I am writing regarding Edison Technology Park four on the agenda. PLN2003-00483
My private residential property is right across the street and any noise or disturbance that occurs at Edison Technology Park can impact me and my neighbors. On the agenda is a use permit to allow use and operation of wireless telecommunications facility at that location. There are no details as to how this could impact the adjacent area. I have had problems with noise emanating from there recently, and want to make sure that will not be a problem. The short paragraph does not indicate any potential impacts on the neighborhood. Is there anywhere that I can find that information?
