COUNTY OF SAN MATEO 555 COUNTY CENTER, 4TM FLOOR · REDWOOD CITY · CALIFORNIA 94063

November 25, 2008

The Honorable Members of the Board of Supervisors Citizens of the County of San Mateo, California

California Government Code sections 25250 and 25253 require that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2008.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control established for this purpose. Since the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. Macias Gini & O'Connell LLP has issued an unqualified ("clean") opinion on the County of San Mateo's financial statements for the fiscal year ended June 30, 2008. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A), which appears on pages 3-19 of this report, provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The County of San Mateo (County) is one of the nine counties in the San Francisco Bay Area. The County occupies 449 square miles on a peninsula bounded by San Francisco to the north, Santa Clara County to the south, San Francisco Bay to the east, and the Pacific Ocean to the west. Though sandwiched between two large urban areas, the County is a pleasant mix of suburban and rural areas. Most of the County's 739,469 residents live in the suburban corridor east of the Santa Cruz Mountains, which bisects the County. The western part of the County remains primarily rural and has some of California's most beautiful coastline. Between January 1, 2007 and January 1, 2008, the County's population grew less than one percent, from 733,496 to 739,469.

The County, established by an Act of the State Legislature in 1856, is a legal subdivision of the State of California charged with governmental powers. With a charter form of government, the County's powers are exercised through an elected Board of Supervisors (Board). The Board, as the governing body, legislates and sets policies for County government activities except for those functions reserved for elected officials: Assessor-County Clerk-Recorder, Controller, Coroner, District Attorney/Public Administrator, Sheriff, and Treasurer-Tax Collector. The County provides various services such as public protection, road and public facilities construction and maintenance, sanitation, health and social services, elections and records, planning, zoning, and tax collection.

Component Units

The governmental reporting entity consists of the County and its blended and discretely presented component units. Component units are legally separate entities for which the County is financially accountable or for which the relationship with the County is so close that exclusion would cause the County's financial statements to be misleading or incomplete.

Blended Component Units

The County has the following independent fiscal agencies as blended component units:

- The San Mateo County Joint Powers Financing Authority (JPFA) assists the County in the financing of public capital improvements. The JPFA is reported as a major governmental fund in the County's governmental fund financial statements.
- The San Mateo County Employees' Retirement Association (SamCERA) administers the financial activities of the County's pension plan. SamCERA is reported as a pension trust fund in the County's fiduciary fund financial statements.
- The Housing Authority of the County provides housing assistance to low and moderate-income families. The Housing Authority is reported as a major enterprise fund in the County's proprietary fund financial statements.
- The In-Home Supportive Services (IHSS) Public Authority assists consumers in finding IHSS personnel; provides training and support for providers, recipients and recipients' families; and performs other functions related to the delivery of in-home supportive services. The IHSS Public Authority is reported as a non-major governmental fund in the County's combining financial statements for non-major special revenue funds.
- The Board is the governing body of the County Service Areas, Sewer and Sanitation, Flood Control, Lighting, and other special districts. These special districts are reported as non-major governmental funds in the County's combining financial statements for non-major special revenue funds.

Discretely Presented Component Unit

First 5 San Mateo County (First 5) was created in 1998 with the passage of Proposition 10, which requires that a portion of tobacco tax be used to promote early childhood development for children ages 0-5 through education, health, child care, and other programs. As the County's Board appoints all of its members and approves its budgets, First 5 is reported as a discretely presented component unit of the County in the government-wide financial statements.

Budget

In accordance with California Government Code Sections 29000 and 29143, the County prepares a budget for all governmental funds, except for the JPFA, on a modified accrual basis. For the fiscal year (FY) 2008-09, the Board adopted a budget of \$1.95 billion. The annual budget serves as the foundation for the County's financial planning and control of expenditures. The level at which expenditures may not legally exceed appropriations is at the object level (e.g. salaries and benefits) within a budget unit.

Budget expenditures are enacted into law through the passage of an Appropriation Ordinance. The ordinance sets limits on expenditures, which cannot be changed except by subsequent amendments to the budget. The Board must approve amendments or transfers of appropriations for amounts above \$50,000 or between budget units. The County Manager's Office is authorized to approve transfers and revisions of appropriations up to and including \$50,000 within a single budget unit. Regardless of the amount, the Board must approve supplemental appropriations normally financed by unanticipated revenues or reserves.

Local Economy

Major Industries

The County has a diversified economic base, but its major industries are in the tourism and technology sectors. San Francisco International Airport (SFO) is located within the County's boundaries. The airport, airlines, and surrounding hotels are a major source of jobs. The tourism sector also generates significant revenues for the County in the form of property taxes, sales taxes, and hotel taxes. In 2007-08, the upward trend in SFO's total passenger volume increased 8.1%. Traffic at SFO increased with the reopening of Terminal 2, the expansion of Virgin America, and other low fare airlines. The impact of general economic conditions on future air travel is unknown.

The County is home to innovative researchers in the pharmaceutical, medical science, computer and other leading-edge and emergent industries. The five largest employers in the County are United Airlines, Genentech, County of San Mateo, Oracle Corporation, and Kaiser Permanente, and account for 11.2% of total employment.

Employment

The local economy is shrinking as the nation's economy continues to decline. The County's unemployment rate increased to 4.7% for June 2008 from 3.9% for June 2007. The County jobless rate is, however, much lower than the California's unemployment rate of 7.0% for June 2008.

Residential Real Estate

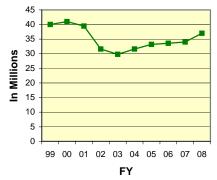

The housing market is clearly slowing. Activity in the housing market is 16% less than last year. The Assessor has lowered assessments on more than 1,000 properties for a total of \$350 million due to falling real estate prices.

The housing market in the Bay Area remains one of the highest priced regions in the State and the nation. In the first six months of 2008, the median price of a single-family home in the County was \$880,000 (a drop of \$50,000 from the first six months of 2007) compared to \$403,491 for California and \$201,300 for the U.S.

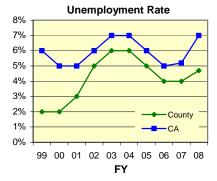

Commercial Real Estate

The vacancy rate for office space continues its downward trend. At the end of FY 2007-08, the vacancy rate was 10.1% compared to 11.1% for FY 2006-07. The decline is mainly caused by the expansion of technology and biotechnology industries. With a diminishing supply of higher quality available space, the average asking rental rate has jumped 17% to \$4.21 per square feet per month from \$3.60 last year.

Long Term Financial Planning

Four-Year Financial Plan

The County has adopted a four-year financial plan that includes projected growth in property tax and other general-purpose revenues, along with continued management of costs by setting conservative budget targets for departments. Under this plan, the use of fund balance will be limited to one-time costs such as remaining unfunded retiree health liabilities, capital improvements, equipment replacement, and technology upgrades. This plan also calls for maintenance of non-departmental reserves and contingencies at a ten percent minimum of the General Fund's net appropriations.

Five-Year Plan to Eliminate the Structural Budget Deficit

The County departments were directed by the Board to hold five percent of positions vacant in order to generate salary savings and to make positions available to reduce layoffs and to maintain a minimum of two percent of their departmental net appropriations in reserve. The County has since maintained a ten percent position vacancy rate.

Major position changes include the deletion of 19 positions from the Medical Center, and the addition of 9 positions for the Sheriff's Relief Unit to reduce overtime charges. There was a slight decline in retirement contributions, and retiree health costs were held flat as a result of the County setting up an irrevocable trust with the California Public Employee's Retirement System to prefund approximately 90% of its other postemployment benefits obligation. These efforts have resulted in slowing the rate of growth in salary and benefit costs.

The Board strives to eliminate the structural deficit by 2013 with the following strategies: (1) undertake no new expenditures without corresponding new revenue or cost-reduction offsets; (2) cap the annual rate of increase in General Fund Net County Cost to 5% to match the expected growth in revenue; (3) maintain operating reserves of at least 15% of net appropriations in the General Fund, in addition to 3% contingency reserves; (4) eliminate the General Fund subsidies to the County Fire and Sanitation districts; (5) reduce the General Fund contribution to the Medical Center to a level consistent with the Welfare and Institutions Codes § 17000 indigent health care obligation; and (6) limit future use of revenues from excess Educational Revenue Augmentation Fund to facility and technology infrastructure improvements, productivity enhancements, cost avoidance, reduction of unfunded liabilities, and other one-time uses.

Salaries and Benefits

The County's expenditures have been growing faster than anticipated revenues. Salaries and benefits have increased from \$606 million in FY 2006-07 to \$685.5 million in FY 2007-08, due to negotiated increases, addition of new positions, and rising retiree health costs.

Property Tax Revenues

The General Fund property tax revenue is the most important tax source for the County. Total taxable assessed property values for FY 2006-07 were \$122.9 billion compared to \$132.5 billion for FY 2007-08, an increase of 7.8%. The County's share of total property tax revenue was \$327 million in FY 2007-08 compared to \$295 million in FY 2006-07.

Source: Controller's Office, County of San Mateo

Pension Fund

The County participates in and contributes to a defined benefit pension plan that provides retirement, disability and death benefits for substantially all employees of the County. Contributions are made to SamCERA, which is reported as a pension trust fund in the County's financial statements. As of June 30, 2008, SamCERA's total net assets held in trust for pension benefits totaled \$2.01 billion, representing a decrease of \$120.9 million, or 5.7%, over the prior fiscal year.

The funded ratio has increased from 77.4% as of June 30, 2007 to 79.1% as of June 30, 2008, primarily from increased contributions made to payoff unfunded actuarial accrued liability (UAAL) and the recognition of deferred investment gain. The 20.9% UAAL results from actuarial accrued liabilities exceeding the actuarially determined value of assets. Original unfunded amount (UAAL) as of June 30, 2008 is amortized over 15 years. Future actuarial gains and losses will be amortized over a new 15-year period.

Retiree Healthcare Benefits

In June 2004, the County early implemented Governmental Accounting Standards Board Statement No. 45 (GASB 45). This statement requires governmental entities to account for and report their costs and obligations for Other Postemployment Benefits (OPEB). OPEB are part of an exchange of salaries and benefits for employee services rendered, such as agreements to provide health care benefits to employee upon retirement. Prior to GASB 45, the County financed the retiree health care costs on a "pay-as-you-go" basis, and did not report the financial effects of OPEB until the promised benefits are paid.

Based on the latest valuation for the County's OPEB plan, the County's unfunded actuarial accrued liability was \$156.8 million as of January 1, 2007; and its annual required contribution (ARC) was \$18.5 million for the fiscal year ended June 30, 2008. The ARC is calculated in accordance with certain parameters, and includes (a) the normal cost, the actuarial present value of benefits attributed to one year of service, for the year; and (b) a component for amortization of the total unfunded actuarial accrued liabilities (or funding excess) of the plan over a period not to exceed thirty years.

In March 2008, the Board decided to pre-fund the OPEB liabilities in an amount of \$145.0 million. The impact of the pre-funding is to reduce the County's annual required contribution from \$18.5 million to \$10.8 million. The Board's decision stabilizes the annual OPEB cost in future budgets, and also highlights its desire to be fiscally prudent in its efforts to maintain public services and a sufficient workforce to provide those services.

Relevant Financial Policies

Debt Service Limit Policy

Under the County's Debt Limit Ordinance, the Board is required to establish the County debt service limit annually. The debt service limit is applicable to non-voter approved debt that is the obligation of the County. The limit does not apply to any voter approved debt or any debts of agencies, whether governed by the Board or not, other than the County. The annual debt service limit shall not exceed 4% of the average annual County budget for the current and the preceding four fiscal years. The approved limit can be exceeded only through a 4/5 vote of the Board and upon a finding that such action is necessary in the best interests of the County and its citizens.

Investment Policy

The County's investment policy has the following objectives that, in priority order, are: safety, liquidity, yield, and public trust. The Board reviews and approves the policy annually. California Government Code and the County's investment policy regulate the types of securities in which the County Treasurer may invest.

The County's pooled investment had a net earning rate of 4.18% for FY 2007-08, a decrease from that of 4.32% for FY 2006-07. In comparison, California's Local Agency Investment Fund had a net earning yield of 4.37% in FY 2007-08 and 5.11% in FY 2006-07.

Source: Treasurer's Office, County of San Mateo

Since September 2008, the global economic environment has significantly changed with Dow Jones Industrials average plummeting more than 23%, between October 1 and November 12, 2008, and continuing to fall. Associated with this economic decline, major financial entities have failed, been bought out, or been recipients of federal funds to help prevent their failure. The County's pooled investment funds recorded a \$154.6 million loss related to the bankruptcy of Lehman Brothers. The County's portion of the overall loss is approximately \$22 million, or 14%.

The future effects of this global economic decline are unknown, however, it is anticipated that both the private and public sectors of the economy, including state and local governments, will be impacted. On September 30, 2008, with the passage of the FY 2008-09 Budget, the Board began a five year plan to address the County's structural deficit. It is anticipated that reductions in sales tax revenues, property tax revenue growth, and state and federal revenues will have a continued and significant impact on current and future budgets of the County.

Reserves Policy

The Board approved the County Reserves Policy in April 1999. Creation of the policy was initiated by the County's Fiscal Officers to help reduce the negative impact on the County during times of economic uncertainty and potential losses of funding from other governmental agencies. Available fund balance and reserves are viewed as one-time sources of funding that can only be used for one-time purposes or as part of a multi-year financial plan to balance the budget. The County Reserves Policy requires that (1) General Fund departments maintain a minimum reserves amount equivalent to 2% of net appropriations, (2) the County maintain a contingency appropriation equivalent to 3% of General Fund net appropriations for one-time emergencies and economic uncertainties, and (3) one million dollars in reserves for capital improvements and one million dollars in reserves for countywide automation projects.

Major Initiatives

Health Care

As a healthcare provider to low and uninsured populations, the County is faced with rapidly escalating costs and a growing uninsured population. The Board has engaged in two high priority efforts to address the County's role in the delivery and coordination of healthcare for low-income and underserved populations: the Blue Ribbon Coverage Expansion Initiative and the Alternatives for the Delivery of Healthcare to the Medically Indigent Population Study. The recommendations from both of these efforts are being pursued as the Health System Redesign Initiative in accordance with a two-year plan approved by the Board.

Capital Improvements

In March 2008, Public Works completed a comprehensive evaluation of all County facilities. This evaluation rated each facility and has been loaded into the Facilities Condition Information System (FCIS). This system is used in the priority-setting process to recommend projects for the Five-Year Capital Improvement Program. The Adopted Budget includes the five-year capital improvement plan, with a detailed list of projects and funding sources, which amounts to \$30.6 million of General Fund contributions. It also includes \$17.2 million to address deferred maintenance needs. Future budgets will include continued investments to address facilities deficiencies based on the Facilities Condition Index assigned by the FCIS.

Shared Vision 2025

In 2000, with Board participation, Shared Vision 2010 that defined the County's policies, programs, and spending priorities was developed. Since the adoption, the Board actions, including budget items, services and program plans are aligned with the commitments and goals. During the past fiscal year, the Board embarked on an ambitious effort to update Shared Vision 2010. At ten community forums they asked: What is the most important goal that the County should set for the year 2025? What was heard from the 1,000 participants is the desire for a healthy, connected, collaborative and sustainable community. While the Board is still in the process of developing the final goal statements, it is clear that in the coming year, Shared Vision 2025 will provide an important new framework to conduct a deliberative, priority-driven budget process – one that engages the community in the challenges and difficult choices to be made in order to provide the desired level and mix of services with constrained resources.

Improving Outcome for Children

African American children account for 2% of all children in the County, yet these children are overrepresented in the foster care and juvenile justice systems. Research indicates that children, particularly minority children, who enter the child welfare system, are more likely to remain longer; to experience multiple moves from foster home to foster home; and be adjudicated in the juvenile justice system. They are less likely to return to their families of origin or to be adopted. The overrepresentation of African American children in the County child welfare system is a symptom of a much larger issue: the urgent need to improve outcomes for children in our community.

The Budget includes \$150,000 to study this complex issue and prepare concrete actions to reverse these trends. The Courts are invited to be active partners in this review. The study will analyze data, review processes, identify any systemic biases that exist, and recommend best practices that will achieve equitable outcomes for all children in these systems. The results of this review and appropriate policy recommendations will be reported to the Board through the Housing, Health and Human Services Committee.

Public Safety Communications

Public Safety Communications (PSC) is working on several projects to improve emergency response services to the County residents. On June 3, 2008, PSC began taking 911 calls from cell phones served by Sprint/Nextel with service to all phone providers available by the end of 2008. PSC will answer about 40% of the wireless 911 calls originating in the County because the Highway Patrol has jurisdiction over calls from all state roads and highways. PSC is also starting a one-year SMART 911 pilot program with a vendor that provides supplemental information to dispatchers about a caller's premises when a 911 call is received. SMART is a software program that one would register their personal and medical information to prompt when called. The final PSC project is associated with the upcoming contract negotiations for Emergency Medical Services (EMS). PSC will work with the selected EMS vendor to enhance the PSC Computer Aided Dispatch system to improve emergency response time and increase EMS provider accountability.

Awards and Acknowledgements

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report for the fiscal year ended June 30, 2007. This was the eighth consecutive year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the County also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the fiscal year beginning July 1, 2007 and the GFOA's Award for Outstanding Achievement in Popular Annual Financial Reporting for the fiscal year ended June 30, 2007. All of these reports are available on the County website at http://www.co.sanmateo.ca.us.

Acknowledgements

My goal is to publish financial information on a schedule that is helpful to policy leaders and County managers. I wish to extend a special thanks to all the fiscal officers and staff of the County's departments and agencies whose efforts ensure the financial stability and integrity of the County.

I would particularly like to acknowledge the extra efforts extended for the preparation of this report by the Controller's Office personnel. I wish to also thank the Grand Jury Auditors, Macias Gini & O'Connell LLP.

Most importantly, I would like to thank each member of the Board of Supervisors, the County Manager's Office, and all County departments for their continued efforts in planning and conducting the County's financial operations in a responsible and progressive manner.

Respectfully submitted,

Tom Huening, CPA, Certified Public Finance Officer

Controller

Certificate of Achievement for Excellence in Financial Reporting

Presented to

County of San Mateo California

For its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2007

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

To the Grand Jury and the Board of Supervisors of the County of San Mateo Redwood City, California

Independent Auditor's Report

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of San Mateo, California (County), as of and for the fiscal year ended June 30, 2008, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Housing Authority of the County of San Mateo (Housing Authority) and the San Mateo County Employees' Retirement Association (SamCERA). The Housing Authority, a major fund, represents 18 percent, 25 percent, and 29 percent of the assets, net assets and revenues, respectively, of the business-type activities. SamCERA represents 44 percent and 46 percent of assets and net assets, respectively, of the aggregate remaining fund information. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for the Housing Authority and SamCERA, are based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County as of June 30, 2008, and the respective changes in financial position, and, where applicable, cash flows thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2(n) to the basic financial statements, effective July 1, 2007, the County adopted the provisions of Governmental Accounting Standards Board Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*.

The global financial markets have experienced significant volatility. As a result, the fair value of the County's investments has declined subsequent to June 30, 2008, as described in Note 19 to the financial statements.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2008 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis, the infrastructure assets reported using the modified approach, the schedules of funding progress, and the budgetary comparison information – general fund listed in the accompanying table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we and the other auditors express no opinion on them.

Walnut Creek, California November 25, 2008

Management's Discussion and Analysis (Unaudited)

Management's Discussion and Analysis

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

This section of the County's comprehensive annual financial report provides an overview and analysis of the County's financial activities for the fiscal year ended June 30, 2008. Please read it in conjunction with the transmittal letter located at the front of this report and the County's basic financial statements following this section. **All dollar amounts are expressed in thousands unless otherwise indicated.**

FINANCIAL HIGHLIGHTS

Government-wide financial analysis

The assets of the County exceeded its liabilities at the close of the fiscal year 2007-08 by \$1,092,082 (*net assets*). Of this amount, \$535,728 (*unrestricted net assets*) may be used to meet the County's ongoing obligations to citizens and creditors, \$148,719 is restricted for specific purpose (*restricted net assets*), and \$407,635 is invested in capital assets, net of related debt.

Fund financial analysis

Total fund balances for the County's governmental funds amounted to \$429,790 at June 30, 2008, a decrease of \$51,518 from the prior fiscal year. Approximately \$333,823, or 78%, of this total is unreserved and available to meet the County's current and future needs.

Unreserved fund balance in the County's chief operating fund, the General Fund, at year-end was \$265,544, or 35%, of its total expenditures for the year.

Capital asset and debt administration

The County's investment in capital assets has increased by \$8,141, or 1%, from \$773,370 to \$781,511. This balance consisted of \$729,375 for the governmental activities and \$52,136 for the business-type activities.

The County's total long-term debt has decreased by \$7,171, or 2%, from \$430,183 to \$423,012. The decrease was primarily due to scheduled retirement of outstanding bonds and certificates of participation.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the County's basic financial statements. The County's basic financial statements include three components: 1) **Government-wide** financial statements, 2) **Fund** financial statements, and 3) **Notes** to the basic financial statements. In addition to the basic financial statements, *Required Supplementary Information* is included.

Government-wide Financial Statements provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The *statement of net assets* presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. The *statement of activities* presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in a future fiscal period (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public protection, public ways and facilities, health and sanitation, public assistance, and recreation. The business-type activities of the County include the funds for the San Mateo Medical Center (Medical Center), the Airports, Coyote Point Marina, and Housing Authority.

The government-wide financial statements can be found on pages 20-22 of this report.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

Fund Financial Statements are groupings of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with financial-related legal requirements. The County's funds are divided into three categories: *governmental funds*, *proprietary funds*, and *fiduciary funds*.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the governmental activities, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 20 individual governmental funds. Information for the General Fund and San Mateo County Joint Powers Financing Authority (JPFA) is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances. Other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the *combining statements* elsewhere in this report.

The governmental fund financial statements can be found on pages 23-26 of this report.

Proprietary funds are maintained in two ways. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the Medical Center, Airports, Coyote Point Marina, and Housing Authority operations. *Internal service funds* are used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its workers' compensation insurance, long-term disability insurance, employee benefits, personal injury and property damage insurance, fleet maintenance, and Tower Road construction functions. Because these services predominantly benefit governmental rather than business-type functions, they are included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as *business-type activities* in the government-wide financial statements, only in more detail. The County's major enterprise funds include the Medical Center and the Housing Authority. The County's six internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of the nonmajor enterprise and internal service funds are provided in the form of *combining statements* elsewhere in this report.

The proprietary fund financial statements can be found on pages 27-30 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 31-32 of this report.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

Our basic financial statements also incorporate *component units* that are legally separate entities for which the County is financially accountable. These units possess substantially the same board as the County or provide services entirely to the County. The County's blended component units include JPFA; San Mateo County Employees' Retirement Association (SamCERA); Housing Authority of the County of San Mateo (Housing Authority); In-Home Supportive Services Public Authority; County service areas, sewer and sanitation, flood control, lighting and other special districts. First 5 San Mateo County does not meet the requirements for blending and thus it is reported as a discretely presented component unit.

Notes to the Basic Financial Statements provide additional information that is essential to obtain a full understanding of the data provided in the government-wide and fund financial statements.

The notes can be found on pages 33-68 of this report.

Required Supplementary Information consists of: 1) infrastructure assets reported using the modified approach to account for the County's road subsystem; 2) funding progress schedules for the pension benefits and other postemployment benefits; and 3) County's General Fund budgetary comparison schedule to demonstrate compliance with the County's adopted budget.

Required supplementary information can be found on pages 69-79 of this report.

Combining and individual fund statements and schedules provide information for nonmajor governmental funds, nonmajor enterprise funds, internal service funds, and fiduciary funds and are presented immediately following the required supplementary information.

Combining and individual fund statements and schedules can be found on pages 80-123 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets can serve over time as a useful indicator of whether the County's financial position is improving or deteriorating. Other factors, such as market conditions, should be considered in measuring the County's overall financial position. The County's assets exceeded its liabilities by \$1,092,082 at June 30, 2008. The County's overall financial position has improved by \$37,142, or 4%, in FY 2007-08.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

Assets. The County's total assets decreased by \$19,543 or 1%. Significant changes are caused by the following:

Governmental activities. Total assets for the governmental activities decreased by \$50,612, or 3%. The decrease is primarily due to the following:

In June 2004, the Governmental Accounting Standards Boards (GASB) issued Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (OPEB). This statement requires state and local governments to report their costs and obligations related to postemployment healthcare and other non-pension benefits. Accordingly, the County hired a consultant to conduct an actuarial valuation to determine its liabilities in OPEB. The valuation revealed that the County's unfunded actuarial accrued liabilities in OPEB were \$135,678 as of July 1, 2005. As part of its long-term financial planning, the County set aside in the Employee Benefits Fund a total of \$79,021 earmarked for the funding of OPEB between FY 2006 and FY 2007. The amount designated was invested in the Vanguard Balanced Index Fund to maximize investment earnings.

In May 2008, the County established an irrevocable trust account with California Employer's Retiree Benefit Trust (CERBT) to fund its retiree healthcare benefits. The initial contribution into the CERBT account was \$145,434, with \$83,296 from closing the investment account with Vanguard and \$62,138 additional funding from general reserves. The contribution was proportionally allocated to participating funds to offset existing net OPEB obligations and build up net OPEB assets with the excess. This financial plan essentially created a cash outflow of \$145,434 (decrease in current assets) and a net OPEB asset of \$95,398 (increase in non-current assets), resulted in a net decrease of \$50,036 in total assets.

• One of the investment vehicles the County uses to optimize its earnings is through securities lending. The underlying securities loaned to the counterparty decreased to \$282,636 from \$500,000 last year. This change caused a \$50,688 decrease in securities lending collateral.

The decrease in total assets discussed earlier aggregated to \$100,724. The overall decrease, however, was reduced to \$50,612 by a \$32,365 increase in due from other governmental agencies resulting from the timing difference between claims and payments, and a total increase of \$17,747 in other areas of assets such as internal balances.

Business-type activities. Total assets for the business-type activities increased by \$31,069, or 26%. The increase is primarily due to the following:

- The Medical Center's total assets increased by \$24,565. The increase was mostly caused by a one-time subsidy of \$27,109 from the General Fund to fund the Medical Center's retiree healthcare benefits. Part of the subsidy was used to settle the prior year's liabilities in retiree healthcare benefits, and the excess of \$22,123 was used to build up assets to meet future needs.
- The Housing Authority's total assets increased by \$4,799. The increase was primarily in cash resulting from undistributed housing assistance funding from the U. S. Department of Urban Housing Development (HUD).
- The Airports' total assets increased by \$4,136. The Airports completed three construction projects with an aggregated value of \$3,709 added to structures and improvements. These projects included apron and runway improvement at the San Carlos Airport, and terminal building upgrades and airfield drainage improvement at the Half Moon Bay Airport. A separate, unfinished project to build 70 aircraft hangars at the San Carlos Airport added another \$2,678 to work-in-progress. The Airports' capital assets essentially increased by \$6,387 in total. The increase was partially offset by decreases in other types of assets, particularly in cash to pay for escalated expenses in capital construction and improvement.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

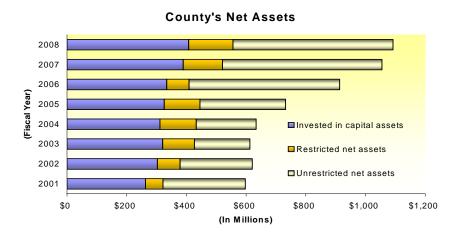

Liabilities. The County's total liabilities decreased by \$56,685 or 7%. Significant changes are caused by:

Governmental activities. Total liabilities for the governmental activities have decreased by \$56,285, or 8%. The underlying securities loaned to the counterparty decreased to \$282,636 from \$500,000 last year. This change caused a \$50,688 decrease in securities lending collateral due to borrowers, accounting for most of the decrease seen this year.

Business-type Activities. Total liabilities for the business-type activities decreased by \$400, or 1%. The decrease is primarily due to a mixed result of the following:

- The Medical Center's total liabilities decreased by \$1,652. With a one-time subsidy from the General Fund, the Medical Center liquidated its prior year's liabilities in retiree healthcare benefits of \$3,117. Additionally, due to a decrease in settlement payments determined through the cost report and the third-party reimbursement audits, the amount due to other governmental agencies decreased by \$3,592 in total. The overall decrease brought by these events was partly offset by increases in the following areas due to the timing of payments: a \$3,237 increase in accounts payable, a \$722 increase in accrued salaries and benefits, and a \$998 increase in due to other funds.
- The Housing Authority's total liabilities decreased by \$1,342. The decrease is primarily due to a \$1,000 decrease in escrow liabilities connected to the Family Self-sufficiency program. This program is focused on helping participants obtain skills to be self-contained. In general, as the participant's earned income increases, the Housing Authority will take a portion of the rent subsidy and place it in an interest-bearing escrow account. Once the participant graduates from the program by completing all goals set in the Self-sufficiency Plan, the participant may cash out the escrow account.
- The Airports' total liabilities increased by \$3,786. In July 2007, the Airports obtained a \$4,000 loan from the State Department of Transportation to build new aircraft hangars at the San Carlos Airport. The loan will be repaid in 15 years at an annual interest rate of 4.78%.

Net Assets. The County's total net assets are divided into three portions: investment in capital assets less any related debt, restricted net assets, and unrestricted net assets. Approximately 37% of the County's net assets represents its *investment in capital assets* (e.g., land, buildings and equipment), less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the County's investment in capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. Another 14% is *restricted net assets* that are subject to external restrictions on how they may be used. The remaining 49% is *unrestricted net assets* that may be used to meet the County's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis (Continued)

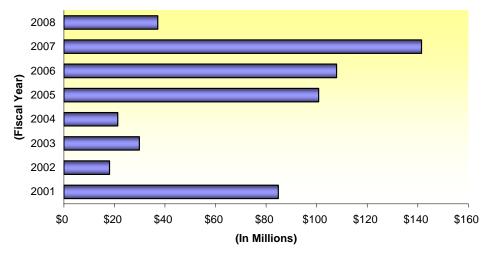

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

As indicated earlier, the County's overall financial position has improved in FY 2007-08 by \$37,142, or 4%, with \$5,673 net increase from governmental activities and \$31,469 from business-type activities.

Change in County's Net Assets

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

Governmental activities. Net assets for the governmental activities increased by \$5,673, which accounts for about 15% of the overall increase in the County's net assets.

Revenues for governmental activities. Significant changes are caused by the following:

Property taxes increased by \$31,623, or 11%. Most of the increase occurred in the General Fund, including (1) secured property taxes of \$11,895, which is in line with growth in the secured property tax assessment; (2) property taxes of \$11,685 from contributions made to the Education Revenue Augmentation Fund (ERAF) in excess of mandated school funding level; and (3) property tax in lieu of vehicle license fee (VLF) of \$4,800, which is also in line with growth in the secured tax assessment under the VLF swap provisions.

Unrestricted interest and investment earnings decreased by \$9,277, or 23%. Shrinking economy significantly impacted the County's return on investments. The average return on the County investment pool slipped to 4.18% from 4.32% last year, accounted for part of the decrease in investment income. The remaining decrease resulted from the depreciation in investment fair value.

Expenses for governmental activities. Significant changes are caused by the following:

Public Protection increased by \$16,697, or 6%. Primary factors contributed to the increase are as follows:

- Sheriff Department. In September 2005, the Sheriff's Office established a new unit, the Sheriff's Relief Staffing Pool, with nine positions to better plan for and respond to emergency situations and service needs in the County. In February 2007, the Board approved a plan to phase-in additional relief staffing to add nine positions each year in FY 2007-08 and FY 2008-09. Nine positions were added to the pool this year. Additionally, in September 2007, the Board established a Sheriff's Jail Planning Unit to replace the Women's Correctional Center and address various jail over-crowding efforts. The increases in staffing plus merit increases and negotiated labor increases pushed the expenses in salaries and benefits up by \$4,361.
- Probation Department. In September 2006, construction of the main facilities at the new Youth Service Center (YSC) was completed. The Probation Department was transitioned from the old structures to the new facilities to better meet the needs of youth and their families in the County. The new residency caused a sharp increase in rental expenses of \$4,509. Additionally, merit increases and negotitated labor increases added a \$1,904 more to salaries and benefits.
- District Attorney Office. Recent surveys revealed that attorneys in the District Attorney Office were paid 10% below the median range. The Board consequently approved to give a 10% salary increase to all 57 attorney positions in the County effective May 20, 2007. This adjustment resulted in a total increase of \$1,359 in salaries and benefits this year.
- *Private Defender*. Service fees charged by the Bar Association increased by \$478. The Board adopted a 5-year agreement with the San Mateo County Bar Association to provide Private Defender Program services.

Health and sanitation increased by \$35,341, or 18%. Primary factors contributed to the increase are as follows:

- On July 24, 2007, the Board approved a plan to merge the Alcohol and Other Drug Services (AOD) and the Mental Health Services into a new unit, Behavioral Health and Recovery Services, within the Health Department. Because of the reorganization, 32 positions were transferred to AOD from the Human Services Agency (HSA). The creation of AOD, merit increases, and negotiated labor increases drove the expenses in salaries and benefits up by \$10,311.
- Non-payroll expenses of the Behavioral Health and Recovery Services increased by \$7,443. Most of the increase resulted from expanded services provided to clients benefited from the Mental Health Services Act (MHSA). The MHSA is dedicated to expanding and transforming all county mental health programs within California. The MHSA is funded by an additional one percent on personal taxable income in excess of one million. The revenue

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

generated is used to support programs for the seriously mentally ill, expand community-based services, and enhance outreach activities targeting under-served ethnic minority and non-English speaking communities.

- Three units of the Health Department: the Mental Health Services, the Family Health Services, and the Environmental Health Services, were relocated to a new building on Alameda de las Pulgas in San Mateo. The one-time moving expenses amounted to \$4,363.
- The Public Health Services experienced two major outlays that resulted in a \$3,478 increase in expenses. These outlays included \$1,980 used to solicit support from PET Data Incorporation for animal licensing services and \$1,498 for relocating the San Mateo Clinic to the new building on Alameda de las Pulgas.
- The operating expense for sewer services soared by \$3,387. The increase is primarily due to a \$2,597 increase in sewage treatment. Public Works provides sewer collection services for residents and businesses in ten sewer maintenance and sanitation districts within the County. Operating costs are recouped through service charges levied on properties receiving the services.

Public assistance increased by \$49,627, or 33%. The County's Department of Housing (DOH) administers several housing programs and issues loans to qualified low-income applicants. Last year the DOH changed its methodology for calculating the allowance for uncollectible loans. This change caused a one-time reduction to the public assistance expense of \$57,208 in FY 2007, causing most of the increase seen this year.

Transfers-out increased by \$27,792, or 45%. The increase is mainly resulted from a one-time subsidy provided to participating funds. The subsidy was used to pay down unfunded actuarial accrued liabilities for the retiree healthcare benefits and build up assets for the years to come.

Governmental Activities Governmental Activities Revenues by Source Expenses by Function/Program Recreation Interest on long-Unrestricted Public 1% term liabilities interest & assistance Miscellaneous 2% investment 24% 2% earnings 3% General Charges for government Other taxes services 3% 8% 13% Health and sanitation 28% Public protection Operating & capital grants and Public ways and Property taxes contributions facilities 35% 44% 2%

For the fiscal year ended June 30, 2008, revenues and expenses for the governmental activities are as follows:

Business-type activities. Net assets for the business-type activities increased by \$31,469. Significant changes are as follows:

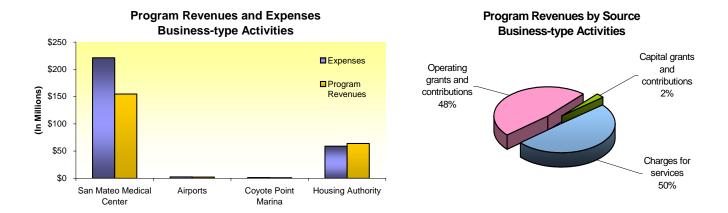

Medical Center. The Medical Center's net assets increased by \$26,217. The Medical Center incurred a \$70,930 loss in operation since the cost of providing healthcare services significantly overrun the charges for the services provided. With a subsidy of \$72,277 from the General Fund, the Medical Center was able to continuously provide mandated care for the uninsured and indigent population in the County. Additionally, the General Fund also provided the Medical Center with a one-time subsidy of \$27,109 to fund its retiree healthcare benefits, which became the prominent factor for the increase in net assets.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

Housing Authority. The Housing Authority's net assets increased by \$6,141. Although HUD provided the Housing Authority with a total of \$61,965 to operate multiple housing assistance programs, housing assistance payments and related operating costs amounted only to \$58,923. This resulted in a \$3,042 increase in net income. The remaining increase was primarily attributed to the rental revenues from tenants.

For the fiscal year ended June 30, 2008, revenues and expenses for the business-type activities are distributed as follows:

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The general government's functions are reported in the general, special revenue, debt service, and capital projects funds. Included in these funds are various special districts governed by the Board that are blended into nonmajor governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of unrestricted resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance at the end of the fiscal year can serve as a useful measure of the County's net resources available for spending.

As of June 30, 2008, the County's governmental funds reported combined ending fund balances of \$429,790 at year-end, a decrease of \$51,518, or 11%, in comparison to the prior year. Approximately 78% of this total amount, or \$333,823, constitutes unreserved fund balance that is available to meet the County's current and future needs. The remainder of the fund balance is reserved for specific spending; \$2,385 is committed to liquidate contractual commitments, \$68,431 to meet debt service requirements, \$6,288 to reflect inventories and the amount due from other funds that are long-term in nature and thus do not represent available unrestricted resources, and \$18,863 to finance capital projects.

The *General Fund* is the primary operating fund of the County. At June 30, 2008, unreserved fund balance was \$265,544 while total fund balance reached \$273,858. As a measure of liquidity, both unreserved fund balance and total fund balance can be compared to total fund expenditures. Unreserved fund balance represents 35% of total fund expenditures, while total fund balance represents 36% of the same amount. The fund balance of the County's General Fund has decreased by \$59,368, or 18%.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

For the fiscal years ended June 30, 2008 and 2007, revenues for the General Fund are distributed as follows:

General Fund - Revenues by Source

| | | FY 2 | 2008 | FY 2 | 2007 | Increase/(Decrease) | | | | |
|-----------------------------------|--------|---------|----------|---------------|----------|---------------------|----------|-----------|--|--|

| Securities lending income, net | | 254 | 0.03% | 72 | 0.01% | | 182 | 252.78% | | |
| Other | | 33,194 | 3.89% | 16,914 | 2.04% | | 16,280 | 96.25% | | |
| Total | \$ | 853,279 | 100.00% | \$ 827,908 | 100.00% | \$ | 25,371 | 3.06% | | |

General Fund Revenues. Significant changes in revenues are as follows:

Taxes increased by \$17,803 or 6%. The increase is primarily due to increases in (1) secured property taxes of \$11,895, which is in line with growth in the secured property tax assessment; (2) property taxes of \$11,685 from contributions made to ERAF in excess of mandated school funding level; and (3) property tax in lieu of VLF of \$4,800, which is also in line with growth in the secured tax assessment under the VLF swap provisions. The general fund financial statements are prepared using the modified accrual basis of accounting. Under this accounting method, revenues are recognized only if they are both measurable and available within sixty days after year-end. Revenues that are not available within this period are deferred. Part of the increase in taxes is unavailable and therefore deferred.

Intergovernmental revenues decreased by \$18,424, or 5%. Key factors contributed to the decrease are as follows:

- To enhance the accessibility and integrity of elections across the country, the California Secretary of State Department and the California Voting Modernization Board provided the County with a one-time funding of \$9,140 last year to purchase a voting system that complies with the federal requirements. This one-time grant caused a \$9,140 decrease in revenues.
- The Office of Emergency Services/Homeland Security obtained five homeland security grants last year. The closeout of these grants caused a \$5,952 drop in revenues.

Charges for services increased by \$14,097, or 18%. Key factors contributed to the increase are as follows:

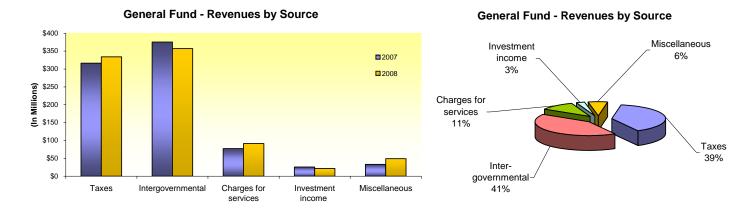

- A total of \$7,924 increase was associated with mental healthcare services provided to the mentally ill. This year the Mental Health Services realized a \$3,119 increase in charges for services. Last year a total of \$15,337 in charges for services earned was deferred because the payments were not available within sixty days after June 30, 2007. Due to the timing difference of when the County collected payments, the County recognized an additional \$4,805 of revenues this year.
- Sewer service charges increased by \$2,238 due to rate increases. Public Works provides sewer collection services for residents and businesses in ten sewer maintenance and sanitation districts within the County. The sewer collection service is primarily funded by service charges levied on properties within the Districts. The Board sets sewer charge rates, and the charges are collected annually on the property tax bill.
- The Road Fund realized a \$1,136 increase in charges for services. Public Works supports roadway and other related transportation system projects through on-going maintenance and improvement projects. Expansion in the services provided to the community attributed to most of the increase.

Management's Discussion and Analysis (*Continued***)**

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

Investment income decreased by \$4,096, or 16%. Explanations are provided on page 9.

Other revenue increased by \$16,280, or 96%. Total other revenue earned this year only diminished slightly by \$180, from \$24,964 to \$25,144. However, an \$8,230 earned last year was deferred and recognized as revenues this year when it became available. This caused other revenue to shift to \$33,194 from \$16,914 (net of deferral) last year, reflecting a total increase of \$16,280.

For the fiscal years ended June 30, 2008 and 2007, expenditures for the General Fund are distributed as follows:

FY 2008 FY 2007 Increase/(Decrease) Percent Percent Expenditures by Function Amount of Total Amount of Total Amount General government \$ 68,723 9.13% \$ 54,967 7.66% \$ 13,756 Public protection 275,259 36.58% 261,840 36.48% 13,419

171,419

23.88%

General Fund Expenditures. Significant changes in expenditures are as follows:

202,418

Health and sanitation

General government increased by \$13,756 or 25%. Key factors contributed to the increase are as follows:

- The Election Office conducted four major elections this year compared to one election last year. The four elections included: the Consolidated Municipal School and Special Election on November 6; the Presidential Primary Election on February 5; the Special Congressional Open Primary Election on April 8, and the Statewide Direct Primary Election on June 3, 2008. Consequently, services and supplies increased by \$2,726.
- The Non-departmental Services reported a \$4,682 increase in other charges. Primary reasons for the increase include: \$3,500 to supplement operating costs for two countywide elections; \$350 to conduct a management review of DOH; \$300 to pay for consulting services associated with redesign of the Health Care System; and \$365 to fund various parks and recreation projects.
- The Real Property Services recognized a \$2,660 increase in rental expenses. The increase is primarily due to increased use of lease facilities and scheduled rent increases.

Management's Discussion and Analysis (Continued)

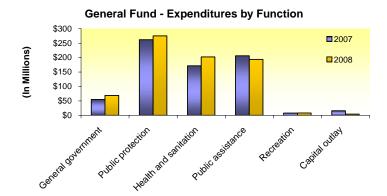

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

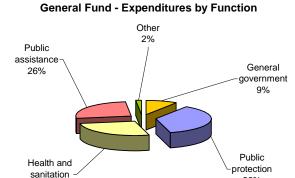

Public protection increased by \$13,419, or 5%. Explanations are provided on page 9.

Health and sanitation increased by \$30,999, or 18%. Explanations are provided on pages 9-10.

Public assistance decreased by \$12,387, or 6%. The decrease includes: (1) \$4,480 in a mixture of welfare programs due to decreased caseloads; (2) \$2,550 in housing project costs, a result of decreased funding from HUD; (3) \$873 in assistance payments due to decreased caseloads in the Aid to Families with Dependent Children; (4) \$778 in aid payments due to diminished cash assistance to immigrants who are either aged, blind or disabled; and (5) other activities.

Capital outlay decreased by \$11,643, or 74%. In October 2002, the Congress enacted the Help America Vote Act (HAVA) to enhance the accessibility and integrity of elections across the country. Accordingly, the County purchased a new voting system of \$9,333 last fiscal year to comply with the HAVA requirements. This accounted for the significant decline in capital expenses in the current fiscal year.

36%

Joint Powers Financing Authority is a major governmental fund. Its key function is to obtain financing for County-sponsored capital projects. The JPFA's fund balance had a net decrease of \$1,365, primarily caused by capital spending on unfinished facilities at the Youth Services Center.

27%

Nonmajor governmental funds include all special revenue funds, the debt service fund, and all capital projects funds. The net increase in fund balance for these funds was \$9,215 which resulted from the following significant events:

Special revenue funds. Total fund balances in the special revenue funds increased by \$6,584. The increase is mainly caused by the following:

- Fund balance in the Road Fund increased by \$2,296. The surplus is primarily caused by increased income for services provided to the community and increased funding of \$1,269 from the federal and the State for road construction and improvement.
- Fund balance in the Sewer and Sanitation fund increased by \$1,711. The increased income is mainly caused by rate increases in sewer service charges in the ten Sewer and Sanitation Districts.
- Fund balance in the Flood Control Zone increased by \$1,112 primarily caused by increases in property tax revenue from special levy on properties within the zone.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

Debt debt fund. Fund balance in this fund increased by \$2,068 primarily due to excess debt service contribution from departments and investment income.

Capital projects funds. Fund balance in the Capital Projects Funds increased by \$563 in total. The increase is caused by unspent contributions from other funds for various capital improvement projects within the County.

Proprietary funds. The County's proprietary funds provide the same type of information that can be found in the government-wide financial statements, but in more detail.

Enterprise funds include two major funds (Medical Center and Housing Authority) and two nonmajor funds (Airports and Coyote Point Marina). Discussion on major fund activities can be found in the County's business-type activities section. Total net assets of nonmajor enterprise funds increased by \$233, primarily due to the following:

- Airports. Total net assets of the Airports increased by \$350. The increase primarily attributed to a one-time subsidy of \$212 from the County General Fund for the funding of retiree healthcare benefits. The Airports also received a total of \$145 funding from the State for capital improvements and an environmental assessment dealing with issues at the Half Moon Bay Airport.
- Coyote Point Marina. Total net assets of the Coyote Point Marina decreased by \$117. Coyote Point Marina incurred an operating loss of \$221, primarily due to diminished demand for park services and increased outlays on general expenses. The loss was discounted by a one-time subsidy of \$148 from the General Fund for the funding of retiree healthcare benefits.

Internal service funds. Total net assets of internal service funds decreased by \$83,582. The decrease is essentially caused by the following major events:

- Workers' Compensation Insurance. Total net assets in the Workers' Compensation Insurance Fund decreased by \$2,411. The estimated cost of unpaid claims for workers' compensation increased by \$3,465 this year, primarily due to increases in the number of claims and the costs. The decrease was partially offset by investment income and other revenues.
- Personal Injury and Property Damage. Total net assets in the Personal Injury and Property Damage Fund increased by \$1,934. The increase was mainly resulted from higher chargeback for services provided to participating funds.
- Employee Benefits. Total net assets in the Employee Benefits Fund decreased by \$82,759. As discussed earlier, the \$79,021 earmarked funding for OPEB resided in the Employee Benefits Fund as investments with Vanguard since December 2006. Until May 2008, the County liquidated its investments with Vanguard for a total cash value of \$83,296. This fund was subsequently transferred to the County General Fund to supplement its initial contribution target to the CERBT of \$145,434, with an additional funding of \$62,138 from general reserves. The net assets in the Employee Benefits fund fell sharply after the transfer. Its impact on net assets was adjusted slightly by increases in other revenues, resulting in a net decrease of \$82,759.

Remaining internal service funds are Fleet Maintenance and Long-term Disability. Changes in net assets in these funds are insignificant.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

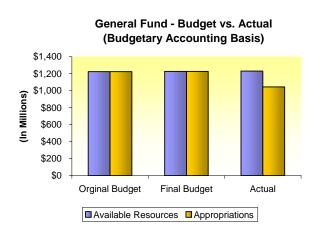

GENERAL FUND BUDGETARY HIGHLIGHTS

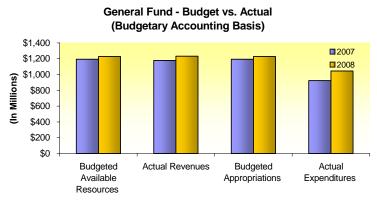

The General Fund's final budget exceeded its original budget by \$2,716 or 0.2% for the fiscal year ended June 30, 2008. Supplemental appropriations were sponsored through unanticipated revenues from various sources, primarily intergovernmental revenues and charges for services. The Sheriff's Office and the Health Services Department realized a total of \$862 unanticipated state and federal aids for programs dedicated to improving public protection, aging and adult services, environmental protection, and mental health services. The Election Office also recognized unanticipated revenues of \$318 from the State for the 2008 Presidential Primary Election, and \$678 from local governmental agencies for election services provided in three separate elections – the Consolidated Municipal, School and Special District Elections in November 2007; the Presidential Primary Election in February 2008; and the Statewide Direct Primary Election in June 2008. In most cases, unanticipated revenues were appropriated within the receiving budget units to complement operating outlays.

Actual General Fund revenues exceeded the total budget estimates by \$66,980. The excess is mainly due to a \$46,052 unanticipated increase in property taxes and the \$83,296 transfer from the Employee Benefits internal service fund for the prefunding of retiree healthcare benefits. Most of this excess was offset by a \$12,490 decrease in interfund revenue and a \$54,735 decrease in intergovernmental revenues primarily due to the close-out of five homeland security grants, reduced federal support from HUD for housing assistance programs, and delay in claim reimbursements.

Actual General Fund expenditures fell below the total budget estimates by \$183,025 due to the following factors:

- Hiring freeze and unfilled positions across all functions contributed to a \$26,573 savings in salaries and benefits.
- Unfinished projects and improved controls over costs accounted for a savings of \$50,821 in services and supplies.
 Most savings occurred in the Information Services Department (ISD), the HSA, and Non-departmental Services.
- Unfinished projects and better controls over costs attributed to a \$32,631 savings in other charges. Most savings occurred in the HSA and Non-departmental Services.
- Projects budgeted, but not completed, resulted in a \$5,872 savings in fixed assets. Most savings occurred in the ISD and the Sheriff's Office.
- Untapped contingency reserves across all functions approximated to \$77,006.
- Unrealized intra-fund transfers and unanticipated use of other financing uses reduced the savings by \$9,878.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets. The County's capital assets include land and easements, infrastructure, construction in progress, structures and improvements, equipment, and software. At June 30, 2008, the County's investment in capital assets amounted to \$781,511. The County's capital assets have increased by \$8,141, or 1%, compared to the prior fiscal year.

The County's infrastructure assets are recorded at their historical cost in the government-wide financial statements as required by GASB Statement No. 34. The County has elected to use the modified approach to report its maintained road subsystem of the road network of \$77,253. Infrastructure assets reported under the modified approach are not subject to depreciation per this statement.

The County manages its maintained pavement subsystem of the road network using the Metropolitan Transportation Commission's Pavement Management Program (Program). This Program establishes a Pavement Condition Index (PCI) on a scale of zero to one hundred (0 – 100) for each road segment. Roads with a PCI of 40 or higher are considered in "Fair" or better condition, and roads with a PCI of 55 or higher in "Good" or better condition. The County adopted a policy requiring that at least 75 percent of its primary maintained road subsystem (roads with structural sections) be maintained at a PCI of 55 or higher, and at least 65 percent of its the secondary maintained pavement subsystem (roads without structural sections) at a PCI of 40 or higher. A complete condition assessment is determined every three years. The latest complete condition assessment was completed in FY 2006-07, when the County's maintained pavement subsystem was rated at a PCI of 81 on the average for the primary roads and 62 for the secondary roads. For the fiscal year ended June 30, 2008, the actual maintenance and preservation costs were less than the estimated amount by \$171. The variance was primarily due to road projects that were budgeted, but not completed at year-end.

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

The County aims for finishing the remaining construction at the Youth Service Center (YSC). The JPFA issued lease revenue bonds in November 2003 to acquire and construct the YSC, which included a juvenile hall, a girls' camp, a community school, a receiving home, group homes, juvenile courts and probation administration offices for the County. The main facility of the YSC was completed in September 2006. The remaining capital projects attached to the YSC Construction, which include completion of the receiving home and the group home, deconstruction of the old facility, and removal of the berm, will cost approximately \$11.7 million. The receiving home will be completed by November 2008. The group home is still in working stages, and the scope for this project is not finalized yet. The deconstruction of the old Hillcrest Facility will be completed in 2009. The removal of the berm will begin upon completion of the deconstruction of the old Hillcrest Facility. Total outstanding commitments amounted to approximately \$2.5 million at June 30, 2008.

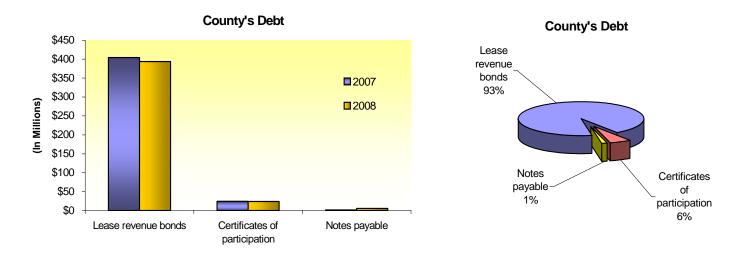

Additional information on the County's capital assets can be found in Note 8 on pages 53-54 of this report.

Long-term debt. The County had a total outstanding debt of \$423,012 as of June 30, 2008. This amount is comprised of \$393,565 in lease revenue bonds, \$24,083 in certificates of participation, and \$5,357 in notes payable, and \$7 in capital lease obligation. The County's total debt has decreased by \$7,171, or approximately 2%, mainly due to scheduled retirement of debts.

County Ordinance No. 3773 limits the County annual debt service to 4% of the average annual County total budget for the current and the preceding four fiscal years. The debt service limit for FY 2007-08 was \$56,071. The amount applicable to the debt service limit was \$29,762, which was \$26,309 or 47%, less than authorized.

Additional information on the County's long-term debt can be found in Note 10 on pages 55-59 of this report.

Management's Discussion and Analysis (Continued)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

In preparing the County's budget for FY 2008-09, the following factors were considered:

- The job growth in the County is not harshly affected by the slowing economy because there is a mix of industries
 here that are not in decline. That fertile mix includes Internet companies, computer services firms, and biotech
 companies that are growing and offering services and products in demand. In addition, tourism and convention
 business is up locally because the falling dollars have made this area more affordable for Pacific Rim companies
 and tourists worldwide.
- 2. Across California, the picture does not look as good. Job growth in California plummeted, led by more construction-related losses. The state unemployment rate soared to 7.7 percent in August 2008, a big jump from the 5.5 percent a year ago. In mid-September 2008, the State governor and legislative leaders agreed to a budget for FY 2008-09. This budget calls for a \$7.1 billion cut in State spending, which includes reductions in public transit and human service programs. The budget also grants the governor authority to cut up to 7 percent from State spending in mid-year when revenues fall below expectations. The largest areas of the budget, including education, health services, and human services, are exempted from the mid-year cut.
- 3. The County's structural deficit, a persistent gap between public expenditures and revenues, is projected to grow to \$92.1 million by FY 2012-13, given current trends in the housing market and the economy. Accordingly, the Board adopted a set of policies to fix the structural deficit by FY 2012-13.
- 4. The County annual contributions to the Medical Center continue to soar. Between FY 2003-04 and FY 2005-06, the average annual contribution was approximately \$59 million. The County contribution was \$68 million last fiscal year and increased further to \$72.2 million this fiscal year, an increase of 22 pecent in three years. Intensive efforts have been underway to improve the financial strength of the Medical Center.
- 5. On September 15, 2008, Lehman Brothers Holdings Inc. (Lehman) declared bankruptcy. This bankruptcy had a direct, negative impact on the County's investment pool in an amount of \$155 million. The County Treasurer decided to retain the Lehman securities, but mark their value down to zero and carry the securities as a non-performing asset. The County has retained bankruptcy counsel in connection with filing a creditor's claim in the Lehman bankruptcy proceedings on behalf of the investment pool. Additionally, the County, on behalf of the pool participants, has commenced litigation against the officers and directors of Lehman Brothers. However, the amount of recovery from the bankruptcy proceedings and the litigation against Lehman officers and directors, if any, is uncertain. The County's portion of the overall loss is approximately 14 percent, or \$22 million.
- 6. The County's final budget for FY 2008-09 is \$1.95 billion. The budget provides resources for all operating units, the improvement and maintenance of capital assets, the debt service payments, and the reserves.

As of June 30, 2008, unreserved General Fund balance was \$265,544. The County has appropriated the full amount of unreserved fund balance for spending in the FY 2008-09's budget.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Controller, 555 County Center, 4th Floor, Redwood City, CA 94063. This report is also available online at www.co.sanmateo.ca.us.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Government-wide Statement of Activities For the Fiscal Year Ended June 30, 2008 (In Thousands)

| Net change in fund balances - total governmental funds (page 25) | | \$ (51,518) |
|--|-------------------|-------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. | | |
| Expenditures for general capital assets and infrastructure | \$ 18,978 | |
| The net effect of various miscellaneous transactions involving capital assets such as sales, retirements, trade-ins, and donations Less current year depreciation | 1,360 (17,246) | 3,092 |
| Governmental fund revenues deferred in the current year due to unavailability were reported in the statement of activities as revenues. | | 19,155 |
| Governmental funds report prefunding of OPEB as expenditures, but the statement of net assets reports such as a net OPEB asset. | | 94,759 |
| Repayment of long-term liabilities are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. Principal repayments: Lease revenue bonds | 10.970 | |
| Certificates of participation | 305 | |
| Notes payable | 47 | |
| Capital lease obligations | 8 | 11,330 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. | | |
| Amortization of bond issuance costs | (220) | |
| Amortization of bond discount | (4) | |
| Amortization of bond premium | 80 | |
| Amortization of deferred loss on refunding | (36) | |
| Change in claims and judgments - arbitrage | 65 | |
| Change in accrued interest payable | 144 | |
| Accretion of capital appreciation bonds | (272) | |
| Change in net OPEB obligation | 12,869 | |
| Change in compensated absences | (1,311) | 11,315 |
| Internal service funds are used by management to charge the costs of | | |
| certain activities to individual funds. The net revenues of certain activities of the internal service funds are reported with governmental activities. | | (82,460) |
| Change in net assets of governmental activities (page 22) | | \$ 5,673 |

Basic Financial Statements -

Notes to the Basic Financial Statements

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2008 (In Thousands)

NOTE 1 – THE FINANCIAL REPORTING ENTITY

(a) Reporting Entity

The County of San Mateo, California (County), a Charter County established by an Act of the State Legislature in 1856, is a legal subdivision of the State of California charged with governmental powers. The County's powers are exercised through a Board of Supervisors (County Board) that serves as a governing body and is responsible for the legislative and executive control of the County. The County provides various services on a County-wide basis including law enforcement and legal justice, detention, social, health, hospital, fire protection, road construction, road maintenance, transportation, park and recreation facilities, elections and records, communications, planning, zoning, and tax collection.

The governmental reporting entity consists of the County (Primary Government) and its component units. Component units are legally separate organizations for which the County Board is financially accountable or other organizations whose nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (i) either the County's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the County.

The basic financial statements include both blended and discretely presented component units. The blended component units are in substance, although legally separate entities, part of the County's operations and, therefore, data from these units are combined with data of the primary government. The discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the primary government.

For financial reporting purposes, the County's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the County Board. The financial statements of the individual component units may be obtained by writing to the County of San Mateo, Controller's Office, 555 County Center, 4th Floor, Redwood City, California 94063.

(b) Blended Component Units

San Mateo County Joint Powers Financing Authority

The San Mateo County Joint Powers Financing Authority (JPFA), a joint exercise of powers agency organized under the laws of the State of California by agreements dated May 15, 1993, was formed to assist the County in the financing of public capital improvements. The County Board appointed a five-member board to set policies. The JPFA has no employees; all staff work is done by the County staff or outside consultants. Because its financial and operational relationship with the County is closely integrated, the JPFA is reported as a major governmental fund in the County's financial statements.

San Mateo County Employees' Retirement Association

The San Mateo County Employees' Retirement Association (SamCERA) exists to serve as the administrator of the County's pension plan. Management of the SamCERA is vested in the Board of Retirement consisting of nine members. Pursuant to the County Employees Retirement Law of 1937, board members include the County Treasurer, two general members of SamCERA elected by their peers, four members appointed by the County Board, one member from SamCERA's safety members, and one member from the retirees. The Board of Retirement undertakes the administrative and fiduciary responsibility over the pension plan. Because of its prominent financial relationship with the County, SamCERA is reported as a pension trust fund in the County's financial statements.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Housing Authority of the County of San Mateo

The Housing Authority, established pursuant to the State Health and Safety Code by the County Board, provides housing assistance to low and moderate-income families at rents they can afford. Eligibility is determined by family composition and income in areas served by the Housing Authority. Most of the housing programs administered by the Housing Authority are funded by contributions from the U.S. Department of Housing and Urban Development (HUD) pursuant to the United States Housing Act of 1937 and the HUD Act.

The Housing Authority's Board of Commissioners is composed of the same members as the County Board. Decisions affecting the Housing Authority are addressed as part of the Board's overall meeting. As such, the Housing Authority is reported as a major enterprise fund in the County's financial statements.

In-Home Supportive Services (IHSS) Public Authority

The IHSS Public Authority assists IHSS clients in finding qualified caregivers. Though a legally separate entity, the IHSS Public Authority is programmatically integrated into the County service systems for seniors and persons with disabilities. The County Board serves as its governing body. Because of its prominent relationship with the County, the IHSS Public Authority is reported as a nonmajor governmental fund in the County's financial statements.

County Service Areas, Sewer and Sanitation, Flood Control, Lighting, and Other Special Districts

The County Board is the governing body of the County Service Areas, Sewer and Sanitation, Flood Control, Lighting, and Other Special Districts (special districts). Among its duties, the County Board approves the budgets, special taxes, and fees of these special districts. As an integral part of the County, these special districts are reported as nonmajor special revenue funds in the County's financial statements.

(c) Discretely Presented Component Unit

First 5 San Mateo County

The First 5 San Mateo County (First 5) was created in 1998 with the passage of Proposition 10, the California Children and Families First Act. The Proposition requires that a portion of tobacco tax be used to promote early childhood development for children ages 0-5 through education, health, childcare, and other programs. First 5 is governed by a nine-member commission that includes public officials and community leaders from the fields of early childhood education, health care, and family support. The primary role of First 5 is to ensure that resources from the California Children and Families Trust Fund are allocated in a fiscally responsible manner. The County can influence the day-to-day operations and financial decisions of First 5 as the County Board appoints all commission members and approves its budgets. First 5 is reported as a discretely presented component unit in the County's financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

Government-wide Financial Statements

The statement of net assets and statement of activities display information about the primary government and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. These statements distinguish between the governmental and business-type activities of the County and between the County and its discretely presented component unit. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties. When both restricted and unrestricted net assets are available, restricted resources are depleted first before the unrestricted resources are used.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

The *statement of activities* presents a comparison between direct expenses and program revenues for each different identifiable activity of the County's *business-type activities* and for each function of the County's *governmental activities*. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Certain indirect costs, which cannot be identified and broken down, are included in the program expense reported for individual functions and activities. Interfund charges, which equal or approximate the external exchange value of services provided, are reported as program revenues. Interfund reimbursements, as repayments from the funds responsible for particular expenses to the funds that initially paid for them, are treated as an adjustment to expenses. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

Fund Financial Statements

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Separate statements for each fund category – *governmental*, *proprietary*, *and fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds; each is displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

The County reports the following major governmental funds:

- *General Fund* is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the County that are not accounted for by other funds. These activities include general government, public protection, health and sanitation, public assistance, and recreation services.
- Joint Powers Financing Authority (JPFA) accounts for debts issued to finance County-sponsored capital projects
 and debt service payments to creditors. The JPFA's revenues primarily come from lease payments from the
 County under a master facility lease.

The County reports the following major enterprise funds:

- San Mateo Medical Center (Medical Center) accounts for the hospital and clinical services provided to County residents. The Medical Center's revenues are principally fees for patient services; realignment revenues and subsidies from the General Fund; and payments from federal and State programs such as Medicare, Medi-Cal, Short Doyle.
- *Housing Authority* accounts for various housing programs primarily funded by contributions from HUD and rent payments from tenants.

The County also reports the following additional fund types:

- Internal Service Funds account for the County's fleet maintenance and road construction services provided to departments or other governmental agencies; employee benefits including medical, vision, and dental; and self-insurance programs including workers' compensation, long-term disability, and personal injury and property damage on a cost-reimbursement basis.
- Pension Trust Fund accumulates contributions from the County, the San Mateo County Mosquito and Vector Control District, and their employees. Earnings from investments are credited to and disbursements are made from this fund for retirement, disability, death benefits (based on a defined benefit formula), and administrative expenses. This fund accounts for all assets of the SamCERA.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

- *Investment Trust Fund* consists of two components:
 - External Investment Pool accounts for the assets of legally separate entities that deposit cash with the County
 Treasurer. These entities include school and community college districts, other special districts governed by
 local boards, regional boards and authorities, and pass through funds for tax collections for cities. The County
 Treasurer is obligated to disburse monies from these funds on demand.
 - Individual Investment Account accounts for specific investments acquired on behalf of the Brisbane School
 District. These investments are separate from the County's investment pool. The income from and changes in
 the value of these investments affect only the Brisbane School District.
- Agency Funds account for assets held by the County as an agent for various local governments and individuals.

(b) Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements, and donations. Under the accrual basis, revenues from property taxes are recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide financial statements for the business-type activities and the proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The County has elected not to follow subsequent private-sector guidance.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants, and charges for services are recognized when their receipt occurs within sixty days after the end of the accounting period. Expenditures are generally recorded when liabilities are incurred, as under the accrual basis of accounting. However, expenditures related to debt service, compensated absences, and claims and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of each fund. Nonoperating revenues, such as interest income, state and federal grants, and subsidies, result from nonexchange transactions or ancillary activities. Operating expenses include costs for providing services and delivering goods such as administrative expenses and depreciation on capital assets. All other expenses not meeting this definition are reported as nonoperating expenses.

Fiduciary funds include trust funds and agency funds. All trust funds are reported using the economic measurement focus and the accrual basis of accounting. Agency funds are reported using the accrual basis of accounting to recognize receivables and payables.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

(c) Cash and Cash Equivalents

For purposes of the accompanying statement of cash flows, the enterprise and internal service funds consider all highly liquid investments with a maturity of three months or less when purchased, and their equity in the County Treasurer's investment pool to be cash equivalents.

(d) Restricted Cash and Investments

The County reports restricted cash and investments in the JPFA (governmental fund) and the Housing Authority (enterprise fund). Amounts reported in the JPFA are restricted for capital projects and debt service payments. Amounts reported in Housing Authority consist of security deposits received from tenants at move-in and assistance payments for tenants who participate in the Family Self Sufficiency (FFS) Program. The monies are either returned to tenants upon move-out or given to FFS participants upon graduation.

(e) Investments

The County sponsors an investment pool that is managed by the County Treasurer. The Treasurer invests on behalf of most funds of the County and external participants in accordance with the California Government Code and the County's investment policy. The State of California's statutes authorize the County to invest its cash surplus (excluding SamCERA) in U.S. Treasury obligations, obligations of U.S. agencies or government sponsored enterprises, bankers' acceptances, collateralized time deposits within the state of California, negotiable certificates of deposit, commercial paper, repurchase agreements secured by U.S. Treasury or agency obligations, reverse repurchase agreements, corporate bonds, medium term notes, including asset-backed securities, Local Agency Investment Fund, shares of beneficial interest issued by diversified management companies as defined in Government Code section 53601, and mortgage backed securities or collateralized mortgage obligations. SamCERA is subject to its own investment policy, and significant accounting policies for its investments are separately discussed in Note 13.

Investment transactions are recorded on the trade date. Investments in nonparticipating interest-earning investment contracts are reported at cost, commercial paper that has a maturity of less than 90 days are reported at amortized cost, and all other investments are reported at fair value. The fair value represents the amount the County could reasonably expect to receive for an investment in a current sale between a willing buyer and seller. The fair value of investments is obtained by using quotations from independent published sources.

Participants' equity in the investment pool is determined by the dollar amount of participant deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on an amortized cost basis. Interest payments, accrued interest, accreted discounts, amortized premiums, and realized capital gains and losses; net of banking costs and administrative fees; are apportioned to pool participants every quarter. This method differs from the fair value method used to value investments in these financial statements as unrealized gains or losses are not apportioned to pool participants. During the fiscal year ended June 30, 2008, the County Treasurer has not entered into any legally binding guarantees to support the participant equity in the investment pool.

Income from pooled investments is allocated to individual funds or external participants based on each fund's or participant's average daily cash balance at quarter end in relation to the total pool investments. Investment income earned in agency funds with no interest earning requirements is assigned to the General Fund per County Policy. Income from non-pooled investments is deposited into funds that provided the resources.

(f) Mortgages Receivable

For the purpose of the fund financial statements, the governmental fund expenditures relating to long-term loans arising from loan subsidy programs are charged to operations upon funding and the loans are recorded, net of an estimated allowance for potentially uncollectible loans, with an offset to a deferred credit account. In the governmental fund financial statements, the loans are reported as mortgages receivable with an offset to a deferred credit account. The balance of the mortgages receivable includes loans that may be forgiven if certain terms and conditions of the loans are met. As of June 30, 2008, the County's net mortgages receivable was \$48,206, net of allowance of \$4,252.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

(g) Inventories

Inventories are stated at cost (first-in, first-out basis) for governmental funds and lower of average cost or market for proprietary funds. Inventories in governmental funds are recorded as expenditures when consumed. Unconsumed inventories in governmental funds are equally offset by a fund balance reservation to indicate that portion of fund balance is not available for future appropriation. Inventories recorded in the proprietary funds primarily consist of maintenance and pharmaceutical supplies retained by the Medical Center. Inventories are expensed as the supplies are consumed.

(h) Property Tax Levy, Collection, and Maximum Rates

The State's Constitution Article XIIIA, commonly known as Proposition 13, provides that the combined maximum property tax rate on any given property may not exceed 1% of its assessed value unless two-thirds of the voters have approved additional taxes be levied to fund general obligation bond debt service. Under Proposition 13, beginning with FY 1978-79, assessed value is calculated at 100% of market value and may be adjusted by no more than 2% per year unless the property is sold or transferred. In 2002, California voters approved Proposition 39 that sets the approval threshold at 55% for school facilities related bonds.

The County is responsible for assessing, collecting, and distributing property taxes in accordance with State law. Property taxes are levied on both secured (real property) and unsecured (personal property other than land and buildings) property. Supplemental property taxes are assessed upon transfer of ownership in property or completion of new construction. The State legislature determines the method of distribution of receipts from a 1% tax levy among the County, cities, school districts, and other districts. The total fiscal year 2007-08 net assessed valuation of the County was \$120 billion, after deducting \$12 billion for the redevelopment tax allocation increment.

The County levies, bills, and collects taxes as follows:

| | <u>Secured</u> | Unsecured |
|----------------------|--------------------------|-----------|
| Valuation/lien dates | January 1 | January 1 |
| Levy dates | On or before November 1 | July 1 |
| Due dates | 50% on November 1 | July 1 |
| | 50% on February 1 | |
| Delinquent after | December 10 for November | August 31 |
| | April 10 for February | |

On the government-wide financial statements, property tax revenues are recognized in the fiscal year for which they are levied. On the fund financial statements, property tax revenues are deferred if not received within sixty days after fiscal year-end.

Effective July 1, 1993, the County began apportioning secured property tax revenue in accordance with the alternate method of distribution, the Teeter Plan, as prescribed by Section 4717 of the California Revenue and Taxation Code. Under the Teeter Plan, the County allocates to local taxing agencies 100% of the secured property taxes billed. In return, the County retains penalties and interest on delinquent secured taxes in the Tax Loss Reserve Fund (TLRF). The primary purpose of TLRF is to cover losses that may occur as a result of special sales of tax-defaulted property. The County is legally required to maintain a minimum of 1% of the total tax levies on secured properties within the tax areas of participating entities, which was approximately \$14.7 million at June 30, 2008.

The County's management believes that any ownership rights to the TLRF the County may have are effective only upon a Board-approved transfer or to the extent of losses related to the sale of tax defaulted property. Balance in TLRF is being held in a custodial capacity for the participants in the County's Teeter Plan and accounted for in an agency fund. The balance in the TLRF was \$68.2 million at June 30, 2008.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

In accordance with Section 97.2 (D)(4)(i) of the California Revenue and Taxation Code (Code), the County established a trust fund, the Educational Revenue Augmentation Fund (ERAF), in 1992 to redirect property tax from the County, cities, and special districts to public education programs. Each of these local agencies is required to shift an amount of property tax revenues prescribed by the Code to ERAF. Once school districts and programs are paid the maximum allowable, the Code requires the excess ERAF be refunded to these local agencies. The County General Fund share of the excess ERAF was \$56 million for the fiscal year ended June 30, 2008.

(i) Capital Assets

Capital assets, including public domain (infrastructure such as road, bridge, water and sewer, lighting, drainage, and flood control systems), are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair market value on the date donated. The County defines capital assets as assets with an initial unit cost of more than \$5 and an estimated useful life in excess of one year. Capital assets used in operations are depreciated or amortized (assets under capital leases) using the straight-line method over the lesser of the capital lease period or their estimated useful lives in the government-wide financial statements, proprietary funds, and the pension trust fund.

Estimated useful lives for the County's capital assets are as follows:

Infrastructure (except for the maintained pavement subsystem)

20 to 50 years

Structures and improvements

50 years

Equipment

3 to 15 years

Software

3 years

The County has six networks of infrastructure assets: road, bridge, water and sewer, lighting, drainage, and flood control. The maintained pavement subsystem of the road network is reported using the modified approach. The County commissioned a complete, physical assessment of the maintained pavement subsystem condition in FY2006-07. The condition assessment is completed triennially.

The County's maintained pavement subsystem has been classified as roads with or without formal structural sections. Each road segment is rated and given a Pavement Condition Index (PCI) value from zero to one hundred (0 - 100). Roads with a PCI of 40 or higher are considered in a "Fair" or better condition and roads with a PCI of 55 or higher in a "Good" or better condition. The County's policy is to maintain a minimum PCI of 40 for at least 65 percent of roads with no defined structural section (secondary roads) and a minimum PCI of 55 for at least 75 percent of roads with a defined structural section (primary roads). Under the modified approach, depreciation is not reported for this subsystem and all expenditures, except for betterments and major improvements, made to the subsystem are expensed.

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements, which significantly increase values, change capacities, or extend useful lives, are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

(j) Compensated Absences (Accrued Vacation, Compensatory Time, and Holiday)

The County accrues for compensated absences, in the government-wide and proprietary fund financial statements, to pay its employees for unused vacation, compensatory time, and holiday. The accrual for compensated absences includes the County's share of social security and Medicare contributions payable on behalf of the employees. Unused vacation, compensatory, and holiday time are cashed out upon separation from the County.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

(k) Other Postemployment Benefits (OPEB)

The County is not obligated to pay for unused sick leave if employees terminate employment prior to retirement, except for those individuals who are laid off. Upon retirement, unused sick leave can be converted to postemployment healthcare benefits. The amount and duration of the County-paid benefits vary, depending on the bargaining units to which the employee belongs. The public safety employees are eligible to retire after attaining age 40 with at least ten years of service, and others must retire from the County on or after attaining age 50 with at least ten years of service. To reduce the growth of its unfunded OPEB liability, the County restructured the retiree healthcare benefits for management, attorney, and confidential employees hired after April 1, 2008 (excluding current non-management employees promoted into management classification), and elected officials newly elected after April 1, 2008. Under the new policy, their retiree healthcare benefits are capped at \$0.7 per month for each unused eight hours of sick leave at retirement. In lieu of this change, the County will contribute \$0.1 per month to each eligible employee's retiree health savings account and continue to pay for dental and vision premiums for each unused eight hours of sick leave.

The Housing Authority maintains a separate OPEB plan and reported a net OPEB obligation of \$95 as of June 30, 2008. Per its most recent actuarial valuation as of July 1, 2008, the Housing Authority OPEB plan was 0% funded and the unfunded actuarial accrued liability was \$604. Details of the Housing Authority's OPEB plan may be found in its financial report for the fiscal year ended June 30, 2008. The report may be obtained by writing to the Housing Authority at 264 Harbor Boulevard, Building A, Belmont, CA 94002.

(I) Interfund Transactions

Interfund transactions are reflected as loans, services provided or used, reimbursements, or transfers.

- Loans reported as receivables and payables are referred to as either "due to/from other funds" (the current portion of interfund loans) or "advances to/from other funds" (the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation. Any residual balances outstanding between the *governmental activities* and the *business-type activities* are reported in the government-wide financial statements as "internal balances." Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available financial resources and are not available for appropriation.
- Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses.
- Reimbursements occur when the funds responsible for particular expenditures or expenses repay the funds that initially paid for them. Such reimbursements are reflected as expenditures or expenses in the reimbursing fund and reductions to expenditures or expenses in the reimbursed fund.
- All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

(m) Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(n) Implementation of Governmental Accounting Standards Board (GASB) Statement

The objective of GASB Statement 51, Accounting and Financial Reporting for Intangible Assets, is to establish accounting and financial reporting requirements for intangible assets to reduce inconsistencies, thereby enhancing the comparability of the accounting and financial reporting of such assets among state and local governments. Many different types of assets may be considered intangible assets, including easements, water rights, timber rights, patents, trademarks, and computer software.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

This Statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. Existing authoritative guidance related to the accounting and financial reporting for capital assets should be applied to these intangible assets, as applicable. This Statement also requires that an intangible asset be recognized in the statement of net assets only if it is considered identifiable.

Additionally, this Statement establishes a specified-conditions approach to recognizing intangible assets that are internally generated such as computer software. Outlays associated with the development of such assets should not begin to be capitalized until certain criteria are met. Outlays incurred prior to meeting these criteria should be expensed as incurred.

This Statement also provides guidance on determining the useful life of intangible assets when the length of their life is limited by contractual or legal provisions. If there are no factors that limit the useful life of an intangible asset, the Statement provides that the intangible asset be considered to have an indefinite useful life. Such intangible assets should not be amortized unless their useful life is subsequently determined to no longer be indefinite due to a change in circumstances.

The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2009. The provisions of this Statement generally are required to be applied retroactively. For governments that were classified as phase 1 or phase 2 governments for the purpose of implementing Statement 34, retroactive reporting is required for intangible assets acquired in fiscal years ending after June 30, 1980, except for those considered to have indefinite useful lives as of the effective date of this Statement and those that would be considered internally generated. The County started reporting software as part of its capital assets since FY 2004-05, and the value of software reported is immaterial.

NOTE 3 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Deficit Fund Equity

As of June 30, 2008, the Tower Road Construction, the Workers' Compensation Insurance, and the Long-Term Disability funds had a net deficit of \$516, \$14,981, and \$3,286, respectively.

Tower Road Construction. Certain projects currently undertaken by this fund are not billable until the projects are fully completed. Deficits in this fund will ultimately be fixed through project cost reimbursement from other funds.

Workers' Compensation Insurance and Long-Term Disability. Premium rates collected from departments have not been able to cover increased operating expenses for these funds. The County will continue to phase in premium rate increases to close the gap between ongoing revenues and expenses. Additionally, the County will continue to participate in workers' compensation reform efforts, manage claims actively, and work with County departments to prevent future claims so that growth in these costs can be minimized.

NOTE 4 - CASH AND INVESTMENTS

The County Treasurer manages an investment pool to increase interest earnings from investment activities. The investment pool includes both voluntary and involuntary participation from external entities. Majority of the County funds invest their monies in the investment pool. Part of the cash and investments with the JPFA and SamCERA are separately managed outside the County. Certain special districts and governmental entities, under state statutes, maintain their cash surplus with the County Treasurer. At June 30, 2008, the net asset value of involuntary participation in the investment pool was \$1.977 billion.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

The County's investment pool is not registered with the Securities and Exchange Commission as an investment company. Investments made by the Treasurer are regulated by the California Government Code and the County's investment policy. The objectives of this policy in order of priority are: safety, liquidity, yield, and public trust. The County has established an oversight committee to monitor the management of public funds in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the County Board review and approve the investment policy annually. Each month the County Treasurer submits a comprehensive investment report to the members of the oversight committee and the investment pool participants. The report covers the type of investments in the pool, maturity dates, par value, actual cost, and fair value. Significant accounting policies for investments can be found in Note 2(e).

As of June 30, 2008, the County's cash and investments, including invested cash collateral from securities lending transactions, were distributed and reported in the basic financial statements as follows:

| Cash and cash equivalents: | |
|--|-----------------|
| Cash on hand - County | \$ 1,343 |
| Money market funds - JPFA | 14,343 |
| Money market funds - SamCERA | 56,270 |
| Deposit overdrafts - County * | (22,757) |
| Total cash and cash equivalents | 49,199 |
| Investments: | |
| In Treasurer's pool (including invested cash collateral) | 3,212,366 |
| With Fiscal Agents of the JPFA | 25,466 |
| In Pension portfolio | 2,226,709 |
| With others external to the Treasurer's pool | 1,387 |
| Total investments | 5,465,928 |
| Total cash and investments | \$ 5,515,127 |
| | |

^{*} At year-end, the carrying amount of the County's cash deposits was (\$22,757) and the bank balance was \$19,031. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit.

The County's cash and investments, including invested cash collateral from securities lending transactions, were distributed as follows:

| Primary government | \$ 585,817 |
|-------------------------------------|-----------------|
| Discretely Presented Component unit | 39,460 |
| Pension trust | 2,291,841 |
| Investment trust fund | 2,402,669 |
| Agency funds | 195,340 |
| Total cash and investments | \$ 5,515,127 |

Custodial Credit Risk for Deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The County's investment policy requires that deposits in banks must meet the requirements of California Government Code.

Under this code, any deposits of more than \$100 must be collateralized at 105% to 150% of the value of the deposit to guarantee the safety of the public funds. The first \$100 of the County's deposits are collaterized in demand deposits and insured by the Federal Deposit Insurance Corporation (FDIC). The balance in excess of the \$100 FDIC insurance coverage is fully collateralized by the Bank Treasury Security Pool at 110%.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Investments

The County's investments as of June 30, 2008, consisted of the following:

County Investment Pool

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a fixed income portfolio to changes in interest rates. Duration is calculated as the weighted average time to receive interest and principal payments. The longer the duration of the portfolio is, the greater its price sensitivity to changes in interest rates. The County manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years or less in accordance with its investment policy. As of June 30, 2008, the investment pool had a weighted average maturity of 1.33 years and its investment in floating rate securities was \$730 million. These securities are tied to the three-month London Interbank Offered Rate (LIBOR) index.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. State law and the County's investment policy limit the County's investments in commercial paper to the rating of A1 or better by Standard & Poor's, or P-1 or better by Moody's Investors Service; and corporate bonds to the rating of A or higher by both Standard & Poor's and Moody's Investors Service. No limits are placed on the U.S. government agency securities and U.S. Treasuries.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer of securities. State law restricts the County's investments in U.S. Treasury Obligations to 100% of its portfolio (100% per issuer); Obligations of U.S. Agencies or government sponsored enterprises to 100% (100% per issuer); bankers acceptance to 15% (10% per issuer); collateralized time deposits within the State, negotiable certificates of deposit, corporate bonds and medium-term notes to 30% (10% per issuer); commercial paper and floating rate notes to 40% (10% per issuer); repurchase agreements secured by U.S. Treasury or agency obligation to 100% (50% per issuer); reverse repurchase agreements to 20% (20% per issuer); shares of beneficial interest issued by diversified management companies as defined in Government Code section 53601 to 10% (5% per issuer); and mortgage backed securities to 20% (5% per issuer). The investment pool has more than five percent of its total investment with the following issuers: 13% in Federal Home Loan Mortgage Corporation, 11% in Lehman Brothers Holdings (commercial paper and corporate bonds), 11% in Wells Fargo & Company (negotiable certificates of deposit, commercial paper), 7% in Union Bank of California (negotiable certificates of deposit and commercial paper), and 5% in Morgan Stanley (corporate bonds and commercial paper).

Foreign Currency Risk. Foreign currency risk is the risk that changes in the exchange rates will adversely affect the fair values of an investment or deposit. The County investment policy does not include specific provisions to address foreign currency risk.

JPFA's Investment Portfolio

Interest Rate Risk. The JPFA does not have a specific policy that manages its exposure to declines in fair values arising from increasing interest rates.

Credit Risk. Provisions of the JPFA's bond trust agreements restrict the JPFA's investment in investment agreements with financial institutions that have long-term obligations rated in one of the two highest rating categories by Standard & Poor's, Moody's Investors Service, or Fitch Ratings. As of June 30, 2008, the JPFA's investment in money market funds was rated AAAm by Standard & Poor's and Aaa by Moody's Investors Service. Its investment in the FNMA discount note was rated AAA by Standard & Poor's and Aaa by Moody's Investors Service. The investment contracts are unrated.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the JPFA's investment in a single issuer of securities. The JPFA places no limit on the amount invested in any one issuer. The JPFA has more than five percent of its total investment with the following issuers: 42% or \$10,804 in investment contract with the American International Group Incorporation (AIG), 22% or \$5,656 in investment contract with the Municipal Bond Investors Assurance Corporation (MBIA), 21% or \$5,470 in investment contract with the Financial Guaranty Insurance Company (FGIC), and 10% or \$2,597 in discount note with the Federal National Mortgage Association (FNMA).

Foreign Currency Risk. The JPFA does not have a specific policy that addresses foreign currency risk.

SamCERA's Investment Portfolio

Interest Rate Risk. SamCERA's investment plan does not have a formal policy that limits investment duration as a means of managing its exposure to fair value losses arising from increasing interest rates. SamCERA's active bond portfolios are managed duration neutral to their benchmark, the Lehman Brothers Aggregate Bond Index. Its enhanced index portfolio does not rely on active duration management, but instead maintains duration within a very narrow band around that of the benchmark (for the Lehman Brothers Aggregate Bond Index, approximately +/- 0.2 year of the index). To facilitate this, Pyramis Global Advisors models the option-adjusted durations of the securities that comprise the index on a daily basis, and uses the output to align the portfolio duration to that of the benchmark.

Credit Risk. SamCERA's investment plan has three requirements addressing fixed income quality. First, the minimum average rating of the total portfolio of fixed income assets under a manager's supervision must be "A" or better as rated by Standard & Poor's or Moody's equivalent, dollar weighted at market value. Second, the minimum quality

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

rating eligible for the portfolio must be "B" or better as rated by Standard & Poor's or Moody's equivalent. The third requirement is that no more than 10% of SamCERA's fixed income assets under a manager's supervision shall be invested in securities with a rating below Baa3, BBB-, P-1 or A-1. SamCERA's core plus fixed income investment manager was given an exemption and may hold more than 10% in assets rated below BBB. At June 30, 2008, the credit quality breakdown of SamCERA's investments in bonds was as follows:

| Credit | Active | Commingled |
|---------------|------------|------------|
| Rating | Management | Management |
| AAA | 46.6% | 61.8% |
| AA | 27.7% | 10.2% |
| A | 3.7% | 9.6% |
| BBB | 19.0% | 18.2% |
| Less than BBB | 0.0% | 0.2% |
| Not rated | 3.0% | 0.0% |
| | 100.0% | 100.0% |

Concentration of Credit Risk. SamCERA's investment plan states no investment shall constitute more than 5% of a company's outstanding equity. When measuring this aspect of compliance, SamCERA considers its ownership in relation to the "free float" of a particular security. As of June 30, 2008, SamCERA did not hold any investments in any one issuer that would represent 5% or more of total investments.

Custodial Credit Risk. The custodial credit risk for investments is the risk that, in the event of the failure of a counterparty to a transaction, SamCERA will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. SamCERA does not have a general policy addressing credit risk, but it is the practice of SamCERA that all investments are insured, registered, or held by the plan or its agent in SamCERA's name. Deposits are to be insured, registered, or collateralized with securities held at fiscal agent in SamCERA's name.

Foreign Currency Risk. SamCERA's policy states that forward currency and currency contracts are permitted for defensive currency hedging to mitigate foreign currency risk on the portfolio. SamCERA's exposure to foreign currency risk is as follows:

| | Common | Foreign | Mutual | Preferred | | |
|--------------------|------------|----------|----------|-----------|--------|------------|
| Currency | Stock | Currency | Fund | Stock | Rights | Total |
| Australian Dollar | \$ 25,662 | \$ 2,319 | \$ 265 | \$ - | \$ - | \$ 28,246 |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Security Lending Collateral Interest Rate Risk. Cash collateral from loans of securities is invested in the State Street Navigator Securities Lending Prime Portfolio. Its average effective duration is restricted to 90 days or less. As of June 30, 2008, the actual effective duration was 41 days.

Security Lending Collateral Credit Rate Risk. Cash collateral received for securities lending is invested in the State Street Navigator Securities Lending Prime Portfolio, which is not rated by credit rating agencies. All investments will qualify as "eligible securities" within the meaning of Rule 2(a)-7 of the Investment Companies Act of 1940.

Local Agency Investment Fund

The County's investment pool is invested in the State of California Local Agency Investment Fund (LAIF). LAIF is part of the State of California Pooled Money Investment Account (PMIA). At June 30, 2008, the PMIA balance was \$70 billion, of which 85.28% is invested in non-derivative financial products with 11.12% in structured notes and medium-term asset backed securities, and 3.6% in short-term asset-backed commercial paper. The total amount invested by all public agencies in LAIF was \$25 billion, and the County's investment in LAIF was \$37 million. The value of the pool shares in LAIF is determined on an amortized cost basis, which approximates fair value. PMIA is not SEC-registered, but is required to invest according to the California State Code. The average maturity of PMIA investments was 212 days as of June 30, 2008. The Local Investment Advisory Board, which consisted of five members designated by State statutes, has oversight responsibility for LAIF.

Securities Lending Activity

County Investment Pool

State statutes and the County's investment policy permit the use of a securities lending program with its principal custodian bank. The investment policy allows the custodial bank (Custodian) to lend up to 20% of the portfolio within the established guidelines. The custodial agreement with the County's Custodian authorizes the Custodian to loan securities in the County investment portfolio under such terms and conditions as the County's Custodian deems advisable and to permit the loaned securities to be transferred into the name of the borrowers. The loaned securities represent securities on loan to brokers or dealers or other borrowers by the County's investment pool. The County receives a fee from the borrower for the use of the loaned securities. If the loaned securities are not returned by the borrower, the County's Custodian is responsible for replacement of the loaned securities with other securities of the same issuer, class and denomination, or if such securities are not available on the open market, the County's Custodian is required to credit the County's account with the market value of such unreturned loaned securities. All securities loan agreements can be terminated on demand within a period specified in each agreement by either the County or the borrowers.

The loaned securities, as of June 30, 2008, consisted of U.S. Treasury notes and bonds, and U.S. government agency securities. In return, the County receives collateral in the form of cash or securities equal to at least 102% of the transferred securities plus accrued interest for reinvestment. The County authorized Bank of New York Mellon Corporation (BONY), the County's Custodian, to invest and reinvest cash collateral in the following investments: (a) Securities issued or fully guaranteed by the U.S. Government and any agency, instrumentality, or establishment of the U. S. Government; (b) High-grade commercial paper, notes, bonds, and other debt obligations, including promissory notes, funding agreements and guaranteed investment contracts, whether or not registered under the Securities Act of 1933, as amended. Such obligations may have fixed, floating, or variable rate interest payment provisions. Obligations will be rated A-1 by Standard & Poor's or P-1 by Moody's if maturing within one year, or be rated A by Standard & Poor's or A2 by Moody's if maturing beyond one year; (c) Certificates of deposit, time deposits, and other bank obligations of U.S. banks, their branches and subsidiaries, and the branches and subsidiaries of foreign banks with credit rating of at least A-1 by Standard & Poor's and P-1 by Moody's; and (d) Repurchase and reverse repurchase agreements, including the BONY, with respect to approved investments.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

All of the County's collaterals were invested in repurchase agreements (not rated), certificates of deposit (rated A-1 by Standard & Poor's and P-1 by Moody's), and commercial paper (rated at least A-1 by Standard & Poor's and P-1 by Moody's) with a weighted average maturity of 22 days as of June 30, 2008. The County does not match the maturities of investments made with cash collateral with the securities on loan. The underlying securities loaned by the County's investment pool approximated to \$283 million as of June 30, 2008. The cash collateral from the counterparty was \$290 million; \$143 million was invested in repurchase agreements, \$17 million in certificate of deposits, and \$130 million in commercial paper. The County has no exposure to credit risk related to the securities lending transactions as of June 30, 2008, because the market value of the invested cash collateral exceeds that of the borrowed securities.

SamCERA Investment Portfolio

Beginning on July 1, 2007, the Board of Retirement authorized SamCERA to participate in a securities lending program. SamCERA has a securities lending agreement in place that authorizes the securities lending agent to lend SamCERA securities to broker-dealers and banks pursuant to a loan agreement. In each securities lending transaction, SamCERA receives either cash or non-cash collateral. SamCERA invests the cash and receives earnings on it in exchange for paying a loan rebate fee to the borrower. In the case of non-cash collateral, the borrower also pays SamCERA a loan premium.

For the year ended June 30, 2008, SamCERA's securities lending agent lent SamCERA securities to borrowers under the securities lending agreement. In return, SamCERA received cash, securities issued or guaranteed by the United States government, and sovereign debt or irrevocable bank letters-of credit as collateral. As SamCERA did not have the ability to pledge or sell collateral securities delivered absent a borrower default, such non-cash collateral is not reported on the statement of fiduciary net assets. Borrowers were required to deliver collateral equal to:

- loaned securities denominated in U.S. dollars or sovereign debt issued by foreign governments, with a margin of at least 102% of the market value of the loaned securities; or
- loaned securities not denominated in U.S. dollars, or whose primary trading market was not located in the United States, with a margin of at least 105% of the market value of the loaned securities.

Additionally, borrowers were required to maintain the designated margin percentage of collateral on a daily basis. In the event the borrower failed to return the loaned securities and the collateral was inadequate to replace the securities lent or the borrower failed to pay SamCERA for any income distributions on loaned securities, the securities lending agent indemnified SamCERA by agreeing to purchase replacement securities or supplement the amount of cash collateral.

For the fiscal year ended June 30, 2008, SamCERA did not impose any restrictions on the amount of loans that the securities lending agent made on its behalf, and did not incur any losses resulting from a default of the borrowers or the securities lending agent. SamCERA and the borrowers maintained the right to terminate all securities lending transactions on demand. The cash collateral received on each loan was invested, together with the cash collateral of other qualified tax-exempt plan lenders, in a short-term investment pool managed by the securities lending agent. As of June 30, 2008, this investment pool had an average duration of 59.9 days, and an average weighted maturity of 40.7 days. Because the loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral.

For the fiscal year ended June 30, 2008, SamCERA had no credit risk exposure to borrowers because, for each borrower, the value of borrower collateral held exceeded the value of the securities on loan to the borrower. As of June 30, 2008, SamCERA had securities on loan with a total value of \$230 million and the cash and other collateral held against the loaned securities of \$235 million.

NOTE 5 - RECEIVABLES

At June 30, 2008, receivables of the County's major individual funds, nonmajor funds in aggregate, and internal service funds in aggregate, including applicable allowances for uncollectible accounts, are listed below. The General Fund had a net receivable of \$110,397, of which \$71,845 is not expected to be collected within the next twelve months.

| | General | | Nonmajor | Internal Service | |
|-------------------------------------|------------|-----------|----------|---------------------------------------|------------|
| Governmental Activities | Fund | JPFA | Funds | Funds | Total |

| | | | | · · · · · · · · · · · · · · · · · · · | |

NOTE 6 – DEFERRED REVENUES

Under both the accrual and modified accrual basis of accounting, revenues are recognized only when earned. Thus, the government-wide statement of net assets, governmental funds, and enterprise funds defer revenue recognition for resources that have been received at year-end, but not yet earned. Assets recognized before the earning process is complete are offset by a corresponding liability as unearned revenues. Under the modified accrual basis of accounting, revenues are recognized when earned and susceptible to accrual. Revenues are considered susceptible to accrual if they are measurable and available to finance expenditures of the current period. Thus, governmental funds defer revenue recognition for revenues not considered available to liquidate liabilities of the current period.

At June 30, 2008, components of deferred and unearned revenues reported were as follows:

| | Unavailable | ; | Unearned | Total |
|---|-------------|----|----------|------------|
| Governmental activities | | | | |
| General fund: | | | | |
| Property taxes receivable | \$ 2,398 | \$ | 14,827 | \$ 17,225 |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

NOTE 7 – INTERFUND TRANSACTIONS

Due to/from other funds:

On behalf of the Medical Center, the General Fund remitted \$5,000 to the California Department of Health Services as intergovernmental transfer payment. The Medical Center expects to extinguish this short-term loan within the next twelve months. All remaining interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

The composition of interfund balances is presented below.

| Receivable Fund | Payable Fund | A | mount |
|-----------------------------|-----------------------------|----|-------|
| General Fund | Nonmajor Governmental Funds | \$ | 2,359 |
| | Medical Center | | 5,000 |
| | Nonmajor Enterprise Funds | | 109 |
| | Internal Service Funds | | 868 |
| | | | 8,336 |
| Nonmajor Governmental Funds | General Fund | | 29 |
| | Internal Service Funds | | 1,156 |
| | | | 1,185 |
| Medical Center | General Fund | | 97 |
| Nonmajor Enterprise Funds | General Fund | | 44 |
| Internal Service Funds | Nonmajor Governmental Funds | | 59 |
| | Total | \$ | 9,721 |

Advances to /from other funds:

In FY 1999-2000, the General Fund advanced a long-term loan of \$4,042 to the Medical Center for its renovation project. The Medical Center does not plan to repay this loan within the next twelve months. Additionally, in January of 2006, the General Fund provided a long-term loan of \$1,000 to the Crystal Springs County Sanitation District. The District used this loan to reimburse the Town of Hillsborough for the District's cost of a sewer capital improvement project.

| Receivable Fund | Payable Fund | A | mount |
|-----------------|-----------------------------|----|-------|
| General Fund | Nonmajor Governmental Funds | \$ | 1,000 |
| | Medical Center | | 4,042 |
| | Housing Authority | | 809 |
| | Total | \$ | 5,851 |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Transfers:

Transfers are indicative of funding for capital projects, lease or debt service payments, subsidies, and revenue reallocations. The following schedules briefly summarize the County's transfer activities:

(a) Between Governmental and Business-type Activities:

| Transfer from | Transfer To | A | Amount | Purpose |
|---------------------------|-----------------------------|----|------------------|--|
| General Fund | Medical Center | \$ | 55,065 | Transfer budgeted subsidy to Medical Center. |
| | Medical Center | | 17,212 | Transfer additional subsidy to Medical Center. |
| | Medical Center | | 27,109 99,386 | Provide one-time subsidy to prefund the retiree healthcare benefits. |
| Medical Center | Nonmajor Governmental Funds | | 9,992 | Transfer funds to cover lease payments. |
| | Nonmajor Governmental Funds | | 17 10,009 | Transfer funds to finance capital improvements. |
| General Fund | Nonmajor Enterprise Funds | | 360 | Provide one-time subsidy to prefund the retiree healthcare benefits. |
| Nonmajor Enterprise Funds | Nonmajor Governmental Funds | | 27 | Transfer funds to finance capital improvements. |
| | Total | \$ | 109,782 | |

(b) Between Funds within Governmental Activities $^{(1)}$:

| Transfer from | Transfer To | Amount | Purpose |
|-----------------------------|-----------------------------|-------------------|---|
| General Fund | Internal service funds | \$ 788 | Provide one-time subsidy to prefund retiree healthcare benefits. |
| | Nonmajor Governmental Funds | 4,488 | Provide subsidy to finance in-home support services. |
| | Nonmajor Governmental Funds | 15,723 | Transfer funds to cover lease payments. |
| | Nonmajor Governmental Funds | 7,626 28,625 | Transfer funds to finance capital projects. |
| Nonmajor Governmental Funds | General Fund | 35 | Transfer funds to support the Emergency Response Program. |
| | General Fund | 96 | Transfer funds to finance general maintenance at the County Services Area Number 8. |
| | General Fund | 483 | Transfer funds to cover debt service payments. |
| | JPFA | 30,730 | Transfer funds to cover debt service payments. |
| | Nonmajor Governmental Funds | 3,157 | Transfer funds to cover lease payments. |
| | Nonmajor Governmental Funds | 708 35,209 | Transfer funds to finance capital projects. |
| Internal Service Fund | General Fund | 83,296 | Transfer funds earmarked for retiree health benefits. |
| | Total | \$ 147,130 | |

⁽¹⁾ In the consolidation of the governmental activities, these transfers are eliminated in the government-wide statement of activities.

| Depreciation on capital assets held by the County's internal | | | |
| service fund are charged to various functions based on | | | |
| their usage of the assets. | 1,644 | | |
| Total depreciation - governmental activities | \$ 18,890 | | |

Capital Project Commitments

The JPFA issued lease revenue bonds in November 2003 to construct a new County Youth Services Center. The construction included a juvenile hall, a girls' camp, a community school, a receiving home, group homes, juvenile courts, and probation administration offices for the County. The main facility of the Youth Services Center was completed in September 2006. The remaining capital projects attached to the Youth Services Center Construction, which include completion of the receiving home and the group home, deconstruction of the old facility, and removal of the berm, will cost approximately \$11.7 million. The receiving home will be completed by November 2008. The group home is still in working stages, and the scope for this project is not finalized yet. The deconstruction of the old Hillcrest Facility will be completed in 2009. The removal of the berm will begin upon completion of the deconstruction of the old Hillcrest Facility. Total outstanding commitments amounted to approximately \$2.5 million at June 30, 2008.

NOTE 9 – LEASES

Operating Leases

The County occupies a number of non-County owned office buildings and facilities to conduct its business under non-cancelable operating leases. Total rental paid for these leases was \$7,512 for the fiscal year ended June 30, 2008, and the future minimum lease payments are as follows:

| Fiscal year | |
|-----------------|-----------|
| ending June 30, | |
| 2009 | \$ 3,811 |
| 2010 | 3,524 |
| 2011 | 2,975 |
| 2012 | 2,813 |
| 2013 | 2,309 |
| 2014-2018 | 8,429 |
| 2019-2023 | 805 |
| 2024 | 28 |
| Total | \$ 24,694 |
| | |

The County has leased various properties under non-cancelable operating leases to other entities. Income from these rental activities was \$585 for the fiscal year ended June 30, 2008.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

NOTE 10 - LONG-TERM LIABILITIES

The County's long-term liabilities as of June 30, 2008, were as follows:

| Type of indebtedness (purpose) | Maturity | Interest Rates | - | | Outstanding at June 30, 2008 |
|--|-----------------------|------------------------|-------------------------|-----------|------------------------------------|

| Total Business-Type Activities | \$ 12,527 | \$ | 10,691 | \$ | (9,582) | \$ 13,636 | \$ | 7,242 |

Resources used to liquidate long-term liabilities of governmental activities are as follows: Retirement of *Lease revenue bonds* and related interest payments are funded by lease payments made by departments on leased facilities. Retirement of *Certificates of participation* and related interest payments are funded by installment payments from the Colma Creek Flood Control District. *Notes payable* to the Department of Housing and Community Development, California Energy Commission, and Department of Water Resources are funded by the General Fund and County Service Area special revenue fund. *Capital lease obligations, net OPEB obligation, and compensated absences* are financed by individual funds that are responsible for the charges. *Estimated claims* are liquidated by charges for services collected through individual internal service funds. *Claims and judgments - arbitrage* is funded by the JPFA.

As of June 30, 2008, annual debt service requirements of governmental activities were summarized as follows:

| | | Le | ease R | evenue Bo | nds | | C | Certificates of | of Partic | ipation Notes Payable | | | | |

Interest Rate Swap Agreements

In November 2003, the JPFA issued lease revenue bonds, 2003 Series A, 2003 Series B, and 2003 Series C in the amount of \$66,725, \$66,825, and \$21,800, respectively. The bonds were issued to acquire and construct a new County Youth Services Center including a juvenile hall, a girls' camp, a community school, a receiving home, group homes, juvenile courts, and probation administration offices for the County.

Objective of the Interest Rate Swaps. As a means to lower its borrowing costs, when compared against fixed-rate 4.78% bonds at the time of issuance in November 2003, the JPFA entered into interest rate swap agreements with Citibank N.A. (Citibank) and AIG Financial Products (AIG) in connection with its \$66,725 Series A and \$66,825 Series B variable rate lease revenue bonds (the bonds). The intention of the swaps was to effectively change the JPFA's variable interest rates on the bonds to a synthetic fixed rate of 3.33%.

Significant Terms. The bonds and related swap agreements mature on July 15, 2036, and the swaps' notional amount of \$133,550 matches the \$133,550 par amount of the variable rate bonds. The JPFA entered into two swaps with Citibank with a total notional amount of \$93,450 and one swap with AIG with a notional amount of \$40,100. The swaps were entered into at the same time the bonds were issued in November 2003. Starting in fiscal year 2008, the notional value of the swaps will decline as the principal amount of the associated debt begins to amortize. As of June 30, 2008, the total notional value of the swaps with Citibank declined to \$91,200 and with AIG to \$39,900. Under the swaps, the JPFA pays the counterparties a fixed payment of 3.33% and receives a variable payment computed as 55.5% of LIBOR plus 0.29%.

Fair Value. The swaps had a combined negative aggregate fair value of \$5,304 at June 30, 2008. Since coupons on the JPFA's auction rate securities adjust to changing interest rates, they do not have a corresponding fair value increase. The fair value is the net present value of the swaps using market data and the terms of the swaps, which include the expectations of the probability of occurrence of certain underlying events as defined in the swaps' documentation.

Credit Risk. As of June 30, 2008, the JPFA was not exposed to credit risk because the swaps had a negative fair value. However, should interest rates change and the fair value of the swaps becomes positive, the JPFA would be exposed to credit risk in the amount of the derivative's fair value. To mitigate the potential credit risk, the counterparties are required to post collateral, in the form of government securities, within 10 business days if their credit ratings for long-term unsecured debt obligations fall below "A" by Moody's Investors Service, or "A" by Standard and Poor's, or "A" by Fitch Ratings. As of June 30, 2008, Citibank's ratings were Aa1 by Moody's, AA by Standard and Poor's, and AA-by Fitch Ratings.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Basis Risk. The swaps expose the JPFA to basis risk should the relationship between LIBOR and weekly auction rates converge, changing the synthetic rate on the bonds. As a result of changing basis between LIBOR and the rate on the JPFA's bonds during the course of the year, the synthetic fixed rate for the fiscal year ended June 30, 2008 was 5.998% for the Series A bonds and 5.999% for the Series B bonds.

Termination Risk. The JPFA or the counterparties may terminate the swaps if the other party fails to perform under the terms of the contract. The swaps may be terminated by the JPFA if the counterparties' credit quality rating falls below "A-" as issued by Fitch Ratings or Standard and Poor's, or "A3" as issued by Moody's Investors Service. If the swaps are terminated, the variable-rate bonds would no longer carry a synthetic interest rate. Also, if at the time of termination the swaps have a negative fair value, the JPFA would be liable to the counterparties for a payment equal to the swaps' fair value.

Market-Access Risk. Market-access risk is the risk that a government will not be able to enter credit markets or that credit will become more costly. The JPFA was exposed to the market-access risk at June 30, 2008, since the market for its auction rate securities collapsed and the cost of borrowing escalated. This risk; however, was mitigated by relying on the County's strong credit ratings to refund the auction rate securities at a more desirable rate. See Note 19 for additional details.

Swap Payments and Associated Debt. Using rates as of June 30, 2008, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, are provided below. As rates vary, variable-rate bond interest payments and net swap payments will vary.

^{*} Projected interest payments for the variable rate series of bonds are based on the following rates in effect on June 30, 2008: Lease revenue bonds: 2003 Series A (4.344%) and 2003 Series B (4.345%).

Arbitrage Rebate

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. The County calculated excess investment earnings on various bonds and financing. The arbitrage liability of \$94, which becomes due in August 2008, was reclassified to a current liability and reported as part of the accounts payable in the governmental fund balance sheet and the government-wide statement of net assets.

Legal Debt Service Limit

Under the County's Ordinance No. 3773, the County's annual legal debt service limit shall not exceed 4% of the average annual County budget for the current and the preceding four fiscal years, and shall be for non-voter approved debt that is the obligation of the County. The County's legal debt service limit was \$56,071 for the fiscal year ended June 30, 2008.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

NOTE 11 - NET ASSETS

The government-wide and proprietary fund financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted, and unrestricted.

- Invested in Capital Assets, Net of Related Debt groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.
- Restricted Net Assets reflects net assets that are subject to constraints either (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation. A legally enforceable enabling legislation restriction is one that a party external to a government such as citizens, public interest groups, or the judiciary can compel a government to honor. At June 30, 2008, restricted net assets for the governmental activities were \$141,124 as reported on the government-wide statement of net assets, and \$36,942 of which was restricted by enabling legislation.
- Unrestricted Net Assets represents net assets of the County that are not restricted for any project or purpose.

In the statement of activities, First 5 restated its beginning net assets in an amount of \$306 to reflect the cumulative effect of changes in amounts previously reported as expenses by a grantee.

NOTE 12 - RESERVED AND DESIGNATED FUND BALANCES

Fund balances are considered reserved if they are not available for appropriation or are not expendable financial resources. As of June 30, 2008, major components of reserved fund balances included the following:

- Encumbrances to reflect outstanding contractual obligations for which goods and services have not been received.
- *Inventories and advances* to reflect portion of assets that do not represent available spendable resources, or amounts due from other funds that are long-term in nature.
- *Debt service* to reflect funds held by trustees or fiscal agents for future payment of bond principal and interest. These funds are not available for general operations.
- Capital projects to reflect funds that are exclusively for capital projects and improvements.

Portions of unreserved fund balance may be designated to indicate tentative plans for financial resource utilization in a future period, such as for general contingencies. Such plans are subject to change and have not been legally authorized or may not result in expenditures. At June 30, 2008, the County had not established any designations of fund balance.

NOTE 13 – EMPLOYEES' RETIREMENT PLANS

San Mateo County Employees' Retirement Association

(a) Plan Description

General. San Mateo County Employees' Retirement Association (SamCERA) is a cost-sharing multiple-employer, defined benefit pension plan that provides benefits for substantially all permanent employees of the County and the San Mateo County Mosquito and Vector Control District. SamCERA was founded in 1944 under the authority granted by Article XVI of the Constitution of the State of California, the County Employees' Retirement Law of 1937 (the 1937 Act). SamCERA is not subject to the provisions of the Employee Retirement Income Security Act of 1974. Management of SamCERA is vested in the Board of Retirement consisting of nine members; and its operation is governed by the 1937 Act and the by-laws, procedures, and policies adopted by the Board of Retirement. As of June 30, 2008, the total number of plan participants was 10,567, of which 10,542 were County employees and 25 were Mosquito and Vector Control District employees. SamCERA issues a publicly available financial report that can be obtained by writing to the San Mateo County Employees' Retirement Association, 100 Marine Parkway, Suite 125, Redwood Shores, California 94065.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Benefit Provisions. SamCERA provides service retirement, disability, and death benefits to plan members and beneficiaries based on defined benefit formulas using final average compensation, years of service, and age factors to calculate benefits payable. SamCERA has four plans that cover members classified as general, safety, or probation. Annual cost-of-living adjustments upon retirement are provided to members of Plans One, Two, and Four. The benefits of Plan Three are reduced by a portion of Social Security benefits received by the member. The 1937 Act vests the County Board with the authority to initiate benefits, while Government Code Section 31592.2 empowers the Board of Retirement to provide certain ad hoc benefits when the Section 31592 reserve exceeds 1% of assets.

(b) Summary of Significant Accounting Policies

Basis of Accounting. SamCERA uses the accrual basis of accounting to account for its financial activities. Investment income is recognized when it is earned, and expenses are recognized when they are incurred. Contributions are recognized when they are due, and benefits and refunds are recognized when payable under the terms of each plan.

Cash. Cash is pooled with other funds of the county or custodians, when appropriate, so as to earn a higher rate of return than could be earned by investing the funds individually. All highly liquid investments with maturities of three months or less when purchased, in addition to the pooled cash with the County and custodians, are considered cash equivalents.

Investments. The Board of Retirement has exclusive control of SamCERA's investments. Government Code Section 31595 of the 1937 Act authorizes the Board of Retirement to invest, or delegate the authority to invest, the assets of SamCERA in any investment allowed by statutes and deemed prudent in the informed opinion of the Board of Retirement. SamCERA records investment transactions on the trade date. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Real estate assets are reported at fair value utilizing an income approach to valuation. An independent appraisal is obtained once a year to determine the fair market value of the real estate assets. Interest income is recognized as it accrues. Dividend income is recognized when the dividends are declared. Realized and unrealized gains (or losses) on investments are combined and reported together as the net appreciation (or depreciation) in the fair value of investments.

Security Lending Activity. Security lending transactions are short-term collateralized loans of SamCERA securities for the purpose of generating additional investment income. For each lending transaction, SamCERA receives either cash collateral or non-cash collateral. The underlying securities out on loan are reported on SamCERA's statements of plan net assets as if the lending transaction had not occurred. In accordance with GASB Statement No. 28, Accounting and Financial Reporting for Securities Lending Transaction, cash collateral held (or any security that can be sold or pledged without a default by the borrower) is separately reported on the statements of plan net assets among the current assets. A corresponding liability of an equal amount, which represents the obligation to return the cash collateral, is reported as a liability. Non-cash collateral held and the corresponding liability are not reported on the statement of plan net assets.

Foreign Currency Transactions. Gains and losses resulting from foreign currency transactions are recorded as an investment income. Gains and losses from translation of international investments at fiscal year-end rates of exchange are included in investment income. Forward currency contracts are used by investment managers to control currency exposure and facilitate the settlement of international security purchase and sale transactions. These contracts are agreements to exchange different currencies at specified rates and settlement dates. Differences between the contract and market exchange rates at settlement result in gains and losses, which are included in net investment income. Risks may arise from the possible inability of counter parties to meet the terms of their contracts and from movements in exchange and interest rates.

(c) Funding Policy

The 1937 Act established the basic obligations for employers and members to make contributions to the pension trust fund. The employer and member contribution rates are based on recommendations made by an independent actuary and adopted by the Board of Retirement. Participating employers are required by statutes to contribute the amounts

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

necessary to fund the estimated benefits accruing to SamCERA members not otherwise funded by member contributions or expected investment earnings. Contribution rates are actuarially determined using the entry age normal method and consist of an amount for normal cost, the estimated amount necessary to finance benefits earned by members during the year, and an amount required to amortize the unfunded actuarial accrued liability (UAAL).

(d) Annual Pension Cost

For the fiscal year ended June 30, 2008, the County's annual pension cost was equal to the County's required contributions of \$105,340. The required contribution was determined by the actuarial valuation as of June 30, 2006, using the entry age normal actuarial cost method. The actuarial assumptions included 4% annual inflation rate, 7.75% annual investment rate of return, and 5.2% average annual projected salary increase attributed to inflation of 4% and adjustment for merit and longevity of 1.2%. Beginning with the June 30, 2008 actuarial valuation, SamCERA converted to the 15-year layered amortization methodology. Under this method, the original UAAL is amortized over 15 years as of the valuation date. Future actuarial gains and losses are amortized over the new 15-year periods. The Mosquito and Vector Control District contributes a lower percentage of covered payroll than the County does, due to lower benefits provided to the Mosquito and Vector Control District employees. For the fiscal year ended June 30, 2008, the average employer contribution rate was 23.62% of the covered payroll and the average member contribution rate was 9.7%. The UAAL is being amortized as a level percentage of projected payroll over the new 15-year periods. The table below presents three-year trend information:

| Fiscal Year | Annual Pension Cost | Percentage of APC |
|-------------|---------------------|-------------------|
| Ended | (APC) | Contributed |
| 6/30/2006 | \$ 76,090 | 100.0% |
| 6/30/2007 | 100,550 | 100.0% |
| 6/30/2008 | 105,340 | 100.0% |

(e) Funded Status and Funding Progress

As of June 30, 2008, the most recent actuarial valuation date, the plan was 79% funded. The actuarial accrued liability for benefits was \$2,806,222, and the actuarial value of assets was \$2,218,937, resulting in an unfunded actuarial accrued liability (UAAL) of \$587,285. The annual covered payroll (annual payroll of active employees covered by the plan) was \$416,243, and the ratio of the UAAL to the annual covered payroll was 141%. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Housing Authority of the County of San Mateo

The Housing Authority, a blended component unit and a major Enterprise Fund of the County, has its own employees and participates in a defined contribution retirement plan administered by pension specialists. Employees with more than six months of service can participate in the plan. This plan provides an individual account for each participant. The amount a participant will receive depends solely on the amount contributed to the participant's account plus earnings from investments. Employer contributions are set forth in the plan and are vested 20% for each year of service until an employee becomes fully vested after five years. Under this plan, management employees do not need to make contributions. The Housing Authority will contribute 14% of the gross salaries to their accounts monthly. As of June 30, 2008, the plan had 42 active participants. For the fiscal year ended June 30, 2008, the Housing Authority contributed \$279 to its retirement plan. Monthly contributions made by the Housing Authority and its regular employees are as follows:

| | Percentage of Gross Salaries | | | | | | |
|------------------|------------------------------|-------------------|--|--|--|--|--|
| Years of Service | Employees | Housing Authority | | | | | |
| Over 6 months | 5.0% | 9.0% | | | | | |
| Over 5 years | 4.0% | 10.0% | | | | | |
| Over 10 years | 3.0% | 11.0% | | | | | |
| Over 15 years | 2.5% | 11.5% | | | | | |

Notes to the Basic Financial Statements (Continued)

(In Thousands)

NOTE 14 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

County of San Mateo

Plan Description. The County administers a single-employer defined benefit post employment healthcare plan ("the Retiree Health Plan"). The Retiree Health Plan provides healthcare benefits to members who retire from the County and are eligible to receive a pension from SamCERA. This plan does not cover employees of the Housing Authority. Eligible retirees may elect to continue healthcare coverage in the County health plan and convert their sick leave balance at retirement to a County paid monthly benefit that will partially cover their retiree health premiums. The duration and amount of the County paid benefits depend on the amount of sick leave at retirement and the bargaining unit to which the retiree belonged. After the County paid benefits expire, the retirees may continue coverage in the County health plans at their own expense. Benefit provisions are established and may be amended through negotiations between the County and the bargaining units during each bargaining period. The Retiree Health Plan does not issue a publicly available financial report.

The County contracts with Kaiser, Aetna, Blue Shield, and Trades Health Plans to provide health coverage to its active members and pre-Medicare retirees (under age 65). These insurers charge the same premium for actives and pre-Medicare retirees; therefore, an implicit County subsidy of retiree premiums exists. The County also contracts with Kaiser, Secure Horizons, and Blue Shield to provide supplemental health coverage for retirees enrolled in Medicare (age 65 and above). Medical premiums for retirees enrolled in Medicare are not based on blended active experience; therefore, no premium subsidy exists for retirees enrolled in Medicare. Dental and vision premiums for retirees over age 65 are based on blended active experience; therefore, implicit dental and vision premium subsidy exists for those who enrolled in these plans.

Effective April 1, 2008, the County restructured the retiree healthcare benefits for management, attorney, and confidential employees hired after April 1, 2008 (excluding current non-management employees promoted into management classification); and elected officials newly elected after April 1, 2008. Under the new policy, their retiree healthcare benefits are capped at \$0.7 per month for each unused eight hours of sick leave at retirement. In lieu of this change, the County will contribute \$0.1 per month to each eligible employee's retiree health savings account and continue to pay for dental and vision premiums for each unused eight hours of sick leave.

A new law, which took effect on January 1, 2008, allows all California government agencies to participate in the California Employers' Retiree Benefits Trust (CERBT). CERBT is an irrevocable trust fund that allows public employers to prefund the future cost of their retiree health insurance benefits and other postemployment benefits (OPEB) for their covered employees or retirees. In May 2008, the County elected to participate in CERBT and wire-transferred \$145,434 to CalPERS, the CERBT's administrator. The prefunding was intended to reduce and stabilize the County's annual required contribution to its OPEB plan in future years at an expected level for budgeting purposes. CalPERS issued a publicly available financial report that includes financial statements and required supplementary information for CERBT in aggregate. The report may be obtained by writing to CalPERS, Lincoln Plaza North, 400 Q Street, Sacramento, CA 95811.

Funding Policy. Contribution requirements of the Retiree Health Plan members and the County are also established and may be amended through negotiations between the County and the bargaining units. For fiscal year 2007-08, the County contributed \$153,391, or 816%, of the actuarially required contributions to the Retiree Health Plan. The contribution included the \$145,434 to CERBT (see Note 18), the pay-as-you-go payment, and a component of the implicit subsidy for retirees.

Annual OPEB Cost and Net OPEB Obligation. The County's annual other postemployment benefits (OPEB) cost is equal to (a) the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45, plus (b) one year's interest on the beginning balance of the net OPEB obligation, and minus (c) an adjustment to the ARC. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost of each year and any unfunded actuarial liabilities (or funding excess) amortized over thirty years.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

The prior valuation was performed as of January 1, 2007. In April 2008, the County obtained a new valuation based on revised assumptions on the discount rate (using 7.75% instead of 6.9%) and the projected payroll increases (using 3.25% instead of 4%) to comply with the CalPERS OPEB assumption model. All the other actuarial assumptions are the same as those used for the prior valuation.

The following table shows the components of the County's annual OPEB cost for the year, the amount contributed to the plan, and changes in the County's net OPEB obligation to the Retiree Health Plan:

| Annual required contribution | \$ 18,511 |
|--|--------------|
| Interest on prior year net OPEB obligation | 1,256 |
| Adjustment to annual required contribution | (971) |
| Annual OPEB cost | 18,796 |
| Contribution made | (153,391) |
| Increase in net OPEB asset | (134,595) |
| Net OPEB obligation - beginning of year | 16,209 |
| Net OPEB asset - end of year | \$ (118,386) |
| | |

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation (asset) for the current and prior years are as follows:

| | Fiscal | | | | Percentage of | | | Net |
|---|-----------|--------|-----------|--|------------------|--|-------------------|-----------|
| | Year | Annual | | | Annual OPEB | | | OPEB |
| | Ended | OF | OPEB Cost | | Cost Contributed | | Obligation (Asset | |
| • | 6/30/2006 | \$ | 12,730 | | 45.7% | | \$ | 6,910 |
| | 6/30/2007 | | 15,914 | | 41.6% | | | 16,209 |
| | 6/30/2008 | | 18,796 | | 816.1% | | | (118,386) |

Funded Status and Funding Progress. The unfunded actuarial accrued liability is being amortized as a level of percentage of expected payroll on a closed basis over thirty years, beginning July 1, 2005. The table below indicates the funded status of the Retiree Health Plan as of January 1, 2007, the most recent actuarial valuation date.

| Actuarial accrued liability (AAL) | \$ 156,843 * |
|---|--------------|
| Actuarial value of plan assets | = |
| Unfunded actuarial accrued lability (UAAL) | \$ 156,843 |
| | |
| Funded ratio (actuarial value of plan assets/AAL) | 0.0% |
| Annual covered payroll (active plan members) | \$ 397,314 |
| UAAL as a percentage of annual covered payroll | 39.5% |

^{*} Based upon 7.75% discount rate used for FY 2007-08 ARC.

The above calculation is based on the revised valuation and does not include the \$145,434 transferred to CalPERS on May 15, 2008 (see Note 18).

Actuarial Methods and Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the revised actuarial valuation as of January 2007, the entry age normal cost method was used. Under this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated as a level percent of expected salary for each year of employment between entry age (age at hire) and assumed exit (maximum retirement age). The actuarial assumptions included a 7.75% investment rate of return on investment; an annual healthcare cost trend rate of 9% in 2007, reduced by 1% each year to an ultimate rate of 5% in the fifth year and beyond; annual dental and vision cost trend rate of 5%; negotiated annual increase in County-paid benefits; and a 3.25% annual increase in projected payroll. The salary scale and demographic assumptions (including termination, disability, retirement, mortality, and probability of marriage) were based on the latest experience study used by SamCERA in its pension valuation as of June 30, 2006. This experience study was conducted prior to the adoption of new sick leave conversion benefit provisions. While the new provisions may affect future patterns, sufficient experience is not available yet to observe any changes. The County's actuary will monitor the emerging experience and make adjustments to such assumptions, if appropriate, in the next valuation.

NOTE 15 – RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. For most insurable risks, the County is self-insured except for excess insurance coverage provided by commercial insurance companies that are limited to the following:

- Real and personal property in excess of \$100 per incident, but limited to a maximum of \$500,000.
- Earthquake in excess of \$250 or 5% of the replacement value, whichever is more per incident, but limited to a maximum of \$25,000 in aggregate.
- Flood damage in excess of 5% of the replacement value per location, but limited to a maximum of \$25,000 in aggregate.
- General liability in excess of \$300 per incident, but limited to a maximum of \$54,750.
- Workers' compensation in excess of \$1,000 per incident, but limited to a statutory amount.
- Auto liability in excess of \$300 per incident, but limited to a maximum of \$54,750.
- Malpractice in excess of \$10 per incident, but limited to a maximum of \$25,000 per claim and aggregate.

Settled claims have not exceeded the commercial coverage in any of the past three fiscal years and there has not been a significant reduction in coverage in FY 2007-08.

The County currently reports its risk management activities in the internal service funds, which include Workers' Compensation Insurance, Long-term Disability, and Personal Injury and Property Damage Funds. All of the County funds participate in the County self-insured programs and make payments to the corresponding internal service fund based on estimated costs to pay prior and current years' claims. The estimated claims liability of \$44,606, as reported in the internal service funds at June 30, 2008, is based on requirements of GASB Statements No. 10 and 30. Under these statements, the County is required to report a liability for claims if, prior to issuance of the financial statements, information indicates that the liability is probable and the amount of loss can be reasonably estimated.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Of the \$44,606 estimated claims liability at June 30, 2008, approximately \$39,520 was actuarially determined at a discount rate of 4.17%. The actuarially determined liability covers workers' compensation losses, general liability, and automobile liability; and includes allocated expenses and a provision for incurred but not reported claims. Changes to the claims liability for FY2006-07 and FY2007-08 were as follows:

| Liability at June 30, 2006 | \$ 43,910 |
|--|--------------|
| Current year claims and changes in estimates | 10,910 |
| Payments on claims | (13,255) |
| Liability at June 30, 2007 | 41,565 |
| Current year claims and changes in estimates | 16,640 |
| Payments on claims | (13,599) |
| Liability at June 30, 2008 | \$ 44,606 |

As of June 30, 2008, the Long-term Disability and the Personal Injury and Property Damage funds recognized a negative increment of \$617 and \$16 in estimated claims liability. As a result, these funds reported negative expenses of \$103 and \$15, respectively.

NOTE 16 – RELATED PARTY TRANSACTIONS

For the fiscal year ended June 30, 2008, the County recognized a \$1,083 of salary and benefit reimbursement from First 5, a discretely presented component unit of the County, for the services provided by the County's employees.

NOTE 17 - COMMITMENTS AND CONTINGENCIES

Grants

Grant monies, which represent reimbursement for costs incurred in certain federal and State programs administered by the County, are recognized as revenues when received. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures that may be disallowed by the grantor cannot be determined at this time. The County expects such amounts, if any, to be immaterial.

Medicare and Medi-Cal Reimbursements

The Medical Center provides healthcare services primarily to County residents. Net patient service revenues are reported at estimated net realizable amounts from patients, third-party payers, and others for services rendered; including a provision for doubtful accounts and estimated retroactive revenue adjustments due to future audits, reviews, and investigations. Retroactive adjustments are considered in the recognition of revenues, on an estimated basis, in the period the related services are rendered. Such amounts are adjusted in future periods as adjustments become known, or as years are no longer subject to such audits, reviews, and investigations. For the fiscal year ended June 30, 2008, revenues from Medicare and Medi-Cal programs accounted for approximately 13% and 58% of net patient charges for services. Laws and regulations governing the Medicare and Medi-Cal programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

Medi-Cal Waiver

In FY 2005-06, the State implemented a new payment program, entitled "Medi-Cal Hospital/Uninsured Care Waiver," to pay selected hospitals, including the Medical Center, for hospital care provided to Medi-Cal and uninsured patients. This new payment program covers the period from July 1, 2005 to June 30, 2010.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2008 (In Thousands)

Under this program, payments for public hospitals are comprised of: (1) fee-for-service cost-based reimbursement for inpatient hospital services (exclusive of physician component); (2) Disproportionate Share Hospital (DSH) payments; (3) distribution from a newly created pool of federal funding for uninsured care known as the Safety Net Care Pool (SNCP); (4) unreimbursed cost of physician and non-physician practitioner cost; and (5) cost applicable to the Coverage Initiative. The nonfederal share of these five types of payments will be provided by the public hospitals, primarily through certified public expenditures (CPE). The hospital would expend its local funding for services to draw down the federal financial participation currently provided at a 50% match. For the inpatient hospital cost-based reimbursement, each hospital will provide its own CPE and receive 100% of the resulting federal match. For the DSH and SNCP distributions, the CPEs of all the public hospitals will be used in the aggregate to draw down the federal match. One hospital may receive the federal match resulting from another hospital's CPE.

All CPEs reported by each hospital will be subject to State and federal audits and final reconciliation. If the final reconciliation indicates that a hospital's claimed CPEs resulted in an overpayment to the State, the hospital may be required to return the overpayment to the State whether or not they receive the federal matching funds. There is a reasonable possibility that the Medical Center claimed CPEs may result in an overpayment to the State.

Housing Authority of the County of San Mateo

The Housing Authority is a party, among several other potentially responsible entities, to a claim by the State of California, Department of Toxic Substances Control, for clean-up costs for the Midway Village and Bayshore Park in Daly City, California. The total outstanding clean-up costs approximate \$3,804 plus interest. Based upon expenses incurred by the State, the Housing Authority's liability is about 20% of the final settlement amount. An estimated liability of \$729 has been accrued to reflect such obligation.

Airline Litigation Settlement

In 2001, a number of airlines filed claims for refund and applications for changed assessments in some of the counties with respect to certain property taxes. Between 2005 and 2006, the airlines and the counties agreed to resolve these matters through settlement agreements. Under these agreements, the counties would give the airlines tax credits for the tax years 2002-03 through 2005-06, and the airlines would terminate certain claims and applications for changed assessment. In addition, the airlines agree not to pursue assessment by the State Board of Equalization and that all of their personal property continues to be locally assessed for the tax years through 2010-11.

The County estimated that total tax credits to be refunded to the airlines from its General Fund were \$1,357. Under the terms of the settlement agreements, the County will distribute tax credits to the airlines over eight years through FY 2012-13. The County has distributed a total of \$717 tax credits to all the airlines named in the settlement agreements during FY 2006-07 and FY 2007-08.

Pending Litigation

The County is also a defendant in several lawsuits arising in the normal course of business. In the aggregate, these claims seek monetary damages in significant amounts. To the extent the outcome of such litigation has been determined to result in probable loss to the County, the loss has been accrued in the accompanying financial statements. Litigation where loss to the County is reasonably possible has not been accrued. County management and Counsel estimate that such loss was about \$2,220 as of June 30, 2008.

NOTE 18 – SPECIAL ITEM

In May 2008, the County remitted \$145 million to CalPERS to settle its net OPEB obligation at the beginning of the fiscal year and prefund its OPEB liabilities with the excess funding. The contribution deposited into CERBT was shared proportionally among participating funds. The General Fund's share was \$116 million and was reported as a special item in governmental fund financial statements. In the government-wide financial statements, the \$116 million was capitalized and resulted in a net OPEB asset of \$95 million under the governmental activities column.

For the Fiscal Year Ended June 30, 2008
(In Thousands)

NOTE 19 – SUBSEQUENT EVENTS

Issuance of 2008 Lease Revenue Bonds

In November 2003, the JPFA issued \$155 million in lease revenue bonds to construct the Youth Services Center. As a means to lowering its borrowing costs, the JPFA chose to structure financing through variable rate bonds known as Auction Rate Securities (ARS). The JPFA also entered into interest rate swap agreements with Citibank and AIG, which effectively changed variable interest rates on the bonds to a "synthetic" fixed rate of 3.33%.

As the sub-prime mortgage crisis unfolded and a lack of confidence in the credit quality of bond insurers grew in 2007, investors experienced difficulty in finding new investors to purchase ARS bonds in weekly or monthly auctions. In February 2008, the JPFA's ARS market finally crashed when investors could not find new investors to purchase their bonds. The "failed" auctions essentially increased the borrowing costs of the bonds and pushed the combined swap and bond rate up to more than 6%.

On September 3, 2008, given the continued instability of the financial markets, the JPFA terminated its interest swap agreements at an expense of \$8.1 million and retired a portion of the 2003 bonds of \$3.7 million. On September 4, 2008, the JPFA issued \$141 million in fixed rate lease revenue bonds (2008 Series A bonds), together with other available moneys, to refund its outstanding lease revenue bonds (2003 Series A, 2003 Series B, and 2003 Series C); to pay costs of issuance of the 2008 bonds, and to pay other costs relating to the refunding of the 2003 bonds. The 2008 lease revenue bonds have interest rates ranging from 4% to 5% and begin to mature in 2009 through 2017.

Investments in the County's Investment Pool

The credit crisis subsequent to June 30, 2008, moved beyond its origins in subprime mortgages and began to accelerate in September. The financial market experienced an unprecedented turbulence, and the values of most securities declined significantly. Given the volatility of the financial market, readers of financial statements must also consider the current financial information.

On September 15, 2008, Lehman Brothers Holdings Inc. (Lehman) declared bankruptcy. This bankruptcy had a direct, negative impact on the County's investment pool in an amount of approximately \$155 million as of September 30, 2008. The Lehman securities represented 6% of the \$2.6 billion County investment pool at cost as of September 30, 2008. After extensive consultation with the County's financial advisors and legal counsel, the County Treasurer decided to retain the Lehman securities, but mark their value down to zero and carry the securities as a non-performing asset. For the quarter ended September 30, 2008, the County charged all pool participant accounts a one-time expense based on their respective average daily cash balances to reflect the reduction in value. The County's portion of the overall loss is approximately \$22 million, or 14%. The County has hired a bankruptcy counsel in New York to represent the collective interests of all investment pool participants in the proceedings. Additionally, the County has sought, and continues to seek with the assistance of its federal legislative representatives, assistance from the federal government through the existing federal financial rescue legislation or future legislation that the Congress may consider. Finally, the County, on behalf of the pool participants, has commenced litigation against the officers and directors of Lehman Brothers. The amount of recovery from this litigation as well as the bankruptcy proceedings, if any, is uncertain.

As of September 30, 2008, the County investment portfolio had a \$160 million investment at market value in Morgan Stanley corporate bonds, commercial paper, and floating rate securities. In October 2008, Mitsubishi UFJ Financial Group, the world's second largest bank holding company with \$1.1 trillion in bank deposits, has closed on a \$9 billion equity investment in Morgan Stanley. The County Treasurer believes the health of Morgan Stanley has been largely improved, but decided to reduce the pool's holdings of Morgan Stanley securities by \$55 million to \$105 million and realized an investment loss in the amount of \$2 million as of October 21, 2008, as a result of sale of these securities prior to maturity.

Investments in SamCERA Investment Portfolio

Since June 2008, the weight of the ongoing slowdown in consumer spending and weakness in the housing section has pushed the economy to slip into a recession. Between June 30 and October 15 of 2008, the market value of SamCERA's portfolio decreased from \$2,004 million to \$1,533 million, or 24%, after taking into account the prepaid contribution of \$108 million from the County on July 3, 2008. Given significant uncertainty existing in the markets, SamCERA cannot be certain about the pricing or value of its portfolio.

Required Supplementary Information (Unaudited)

Required Supplementary Information (Unaudited) For the Fiscal Year Ended June 30, 2008 (In Thousands)

1. INFRASTRUCTURE ASSETS REPORTED USING THE MODIFIED APPROACH

The County's infrastructure assets are recorded at historical cost in the government-wide financial statements as required by the Governmental Accounting Standards Board (GASB) Statement No. 34. The maintained road subsystem of the road network, with a total value of \$77,253 at June 30, 2008, is reported under the modified approach and is not subject to depreciation per GASB Statement No. 34.

The County manages its maintained pavement subsystem of the road network using the Metropolitan Transportation Commission's Pavement Management Program (Program). This Program establishes a Pavement Condition Index (PCI) on a scale from zero to one hundred (0-100) for each road segment. The pavement of roads with a PCI of 40 or higher is considered in a "Fair" or better condition, and roads with a PCI of 55 or higher in a "Good" or better condition. The County requires that at least 75 percent of the primary maintained road subsystem (roads with structural sections) be maintained at a PCI of 55 or higher, and at least 65 percent of the secondary maintained pavement subsystem (roads without structural sections) at a PCI of 40 or higher.

A complete condition assessment is determined triennially. The latest complete condition assessment was completed in FY 2006-07. Per the assessment report, the County's maintained pavement subsystem was rated at a PCI of 81 on the average for the primary roads and 62 for the secondary roads. The condition of the primary and secondary road subsystems were improved when compared to that of FY 2003-04.

| | Primary | | Prim | ary | Secon | dary | Secondary | |
|----------------------------|-----------|---------|-----------|---------|-----------|---------|-----------|---------|
| | 2007 | 2007 | 2004 | 2004 | 2007 | 2007 | 2004 | 2004 |
| | Number of | | Number of | | Number of | | Number of | |
| PCI Condition Rating | Miles | Percent | Miles | Percent | Miles | Percent | Miles | Percent |
| Primary: | | | | | | | | |
| Good to excellent (55-100) | 137.62 | 87.7% | 122.45 | 78.9% | | | | |
| Substandard to fair (0-54) | 19.22 | 12.3% | 32.66 | 21.1% | | | | |
| Secondary: | | | | | | | | |
| Fair to excellent (40-100) | | | | | 118.16 | 75.0% | 117.03 | 72.5% |
| Substandard to fair (0-39) | | | | | 39.41 | 25.0% | 44.49 | 27.5% |
| Total | 156.84 | 100.0% | 155.11 | 100.0% | 157.57 | 100.0% | 161.52 | 100.0% |

For the fiscal year ended June 30, 2008, the actual maintenance and preservation costs were less than the estimated amount by \$171. The variance was primarily due to road projects that were budgeted, but not completed at year-end.

| Maintenance | | | |
|-------------|--|--|--|
| Estimated | Actual | Variance | |
| \$ 6,292 | \$ 6,347 | \$ | (55) |

2. SCHEDULE OF FUNDING PROGRESS - PENSION

The schedule of funding progress presents a consolidated snapshot of SamCERA's ability to meet current and future liabilities with plan assets. Of particular interest to most is the funded status ratio. This ratio conveys a plan's level of assets to liabilities, an important indicator to determine the financial health of the pension plan. The closer the plan is to a 100% funded status, the better position it will be in to meet all of its future liabilities.

SamCERA issues a publicly available financial report that can be obtained by writing to the San Mateo County Employees' Retirement Association, 100 Marine Parkway, Suite 125, Redwood Shores, California 94065. The actuarial value of assets as a percentage of the actuarial accrued liability and the unfunded actuarial accrued liability as a percentage of the annual covered payroll are obtained from SamCERA's audited financial reports.

The table below presents six-year historical information about the funding status of the pension plan:

| | | Actuarial | | | | |
|-----------|--------------|--------------|------------|---------|------------|-----------|
| | | Accrued | | | | UAAL |
| | Actuarial | Liability | Unfunded | | | as a % of |
| Actuarial | Value of | (AAL) - | AAL | Funded | Covered | Covered |
| Valuation | Assets | Entry Age | (UAAL) | Ratio | Payroll | Payroll |
| Date | (a) | (b) | (b)-(a) | (a)/(b) | (c) | (b-a)/c |
| 6/30/2003 | \$ 1,353,941 | \$ 1,781,544 | \$ 427,603 | 76.0% | \$ 323,896 | 132.02% |
| 6/30/2004 | 1,452,621 | 1,921,328 | 468,707 | 75.6% | 365,385 | 128.28% |
| 6/30/2005 | 1,615,585 | 2,177,759 | 562,174 | 74.2% | 334,315 | 168.16% |
| 6/30/2006 | 1,769,021 | 2,345,149 | 576,128 | 75.4% | 363,648 | 158.43% |
| 6/30/2007 | 1,976,731 | 2,555,504 | 578,773 | 77.4% | 407,812 | 141.92% |
| 6/30/2008 | 2,218,937 | 2,806,222 | 587,285 | 79.1% | 416,243 | 141.09% |

3. SCHEDULE OF FUNDING PROGRESS - OTHER POSTEMPLOYMENT BENEFITS

The schedule of funding progress presented below provides a consolidated snapshot of a County's ability to meet current and future liabilities with plan assets. Of particular interest to most is the funded status ratio. This ratio conveys a plan's level of assets to liabilities, an important indicator to determine the financial health of the OPEB plan. The closer the plan is to a 100% funded status, the better position it will be in to meet all of its future liabilities.

The prior valuation was performed as of January 1, 2007. In April 2008, the County obtained a revised valuation based on revised assumptions on the discount rate (using 7.75% instead of 6.9%) and the projected payroll increases (using 3.25% instead of 4%) to comply with the CalPERS OPEB assumption model. All the other actuarial assumptions are the same as those used for the prior valuation.

| | | | Actuarial | | | | |
|-------------|--------|------|------------|------------|--------|------------|-----------|
| | | | Accrued | | | | UAAL |
| | Actuar | rial | Liability | Unfunded | | | as a % of |

(In Thousands)

BUDGETARY BASIS OF ACCOUNTING

In accordance with the provisions of Sections 29000 and 29143, inclusive, of the California Government Code and other statutory provisions, commonly known as the County Budget Act, the County is required to prepare a balanced budget for each fiscal year on or before August 30. The County Board of Supervisors (the Board) generally passes a resolution in June extending the due date to October 2. Budgeted expenditures are enacted into law through the passage of an Appropriation Ordinance. This ordinance mandates the maximum authorized expenditures for the fiscal year and cannot be exceeded except by subsequent amendments to the budget by the Board.

In late May of each year, the County Manager prepares and submits the recommended budget document to the Board. In late June, public hearings will be held to provide the general public with an opportunity to speak on any budget items before the Board. The Recommended budget, once adopted, is uploaded to the County's financial system in early July so that budget monitoring for the new fiscal year can begin. After fiscal year-end closing activities are completed and the State Budget is approved, the County Manager submits to the Board final adjustments to the recommended budget as a result of state budget adjustments for a final budget hearing in September. Changes approved by the Board are included in the Adopted Budget approved on or before October 2.

An operating budget is adopted each fiscal year for all governmental funds except for the JPFA. Expenditures are controlled at the object level within each budget unit of the County. The object level within a budget unit is the legal level of budgetary control at which the County's management may not reallocate resources without special approval. Any amendments or transfers of appropriations between object levels within the same budget unit, or between departments or funds, must be authorized by the County Manager's Office and approved by the Board. Supplemental appropriations, normally financed by unanticipated revenues during the year, require the Board's approval as well. Pursuant to the Board Resolution, the County Manager is authorized to approve transfers and revision of appropriations under \$50 within a single budget unit as deemed necessary and appropriate. Budgeted amounts in the budgetary financial schedules are reported as originally adopted and as amended during the fiscal year by resolutions approved by the Board. For the fiscal year ended June 30, 2008, the "other charges" object level within the County Support of Courts budget unit exceeded appropriations by \$977 as a result of a commitment to donate \$1,079 to another entity. The overrun will be absorbed by available fund balance in this budget unit.

The County uses an encumbrance system as an extension of normal budgetary accounting for all governmental funds except for the JPFA to control expenditures. Under the encumbrance system, purchase orders, contracts, and other commitments for the expenditure of monies are encumbered in order to reserve that portion of applicable appropriations. Encumbrances are combined with expenditures for budgetary comparison purposes. Unencumbered appropriations lapse at year-end; encumbered appropriations at year-end are carried forward in the ensuing year's budget and reported in the original budget column.

The budget approved by the Board for the General Fund includes budgeted expenditures and reimbursements for amounts disbursed on behalf of other governmental funds. In the accompanying budgetary financial schedules, actual reimbursements for these items have been eliminated from the resources and related expenditures have been eliminated from the charges to appropriations to provide a meaningful comparison of actual and budgeted results of operations.

The budgets for governmental funds may include an object level known as "intrafund transfers" in the charges to appropriations. This object level is an accounting mechanism used by the County to show reimbursements between operations within the same fund (an example would be the General Fund).

The amounts reported on the budgetary basis differ from the basis used to present the basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). Annual budgets are prepared using the modified accrual basis of accounting except that current year encumbrances are budgeted as expenditures; certain transactions are accounted for in different periods between budgetary and GAAP reporting basis; and securities lending activities and transactions from sub-funds reclassified from County Agency funds are reported in GAAP reporting basis.

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for specified purposes. The County's nonmajor special revenue funds include the following:

Road Fund - provides for planning, design, construction, maintenance, and administration of the County's transportation activities. Revenues primarily come from the County's share of state highway user taxes and federal grants.

County Fire Protection Fund - provides for fire protection services to both cities and unincorporated areas in the County. Revenues are derived from property taxes on all parcels within the County's fire protection districts.

County Service Area Fund - accounts for special district funds that provide refuse disposal, water, and lighting maintenance services to specific areas in the County. Revenues are derived from user charges and property taxes.

Sewer and Sanitation Fund - accounts for special district funds that support construction and maintenance of reliable sanitary sewer systems, providing sensitive sewage treatment and disposal to sewer and sanitary districts within the County. Revenues are derived from user charges and property taxes.

Flood Control Zone Fund - accounts for special district funds that support various flood control projects within the flood control districts. This fund is financed through property taxes, certificates of participation, and state and federal grants.

Lighting Districts Fund - accounts for special district funds that enhance the safety of residents and businesses by providing adequate lighting systems to street lighting districts within the County. Property taxes are the primary source of revenue.

Emergency Medical Services Fund - was established under Senate Bill 12/612 (Maddy legislation) to provide financial assistance for individuals and is used to pay physicians for uncompensated emergency care and hospitals providing disproportionate emergency and trauma care. This fund is financed by a special assessment imposed on court fines, forfeitures, and traffic school fees.

County Half-Cent Transportation Fund - accounts for a ½ cent sales tax revenue approved by the voters of San Mateo County in 1988 and re-approved in 2004. This fund is restricted for transportation programs sponsored by County departments and outside agencies.

County-Wide Road Improvement Fund - accounts for mitigation fees imposed on building permits to finance road improvements in the County.

Solid Waste Fund - accounts for revenues from management and operation of solid waste facilities owned by the County as well as aids from federal, state, and other local agencies. Revenues are primarily from licenses and permits. Expenditures are specifically restricted for resource conservation programs.

IHSS Public Authority Fund – provides for assistance in finding qualified In-Home Supportive Services (IHSS) personnel, and training of as well as support for providers and recipients of IHSS via the maintenance of a registry and referral system. This fund is primarily financed by state grants.

Other Special Revenue Funds - account for activities of several Special Revenue Funds, which include Fish and Game, Off-Highway Vehicle License Fees, Highlands Landscape Maintenance District, Water District, Redevelopment Agency, and Drainage Districts.

Nonmajor Governmental Funds

Debt Service Fund

Debt Service Fund is used to account for the accumulation of resources for, and payment of, principal and interest on the County's general long-term debt.

Other Debt Service Fund - was established to centrally budget all County debt service payments. Amounts are transferred into this fund from various funding sources before payments are made.

Nonmajor Governmental Funds

Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition of land or acquisition and construction of major facilities other than those financed by the proprietary funds.

Parks Acquisition Fund - is used for the acquisition of land for the County Park System and the development of County park facilities. Revenues in this fund initially came from a one-time sale of land at San Bruno Mountain. Current revenues come from grants and interest earnings.

Accumulated Capital Outlay Fund - accounts for appropriations for County capital improvement and maintenance projects. Revenues are derived from selling the County real properties and interest earnings.

Criminal Facility Fund - was established to support construction, reconstruction, expansion, improvement, operation or maintenance of criminal justice facilities. For every \$10 of all criminal and traffic fines, and bail and imposed penalties; a \$2.25 penalty assessment is added to the fines and placed into this fund. A penalty assessment of \$1.50 is put into this fund for every parking offense paid. The County's Probation Department also deposits \$1 into this fund for every \$10 in fines collected pursuant to Government Code 76004.

Courthouse Construction Fund - was established to finance construction and rehabilitation of courtrooms. Revenues for this fund are identical to the Criminal Facility Construction Fund above.

Other Capital Projects Fund - was established to centrally budget other capital improvement projects in the County.

Nonmajor Enterprise Funds

Nonmajor Enterprise Funds

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is to have the costs of providing goods or services (including depreciation and amortization) to the general public be financed primarily through user charges on a continuing basis; or where the County has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Airports Fund - was established to provide for operations and maintenance of San Carlos and Half Moon Bay aviation facilities. Revenues are derived from facility rental and federal aid.

Coyote Point Marina Fund - provides and maintains a fully utilized recreational facility for the boating public. Revenues arise from berth and facility rentals as well as interest earnings.

Internal Service Funds

Internal Service Funds

Internal Service Funds are used to account for the financing of goods and services provided by one department to other departments on a cost reimbursement basis. Internal Service Funds used by the County include the following:

Fleet Maintenance Fund - provides vehicle and equipment acquisition, replacement, maintenance, repair, and fuel services to all County agencies. Full service repair facilities are operated in Belmont and Redwood City.

Tower Road Construction Fund - provides quality, cost-effective maintenance, repair and renovation of County facilities to ensure a safe, accessible, efficient and attractive environment for the public and all County employees. This unit also offers remodeling and craft services beyond the scope of building maintenance to the County and other government agencies; as well as capital project management, support, and maintenance services to the lighting districts on a fee for service basis.

Self-Insurance Funds - are established to account for administrative costs and claim payments under various self-insurance programs. Revenues are primarily from premiums paid by participating funds and income on investments. The insurance programs include the following:

- Workers' Compensation Insurance provides medical benefits to employees for work-related injuries and illnesses.
- Long-Term Disability provides long-term disability benefits for permanent employees who have worked for the County for three years and at least 20 hours per week.
- Personal Injury and Property Damage provides insurance coverage for general liability (including errors and omissions) and automobile liability.

Employee Benefits Fund – are established to account for costs associated with providing comprehensive benefits, services, and programs to eligible employees, retirees, and their dependents that meet their needs. Revenues are primarily derived from contributions paid by individual funds.

Fiduciary Funds

Trust Funds

Pension Trust. The San Mateo County Employees' retirement Association (SamCERA), under the control of the SamCERA's Board of Retirement, accumulates earnings from investments and contributions from the County, San Mateo County Mosquito and Vector Control District, and their employees. Disbursements are made for administrative expenses as well as retirement, disability, and death benefits based on a defined benefit formula. This fund accounts for all assets of SamCERA.

Investment Trust:

- External Investment Pool The external investment pool is made up of three separate funds: Special Districts under Local Board, School Districts, and Other Investment Trust. These funds account for assets, primarily cash and investments in the County's investment pool, owned by legally separate entities such as school and community colleges, special districts governed by local boards, regional boards and authorities, and pass through funds for tax collections for cities. The County is obligated to disburse monies from these funds on demand.
- Individual Investment Account This fund accounts for specific investments acquired on behalf of the
 Brisbane School District. These investments are separate from the County's investment pool and the
 income from and changes in the value of the investments affect only the Brisbane School District.

Agency Funds

County Library Fund - is governed by the Board of the San Mateo Joint Powers Authority (JPA). The Board has twelve members, one from each of the eleven cities and one from the County Board of Supervisors. JPA, primarily financed by property taxes, provides library services to eleven cities and all unincorporated areas within the County.

Unapportioned Taxes Fund - accounts for property tax receipts awaiting apportionment to other local governmental agencies.

Trial Courts Operation Fund - is solely financed by the State of California and administered by the San Mateo County Superior Court. Expenditures from this fund require written authorization from the Court's Presiding Judge or his/her designee. The County only holds a custodial relationship to this fund.

Public Administrator Fund - accounts for all assets under the control of the Public Administrator. The County holds the assets in a fiduciary capacity.

Public Guardian Fund - accounts for all assets under the control of the Public Guardian. The County holds the assets in a fiduciary capacity.

Other Agency Fund - accounts for assets held for other governmental agencies by the County in a fiduciary capacity.

STATISTICAL SECTION (Unaudited)

Statistical Section

This part of the County's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Financial Trends

This segment contains trend information to help the reader understand how the County's financial performance and well-being have changed over time.

Revenue Capacity

This segment includes information to help the reader assess the County's most significant local revenue source, the property tax.

Debt Capacity

This segment presents information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

Economic & Demographic Information

This segment depicts demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.

Operating information

This segment displays service and capital asset data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise stated, the information in this section is derived from the comprehensive annual financial reports for the relevant year. The County implemented Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, in FY 2000-01; schedules presenting government-wide activities include information beginning from that year.

Changes in County's Net Assets

Source: Comprehensive Annual Financial Reports - County of San Mateo, California

Notes:

net assets

- ¹ Capital assets include land, easements, infrastructure, construction in progress, structures & improvements, and equipment.
- ² Accounting standards require that net assets be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are considered restricted only when an external party, such as the state or federal government, places a restriction on how the resources may be used, or through enabling legislation enacted by the County.
- ³ Net assets are restricted for specific programs at various functional levels such as general government, public proteciton, public ways and facilities, health and sanitation, public assistance, and recreation.
- ⁴ Substantial increase in net assets for the governmental and business-type activities is partially due to reporting postemployment healthcare benefits under GASB Statement No. 45 instead of GASB Statement No. 16.

Notes

(Continued)

¹ Net expense is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program supports itself with its own fees and grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses are net expenses, indicating that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program.

² This amount reflected the County's share of revenues from "Triple Flip", a State legislation enacted to replace 0.25% sales tax revenue to local governments via a temporary reduction to ERAF until the State's recovery loan is fully paid.

³ In prior years, vehicle license fee (VLF) was based on the original VLF and reported as motor vehicle in-lieu taxes. Starting in FY 2005-06, VLF is calcuated using the prio year's VLF amount plus the local increases in assessed valuations of property and is reported as property tax revenue.

⁴ Strong economic conditions accounted for a significant return on investment.

Notes

- ¹ Based on findings from the Controller's office Internal Audit Division, the County received approximately \$25 million in property tax rebates from the Educational Revenue Augmentation Fund (ERAF) in FY 2004, which accounted for the substantial increase in property tax revenues.
- ² The County realized approximately \$41 million more in property tax rebates from ERAF in FY 2008, which accounted for most of the increase.
- ³ In FY 2004-05, vehicle license fee (VLF) was based on the original VLF and reported as intergovernmental revenues. Starting in FY 2005-06, VLF is calculated using the prior year's VLF amount plus the local increases in the assessed valuations of property and is reported as property tax revenue.
- ⁴ This amount reflected the County's share of revenues from "Triple Flip", a State legislation enacted to replace 0.25% sales tax revenue to local governments through a temporary reduction to ERAF until the State's recovery loan is fully paid.

Total Taxable Assessed Value

Source: Assessor's Office - County of San Mateo, California

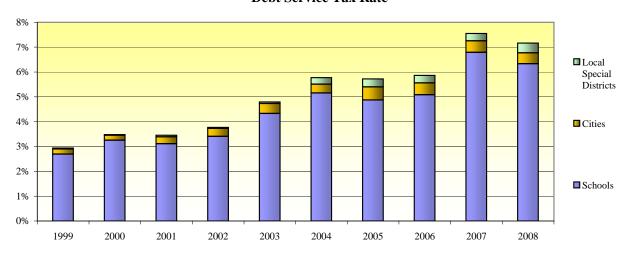

- ¹ Article XIIIA, added to California Constitution by Proposition 13 in 1978, fixed the base for valuation of property that is subject to taxes at the full cash value appeared on the Assessor's 1975-76 assessment roll. Thereafter, full cash value can be increased to reflect:
- a) annual inflation up to 2%,
- b) current market value at time of ownership change, and
- c) market value for new construction.
- ² Estimated actual value of taxable property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.

Debt Service Tax Rate

Source: Controller's Office - County of San Mateo, California

Notes:

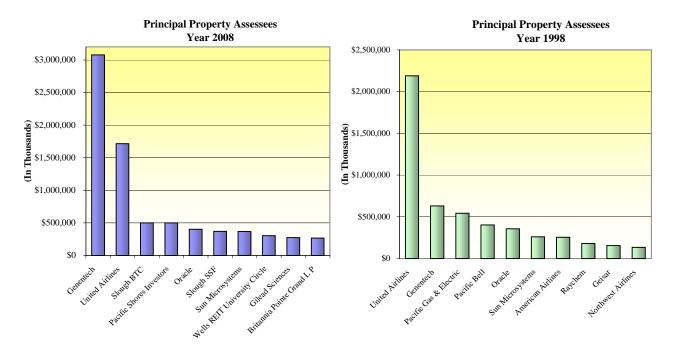

¹ On June 6, 1978, California voters approved a constitutional amendment to Article XIIIA of the California Constitution, commonly known as Proposition 13, that limits the taxing power of California public agencies. Legislation enacted to implement Article XIIIA (Statutes of 1978, Chapter 292, as amended) provides that notwithstanding any other law, local agencies may not levy property taxes except to pay debt service on indebtedness approved by voters prior to July 1, 1978.

² Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County.

³ Proposition 13 allows each county to levy a maximum tax of \$1 per \$100 of full cash value. Full cash value is equivalent to assessed value pursuant to Statutes of 1978, Senate Bill 1656.

County's Debt

Source: County Comprehensive Annual Financial Reports.

Notes:

n/a - Information is unavailable.

¹ Lease revenue bonds are limited obligations of the San Mateo County Joint Powers Financing Authority (JPFA) payable solely from, and secured by, revenues of JPFA, which primarily consist of base rental payments receivable from the County under a Master Facility Lease.

² Certificates of participation represent shares of lease-purchase payments from the Colma Creek Flood Control District via JPFA. These tax-exempt certificates are sold publicly or privately to investors.

³ Capital lease obligations arise from lease agreements which are in-substance like purchases. The agreements convey property rights to the lessee and the lessee assumes substantially all of the risks and benefits of ownership.

⁴ The County issued \$155 million of lease revenue bonds to finance the construction of the Youth Services Center.

⁵ The County issued \$10.38 million of certificates of participation to finance the construction of a flood control zone at Colma Creek.

Legal Debt Service Limit \$60,000

Source: County's Adopted Budget Books

¹ The annual County budget represents the adopted annual budget of all funds in the County.

² County Ordinance No. 3773 requires the Board of Supervisors establish the County debt service limit annually. Under this ordinance, the debt service limit shall not excee 4% of the average annual County budget for the current and the preceding four fiscal years, and shall be for non-voter approved debt that is the obligation of the County. The debt service limit does not apply to certificates of participation for the Colma Creek Flood Control District.

³ The information reflects debt service payments towards non-voter approved debt that is the obligation of the County.

Full-time Equivalent County Employees by Function FY 2007-08

Source: County's Budget System - County of San Mateo, California

- In August 2003, the County assumed control of the Burlingame Long Term Care Center (BLTC), a 281-bed skilled nursing facility that had been in State receivership since November 2002 due to the bankruptcy of its previous operator. The addition of BLTC increased the County's number of employees.
- ² The full-time equivalent (FTE) employee count was based on the information available in the County's Budget System.
- ³ The increase in FTE was primarily caused by extended services provided by the Public Health and the Mental Health divisions.

⁷ Park reservations staff began making reservations for Fitzgerald Marine Reserve docent-led tours, a task previously performed by others.

⁸ The measure included Workforce Investment Act participants only.

⁹ The increase in number of clients served was caused by increased capacity in STD clinic stablized workforce.

 $^{^{10}}$ The Human Services Agency changed its method in calculating the number of children served.

¹¹ This represents a target result to achieve. The actual measure is not available because the Parks Department has no resources to perform the physical count.
