

PROBATION DEPARTMENT COUNTY OF SAN MATEO

Quarterly Post-Release Community and Mandatory Supervision Update July - September 2026: 43 New Supervisees

*since realignment began in October 2011, there have been 3,480 supervisees.

FY 2026-2027 First Quarter Highlights

- 33 new PRCS supervisees; 10 new MS supervisees
- 28% of new supervisees live out of county (FYTD: 28%)
- 5% of new supervisees were transient (FYTD: 5%)
- 35 revocations were filed
- 37% of violations were technical violations (FYTD: 37%)
- 67% of terminations were successful (FYTD: 67%)

PRCS and MS Released to SMC Supervision

Age

Gender

Race

PRCS			
Redwood City	8	Belmont	1
San Mateo	7	San Carlos	1
East Palo Alto	4	Transient	1
Daly City	3	Out of County	8
Total Supervisees		33	

MS			
Redwood City	3	Transient	1
Belmont	1	Out of County	4
Menlo Park	1		
Total Supervisees		10	

Terminations, Revocations and Flashes

There were twenty-seven (27) terminations during the reporting period. Sixty-seven percent (67%) were successful.

# Supervisees Successfully Terminated		# Supervisees Unsuccessfully Terminated	
PRCS	17	PRCS	7
<i>Early Terminations</i>	8		
<i>Normal Terminations</i>	9		
MS	1	MS	2

In the reporting period, we filed a total of thirty-five (35) revocations. PRCS had thirty-three (33) revocations and MS had two (2) revocations. Of the thirty-five (35) revocations, there were twenty-two (22) New Law Violations. The breakdown by violation category is below:

Violation Type	PRCS	MS	% of Revocations
Violent Felonies per PC § 667.5(c)	0	0	0%
Serious Felonies per PC § 1192.7(c)	3	0	9%
Other Crimes	18	1	54%
Technical Violations	12	1	37%
Total	33	2	100%

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Thirty-seven percent (37%) of revocations were for technical violations. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. It is important to note that the Probation Department usually files formal revocations after lower sanctions have been attempted, including flash incarcerations for PRCS cases. However, at times, officers may decide that a formal revocation is more appropriate than utilizing lower sanctions, depending on the circumstances of the violation. Sixty-three percent (63%) of revocations filed were for new law violations involving property, drug/alcohol related crimes as well as other crimes.

There were two (2) **flash incarcerations** during this reporting period.

Seven (7) cases were **transferred** to another county for supervision.

Recidivism Definition

San Mateo County: Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but ***excludes*** PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

Attorney General: An arrest resulting in a charge within three years of an individual's release from incarceration or placement on supervision for a previous criminal conviction.

BSCC: A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

REALIGNMENT BULLETIN CY2026 Q3: JULY TO SEPTEMBER

Executive Summary:

This quarter, offense patterns among the supervised and in-custody realignment populations in San Mateo County remained consistent with trends observed in 2025. In Q3 2025, Drugs & Alcohol offenses were the most prevalent category. This quarter, Drugs & Alcohol offenses once again ranked first, accounting for 27% of offenses. Theft-related offenses ranked second at 13%, followed by Vehicle Theft offenses at 10%.

Overview:

During Q3, Drugs & Alcohol (27%), Theft (13%), Vehicle Theft (10%), and Miscellaneous (10%) were the top committing offenses for the realignment population (this includes the new supervised cases and in-custody realignment offenders). Please note, "miscellaneous" refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to domestic violence, reporting a false bomb threat, elder abuse, check fraud and forgery, and grand theft. Overall, the number of top committing offenses among the realignment population increased by 30.77% compared to Q3 2025, rising from 39 offenses in 2025 to 51 offenses in 2026. Additionally, the number of active realignment cases decreased by 1.69%, from 295 active cases in Q3 2025 to 290 active cases in Q3 2026.

The data used for this analysis was derived from information provided by the San Mateo County Probation Department and the SMCSO Corrections Division.

AB109: San Mateo County

Note: This data was obtained from different sources (Probation and Corrections) and may overlap slightly. However, the preceding analysis provides a general picture of the San Mateo County realignment population.

San Mateo County: In-Custody**AB109 In-Custody Statistics**

PC1170(h) New Sentenced Cases	Q3 2026	Q2 2026	Q1 2026
Number of new PC1170(h) cases	61	67	62
Total PC1170(h) Days to Serve	33,333	34,499	31,667
Number of Split Sentences	9	10	16
Number of Straight Sentences	52	57	46
Average Length of Stay (ALOS) all cases (after credits applied)	104	104	102
Average Length of Stay (ALOS) Split Sentences (after credits applied)	145	73	85
Average Length of Stay (ALOS) Straight Sentences (after credits applied)	98	110	106

Demographics of the Newly Sentenced PC1170(h) during Q3 CY2026:**Gender:**

Male = 75% (46)
Female = 25% (15)

Average Age:

39 years old

Residency:

25 - Out of County
21 - In County
15 - Transient/Unknown

Mandatory Supervision Revocation (MSV):

Offenders in this population were re-arrested after being released from a PC1170(h) split sentence. Some of these offenders were ordered to serve the remainder of their original sentence and supervision was revoked; others were ordered to serve a portion of their original sentence and were reinstated on mandatory supervision.

MSV Revocation Cases	Q3 2026	Q2 2026	Q1 2026

Number of households enrolled in program	8
Number of households entered in housing lease agreements	3
Number of households successfully exited from program	3

Service Connect HSA Dashboard

FY 2026-27, Q1 (July, 2026 – September, 2026)

New Intakes

- There were 88 intakes in Q1. Intakes in Q1 by program type: 33% AB109, 26% UR, 41% PUR.
- In coordination with Sheriff's Office, 58 virtual intakes were completed in Q1 accounting for 66% of intakes.

Eligibility/Benefits

- There were 22 applications received and processed in Q1: 14 CalFresh, 3 General Assistance, 5 Medi-Cal.
- There were 15 applications approved in Q1: 12 CalFresh, 1 GA, 2 Medi-Cal.
- Denied applications totaled 7: 2 CalFresh, 2 General Assistance, and 3 Medi-Cal. Four applications were denied for being aided in another County, two applications for failure to provide documentation and one application was denied because of lack of proof of County Residence.

Employment (Subsidized and Unsubsidized)

- During Q1, Workforce activity included 39 enrollments in subsidized employment (550 Jobs!) and 32 unsubsidized employment placements. Some individuals participated in both activities during the quarter. Subsidized employment comprised 55%, while unsubsidized employment comprised 45%.
- Total of 30 individuals received job development services in Q1.
- Food, Other, Retail, Trades/General Labor, Transportation and Warehouse were the top industries that employed individuals in Q1.
- Average wage per hour for unsubsidized employment was \$21.89.

Services Provided

- Food Assistance was the most requested service in Q1: 322 VRS Meal Vouchers were issued that served 53 Individuals.
- Transportation and Communication were the second most requested service in Q1: 69 Monthly Bus Passes, 20 bus tickets were issued that served 76 individuals. Three phones were provided and three phone cards were issued that supported a total of 3 clients.
- Other services in Q1 were Personal supportive services. Individuals were provided with 14 hygiene kits and 12 Clothing vouchers that served 20 clients.
- In Q1, there were 28 individuals who utilized the motel voucher program and 11 individuals were provided with shelter bed placement.
- In Q1, under the Rapid Re-Housing program, 9 households were referred, 8 households were enrolled, and 3 households utilized 12 months of subsidy assistance.

Peer Support Services

- 149 individuals received peer support services in Q1.
- There were 380 peer support services provided: 57% face-to-face meetings, 40% telephone calls and 3% administrative meetings.
- The peer support services in Q1 were: Check-ins, Rapid Rehousing support, Shelter Visits, Transportation, Warm Hand-offs, Motel visits, Job Search, Probation Appointments, Resume Help, and Medical Support.

Service Connect BHRS Dashboard

FISCAL YEAR 2025-26 FOURTH QUARTER
SUMMARY REPORT NARRATIVE

SAN MATEO COUNTY HEALTH
**BEHAVIORAL HEALTH
& RECOVERY SERVICES**

Please Note: The BHRS Service Connect Dashboard is presented one quarter in arrears to present accurate data because submission deadlines are too soon after the quarter close.

AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services

The total number of participants referred to BHRS for treatment since July 1, 2017, is 3,773; of these, 2,132 entered treatment and/or recovery plans. (Participants served by BHRS is a lower number than those referred because not all assessments result in treatment). The total number of Service Connect services—including both mental health and substance use treatment services—provided to participants since the inception of the program is 32,190.

Open Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS Service Connect service. The numbers do include participants that continued from quarter to quarter, so a participant could be counted more than once in each quarter if their case was open across multiple fiscal quarters. The Q4 count is 108, which is a slight increase from recent quarters.

Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant receiving four or more services, meaning the participant has returned to BHRS for multiple appointments for different services, demonstrating the participant is engaged because they actively participate. Engagement rates tend to increase for multiple quarters after the reporting period, as service data becomes more complete. Q4 engagement remains stable from Q3.

Total Individuals Referred to Service Connect

This graph measures the number of persons referred to BHRS Service Connect each quarter. Not all individuals referred to the program meet the assessment criteria for admission to the program. BHRS is currently revising the method for counting the individuals served of this population, as many Service Connect participants receive services through other BHRS programs, which would not have been captured by the previous methodology.

Served by MH or AOD

This graph presents the number of individuals who receive Mental Health (MH) or Alcohol and Other Drug Services (AOD) treatment while participating in Service Connect and is a revision of our previous data methodology. MH services may be provided through Service Connect or other BHRS programs, while AOD services are provided through other BHRS programs.

Living Situation Upon Program Admission and Discharge

This graph shows the living situations of participants at the time the participant was admitted to the program and then the living situation when discharged from the program, for participants who were discharged in the reporting period. The purpose of this measure is to monitor the service impact on improvement of the living situation of the participant. Q4 shows a slight net decrease in Homeless living situations for the group of participants who were discharged during this reporting period, compared to their living situation at admission.

Sexual Orientation and Gender Identity (SOGI) Data

BHRS collects SOGI data in five categories at admissions and across the life of a case to inform other levels of government of the needs of all populations. Q4 Sexual Orientation and Gender Identity show minimal changes from the previous quarter.

Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect—counts do not include episodes when subject was not a participant in Service Connect. Q4 continues to show low counts of PES visits and hospitalizations.

BHRS is continuing to review and improve data methodology for this report.
