminations: 3 • Normal Terminations: 9			

In the reporting period, we filed a total of fifty-eight (58) revocations. PRCS had fifty-seven (57) revocations and MS had one (1) revocation. Of the fifty-eight (58) revocations, there were thirty-six (36) New Law Violations. The breakdown by violation category is below:

Violation Type	PRCS	MS	% of Q4 Revocations
Violent Felonies per PC § 667.5(c)	0	0	0%
Serious Felonies per PC § 1192.7(c)	3	0	5%
Other Crimes	32	1	57%
Technical Violations	22	0	38%
Total	57	1	100%

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Thirty-eight percent (38%) of revocations were for technical violations. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. It is important to note that the Probation Department usually files formal revocations after lower sanctions have been attempted, including flash incarcerations for PRCS cases. However, at times, officers may decide that a formal revocation is more appropriate than utilizing lower sanctions, depending on the circumstances of the violation. Sixty-two percent (62%) of revocations filed were for new law violations involving property, drug/alcohol related crimes as well as other crimes.

There were seven (7) **flash incarcerations** during this reporting period.

Six (6) cases were **transferred** to another county for supervision.

Recidivism Definition

San Mateo County: Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but ***excludes*** PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

Attorney General: An arrest resulting in a charge within three years of an individual's release from incarceration or placement on supervision for a previous criminal conviction.

BSCC: A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

REALIGNMENT BULLETIN CY2026 Q2: APRIL TO JUNE

Executive Summary:

This quarter, offense patterns among the supervised and in-custody realignment populations in San Mateo County shifted compared to 2025 trends. Previously, Reckless Evading offenses were the most prevalent category. In Q2, however, Theft emerged as the leading category (17%). Drugs & Alcohol related offenses emerged as the second leading offense category (15%), and Miscellaneous offenses followed at 15%.

Overview:

During Q2, Theft (17%), Drugs & Alcohol (15%), Miscellaneous offenses (15%), and Sex Crimes (9%) were the top committing offenses for the realignment population (this includes the new supervised cases and in-custody realignment offenders). Please note, "miscellaneous" refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: domestic violence, vehicle theft, burglary, recklessly causing fire to property, damaging railroad tracks, probation violation, and resisting an executive officer. Overall, the number of offenses among the realignment population increased by 31.4% compared to Q2 2025, rising from 35 offenses in 2025 to 46 offenses in 2026. Additionally, the number of active realignment cases increased by 13.2%, from 271 active cases in Q2 2025 to 307 active cases in Q2 2026.

The data used for this analysis was derived from information provided by the San Mateo County Probation Department and the SMCSO Corrections Division.

AB109: San Mateo County

Note: This data was obtained from different sources (Probation and Corrections) and may overlap slightly. However, the preceding analysis provides a general picture of the San Mateo County realignment population.

San Mateo County: In-Custody

AB109 In-Custody Statistics

PC1170(h) New Sentenced Cases	Q2 2026	Q1 2026	Q4 2025
Number of new PC1170(h) cases	67	62	49
Total PC1170(h) Days to Serve	34,499	31,667	25,135
Number of Split Sentences	10	16	2
Number of Straight Sentences	57	46	47
Average Length of Stay (ALOS) all cases (after credits applied)	104	102	149
Average Length of Stay (ALOS) Split Sentences (after credits applied)	73	85	6
Average Length of Stay (ALOS) Straight Sentences (after credits applied)	110	106	154

Demographics of the Newly Sentenced PC1170(h) during Q2 CY2026:

Gender: Male = 84% (56) Female = 16% (11)	Average Age: 39 years old	Residency: 34 - Out of County 16 - In County 17 - Transient/Unknown
--	-------------------------------------	---

Mandatory Supervision Revocation (MSV):
Offenders in this population were re-arrested after being released from a PC1170(h) split sentence. Some of these offenders were ordered to serve the remainder of their original sentence and supervision was revoked; others were ordered to serve a portion of their original sentence and were reinstated on mandatory supervision.

MSV Revocation Cases	Q2 2026	Q1 2026	Q4 2025
Number of MSV Cases	3	1	0
Total MSV Days to Serve	627	1,093	0
Average Length of Stay	25	180	0

FY 25-26, Q4 (April 2026 – June 2026)

New Intakes

- There were 100 intakes in Q4. Intakes in Q4 by program type: 22% AB109, 40% UR, 38% PUR.
- In coordination with Sheriff's Office, 53 virtual intakes were completed in Q4 accounting for 54% of intakes.

Eligibility/Benefits

- There were 23 applications received and processed in Q4: 14 CalFresh, 4 General Assistance, 5 Medi-Cal.
- There were 18 applications approved in Q4: 11 CalFresh, 2 GA, 5 Medi-Cal.
- Denied applications totaled 4: 3 CalFresh, 1 CalWORKS, 0 Medi-Cal. Two applications were denied for failure to provide documentation and complete determination, one application was denied because documents were not received, and one application was denied for incomplete documentation.

Employment (Subsidized and Unsubsidized)

- During Q4, Workforce activity included 42 enrollments in subsidized employment (550 Jobs!) and 29 unsubsidized employment placements. Some individuals participated in both activities during the quarter. Subsidized employment comprised 59%, while unsubsidized employment comprised 41%.
- Total of 33 individuals received job development services in Q4.
- Other, Trades/General Labor, and Food were the top 3 industries that employed individuals in Q4.
- Average wage per hour for unsubsidized employment was \$21.13.

Services Provided

- Food Assistance was the most requested service in Q4: 280 VRS Meal Vouchers were issued and 13 Safeway cards were issued that served 67 Individuals.
- Transportation and Communication were the second most requested service in Q4: 83 Monthly Bus Passes, 43 bus tickets were issued that served 73 individuals. Nine phones were provided and nine phone cards were issued that supported a total of 9 clients.
- Other services in Q4 were Personal supportive services. Individuals were provided with 25 hygiene kits, 1 Target Card and 3 Clothing vouchers that served 27 clients.
- In Q4, there were 42 individuals who utilized the motel voucher program and 9 individuals were provided with shelter bed placement.
- In Q4, under the Rapid Re-Housing program, 10 households were referred, 3 households were enrolled, 1 household entered in a housing lease agreement and 1 household utilized 12 months of subsidy assistance.

Peer Support Services

- 96 individuals received peer support services in Q4.
- There were 161 peer support check-ins: 90 face-to-face meetings and 65 telephone calls.
- Additional support services provided: 7 warm hand-offs, 4 transportation assists, 0 medical appointment assistance, 13 rapid rehousing referrals.

Service Connect BHRS Dashboard

FISCAL YEAR 2025-26 SECOND QUARTER
SUMMARY REPORT NARRATIVE

SAN MATEO COUNTY HEALTH
**BEHAVIORAL HEALTH
& RECOVERY SERVICES**

Please Note: The BHRS Service Connect Dashboard is presented one quarter in arrears to present accurate data because submission deadlines are too soon after the quarter close.

AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services

The total number of participants referred to BHRS for treatment since July 1, 2017, is 3,709; of these, 2,114 entered treatment and/or recovery plans. (Participants served by BHRS is a lower number than those referred because not all assessments result in treatment). The total number of Service Connect services—including both mental health and substance use treatment services—provided to participants since the inception of the program is 31,704.

Open Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS Service Connect service. The numbers do include participants that continued from quarter to quarter, so a participant could be counted more than once in each quarter if their case was open across multiple fiscal quarters. The Q3 count is 101, which is comparable to recent quarters.

Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant receiving four or more services, meaning the participant has returned to BHRS for multiple appointments for different services, demonstrating the participant is engaged because they actively participate. Engagement rates tend to increase for multiple quarters after the reporting period, as service data becomes more complete. Q3 engagement has increased from the lower rate seen in Q2.

Total Individuals Referred to Service Connect

This graph measures the number of persons referred to BHRS Service Connect each quarter. Not all individuals referred to the program meet the assessment criteria for admission to the program. BHRS is currently revising the method for counting the individuals served of this population, as many Service Connect participants receive services through other BHRS programs, which would not have been captured by the previous methodology.

Served by MH or AOD

This graph presents the number of individuals who receive Mental Health (MH) or Alcohol and Other Drug Services (AOD) treatment while participating in Service Connect and is a revision of our previous data methodology. MH services may be provided through Service Connect or other BHRS programs, while AOD services are provided through other BHRS programs.

Living Situation Upon Program Admission and Discharge

This graph shows the living situations of participants at the time the participant was admitted to the program and then the living situation when discharged from the program, for participants who were discharged in the reporting period. The purpose of this measure is to monitor the service impact on improvement of the living situation of the participant. Q3 shows there was a net increase in Homeless living situations for the group of participants who were discharged during this reporting period, compared to their living situation at admission, although a closer look at the data reveals that there are individuals who shifted into homelessness as well as those who shifted out of homelessness.

Sexual Orientation and Gender Identity (SOGI) Data

BHRS collects SOGI data in five categories at admissions and across the life of a case to inform other levels of government of the needs of all populations. Q3 Sexual Orientation and Gender Identity show minimal changes from the previous quarter.

Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect—counts do not include episodes when subject was not a participant in Service Connect. Q3 continues to show low counts of PES visits and hospitalizations.

BHRS is continuing to review and improve data methodology for this report.
