East Palo Alto	2	South San Francisco	1
Redwood City	2	Montara	1
Daly City	1		
Transient	1	Out of County	10
Total Supervisees	18		

Terminations, Revocations and Flashes

There were thirty-four (34) terminations during the reporting period. Seventy-six percent (76%) were successful.

Total # of Supervisees Successfully Terminated		Total # of Supervisees Unsuccessfully Terminated	
PRCS – 21	MS – 5	PRCS – 2	MS – 6
<ul style="list-style-type: none"> • Early Terminations: 13 • Normal Terminations: 8 			

In the reporting period, we filed a total of sixty-six (66) revocations, with PRCS having forty-seven (47) and MS having nineteen (19) revocations. The breakdown by violation category is below:

Violation Type	PRCS	MS	% of Q3 Revocations
Property	2	1	4%
Drug/Alcohol	11	8	29%
Crimes Against Persons	4	2	9%
Technical	23	6	44%
Other Crimes	7	2	14%
TOTAL	47	19	100%

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Forty-four percent (44%) of revocations were for technical violations. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. It is important to note that the Probation Department usually files formal revocations after lower sanctions have been attempted, including flash incarcerations for PRCS cases. However, at times, officers may decide that a formal revocation is more appropriate than utilizing lower sanctions, depending on the circumstances of the violation. Fifty-six percent (56%) of the revocations filed were for new law violations involving crimes against persons, property, drug/alcohol related crimes as well as other crimes.

There were twelve (12) **flash incarcerations** during this reporting period.

There were no supervisees whose charges were reduced because of **Prop 47** or **Prop 64**.

Three cases were **transferred** to another county for supervision.

Recidivism Definition

San Mateo County: Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but ***excludes*** PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

Attorney General: An arrest resulting in a charge within three years of an individual's release from incarceration or placement on supervision for a previous criminal conviction

BSCC: A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

San Mateo County Quarterly Realignment Bulletin

Quarter 1: January—March 2020

Executive Summary:

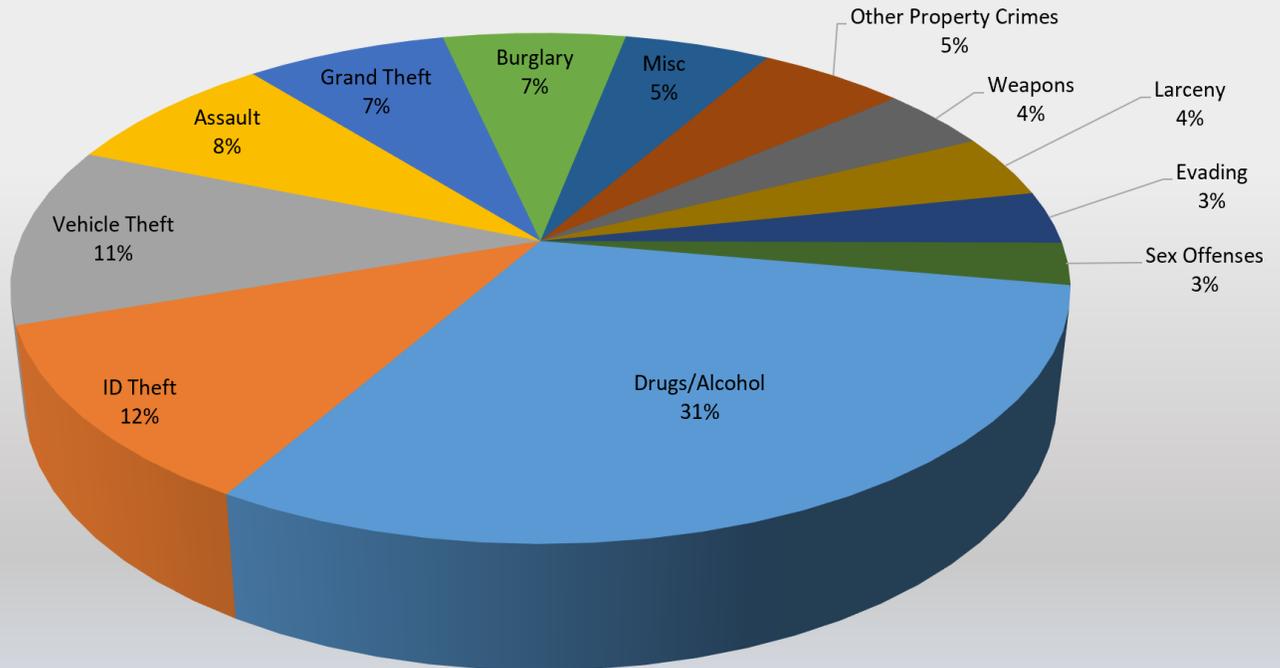

Offenses committed by the supervised and in-custody realignment populations in San Mateo County during January through March (Q1) continue to show that this population commits drug and property crime offenses. There is no significant involvement in serious or violent crime.

Overview:

During Quarter 1, drug/alcohol offenses, identity theft and vehicle theft remained the top three committing offenses for the realignment population (this includes the new supervised cases and in-custody realignment offenders). Assault was the fourth top committing offense (8%) followed by grand theft and burglary (7% each). Please note that “other property crime” refers to offenses such as vandalism, forgery, and elder theft. “Miscellaneous” refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: resisting arrest, arson, conspiracy, pimping and pandering. The data used for this analysis was derived from information provided by the San Mateo County Probation Department and data from the San Mateo County Jail.

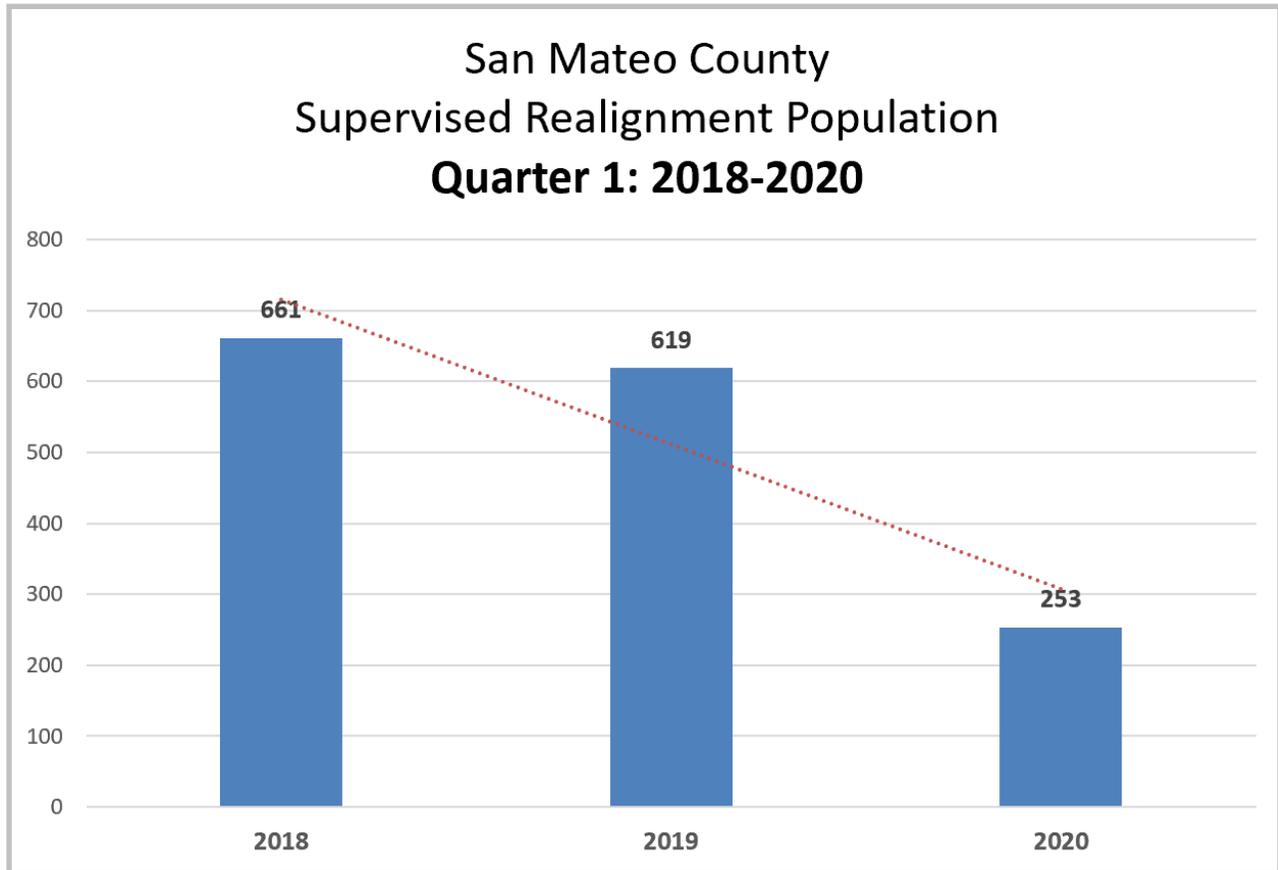

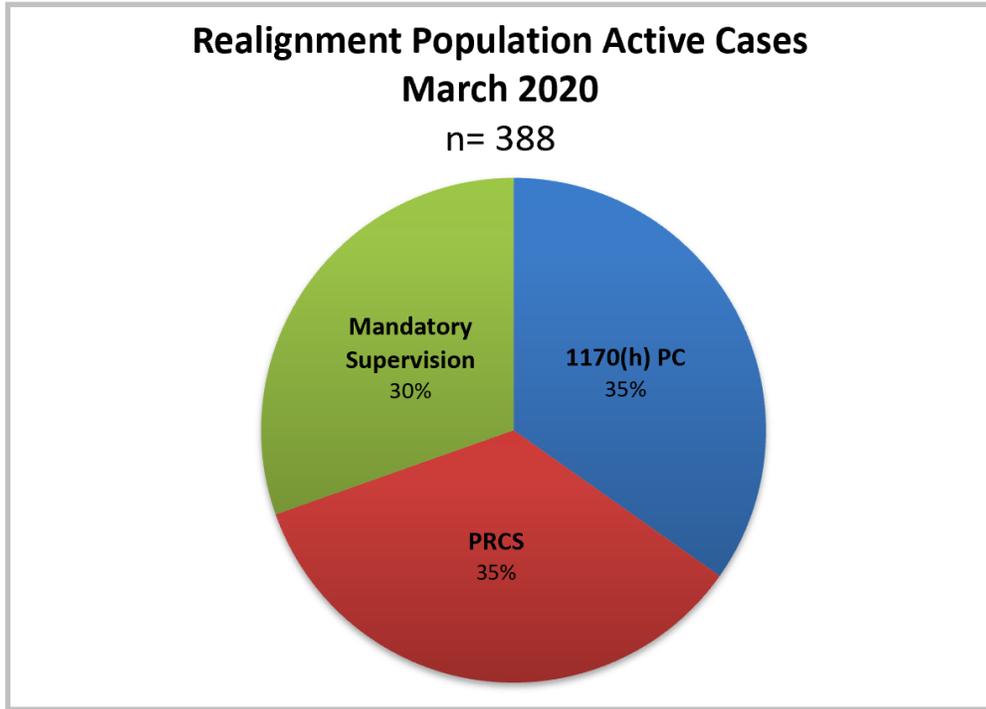

San Mateo County Realignment Population Top Committing Offenses Q1

n=150

AB109: San Mateo County

NOTE: As of August 2019, the active PRCS and Mandatory Supervision numbers are lower than previous months. This is due to the Probation Department no longer including warrants as part of the statistics.

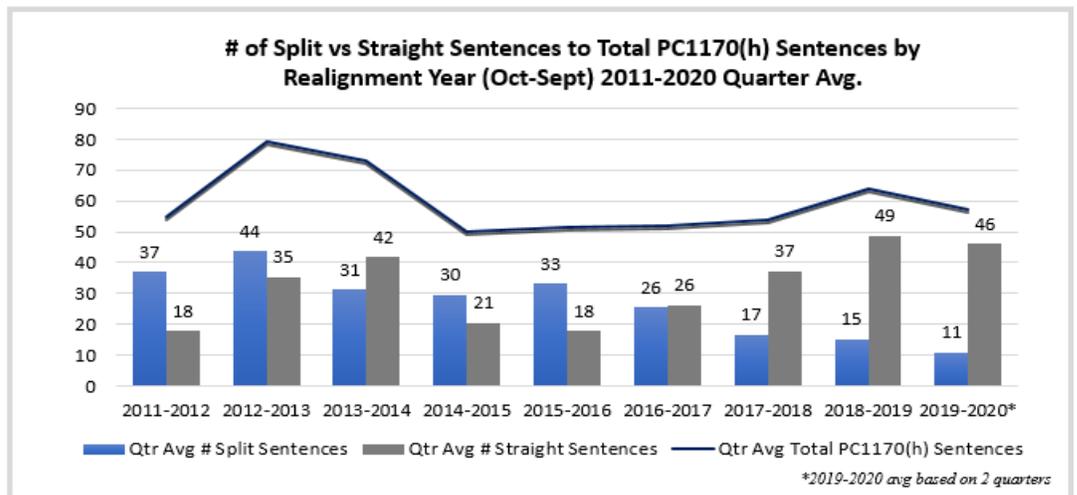

Note: This data was obtained from different sources (probation, jail) and therefore may overlap slightly. However the preceding analysis provides a general picture of the San Mateo County realignment population.

San Mateo County: In-Custody

AB109 In-Custody Statistics for Q1 2020:

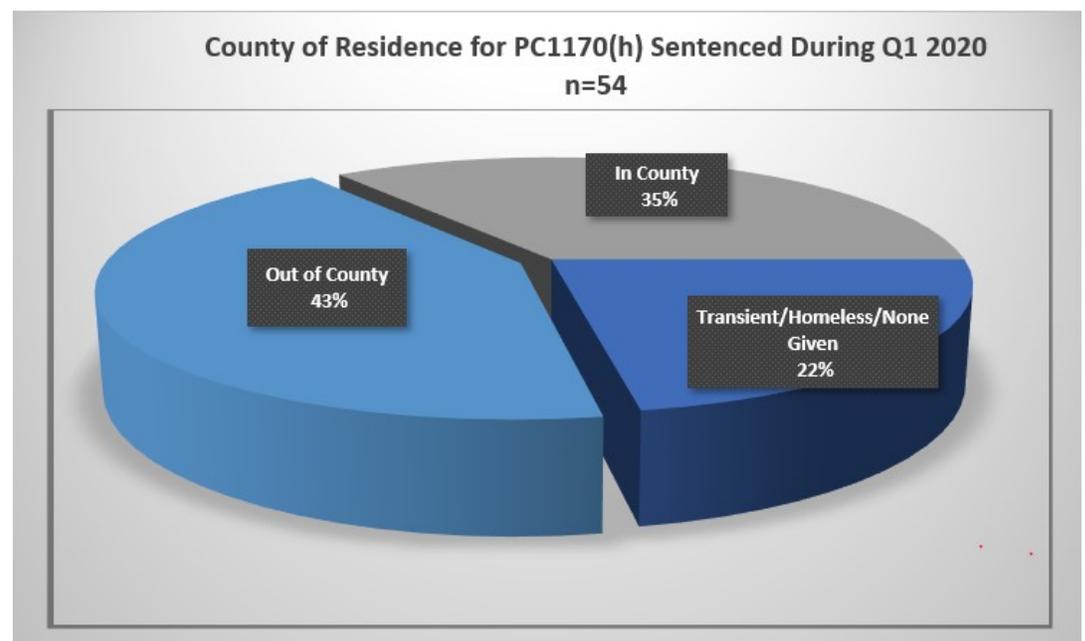

PC1170(h) New Sentenced Cases by Quarter	Q1 2020	Q4 2019	% +/-
Number of new PC1170(h) cases:	54	60	-10.0%
Total PC1170(h) Days to Serve	5,859	9,478	-38.2%
Number of Split Sentences	16	6	166.7%
Number of Straight Sentences	38	54	-29.6%
Average Length of Stay (ALOS) all cases (after credits applied)	109	158	-31.0%
Average Length of Stay (ALOS) Straight Sentences (after credits applied)	123	152	-19.1%
Average Length of Stay (ALOS) Split Sentences (after credits applied)	75	209	-64.1%

NOTE: Over the last three years split sentences have dropped by approximately 63%, this trend is continuing into 2019-2020. The number of split and straight sentences for each realignment year (quarterly avg) is depicted in the bar chart to the right.

Demographics of the Newly Sentenced PC1170(h) During Q1 2020:

- 72% (39) of the newly sentenced cases were men, 28% (15) were women. There has been an increase in women during Q1.
- Median age of those sentenced during Q1 2020 was 37, older than Q4 2019 (36).
- San Francisco residents comprise 15.0% of the out of county PC1170(h) sentences; the highest of any other nearby county.

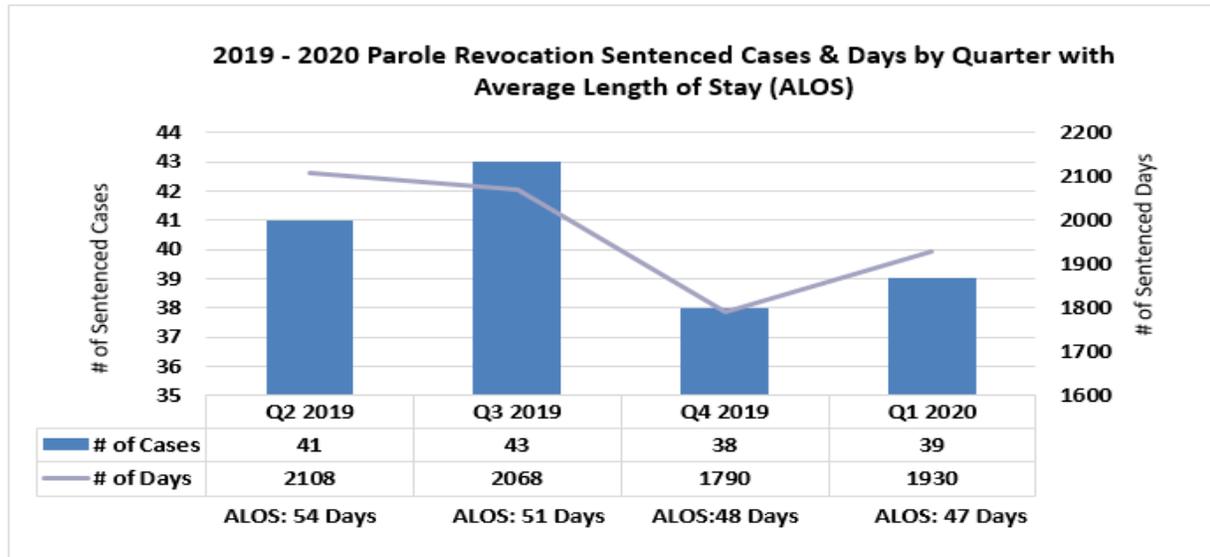

San Mateo County: *In Custody*

Mandatory Supervision Revocation Cases (MSV)

	Q1 2020	Q4 2019	+/-
Number of MSV Cases:	13	7	85.7%
Total MSV Days to Serve	919	576	59.5%
Average Length of Stay	71	82	-13.4%

Offenders in this population were re-arrested after being released from a PC1170(h) split sentence. Some of these offenders were ordered to serve the remainder of their original sentence and supervision was revoked; others were ordered to serve a portion of their original sentence and were reinstated on mandatory supervision. **Note:** The first MSV case appeared in December of 2012.

Parole Revocation Sentenced Cases :

Post Release Community Supervision (In-Custody) Statistics:

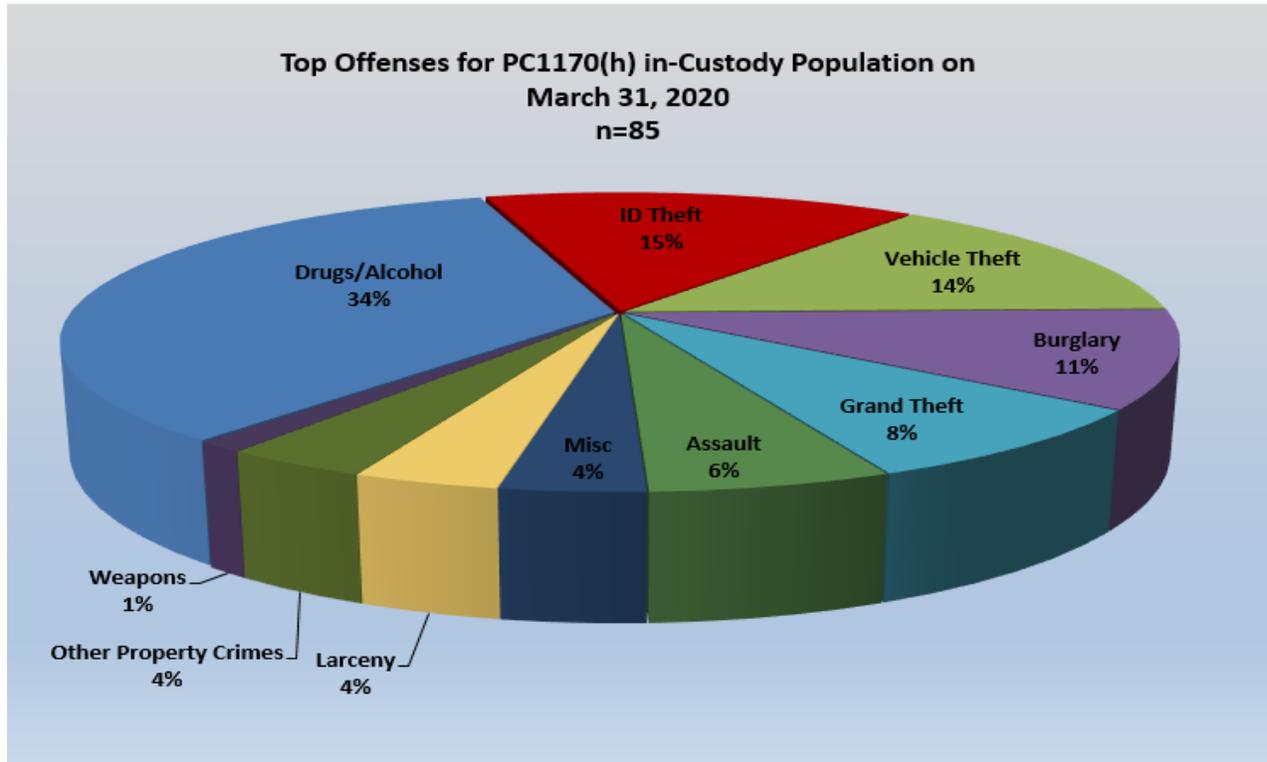

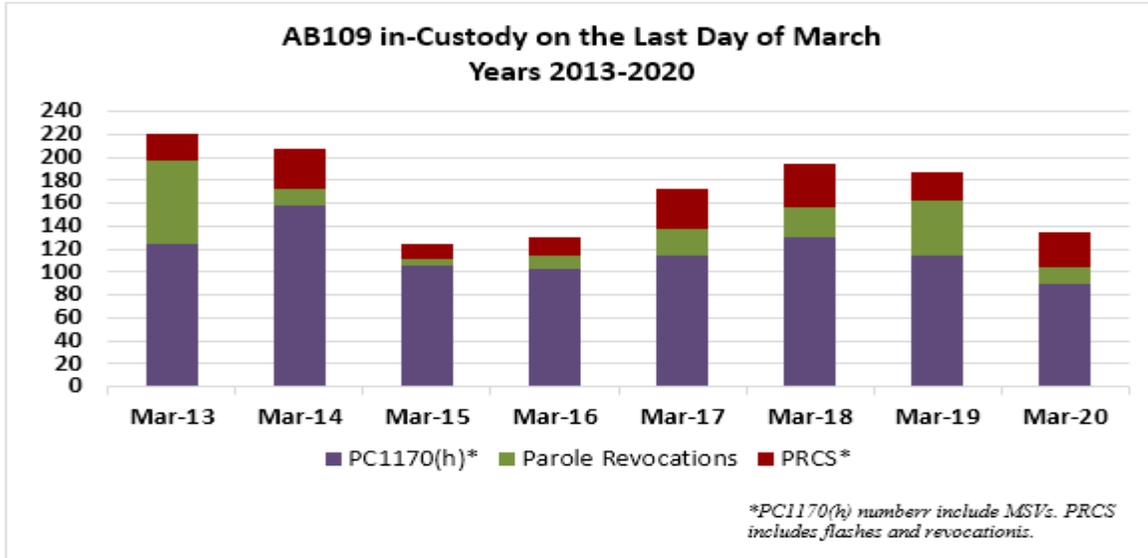

PRCS Revocations Sentenced During the Quarter	Q1 2020	Q4 2019	+/-
# of PRCS Revocations Sentenced During the Quarter	45	37	21.6%
Total # of PRCS Revocation Days to Serve	2,257	1,561	44.6%
Average Length of Stay for PRCS Revocation Sentences	50 days	42 days	19.0%

San Mateo County: *In Custody*

Number of AB109 In-Custody on the Last Day of the Quarter:

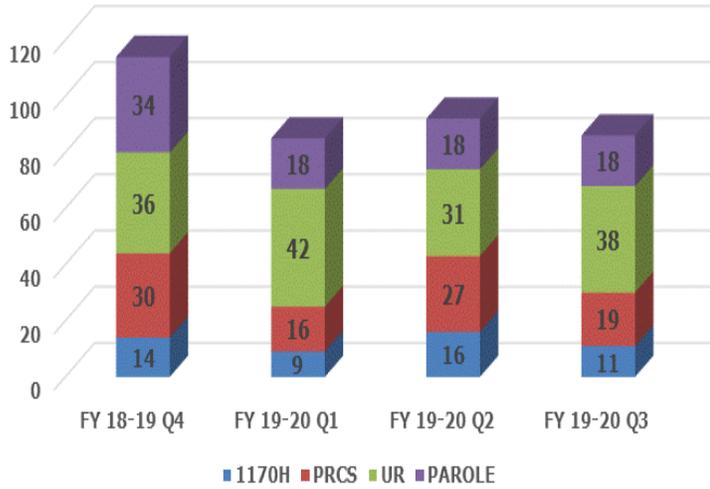

On the last day of the quarter (March 31, 2020), the total AB109 in-custody population was 20.2% (135) of the overall average daily population (667), an increase from the prior quarter (18.2%).

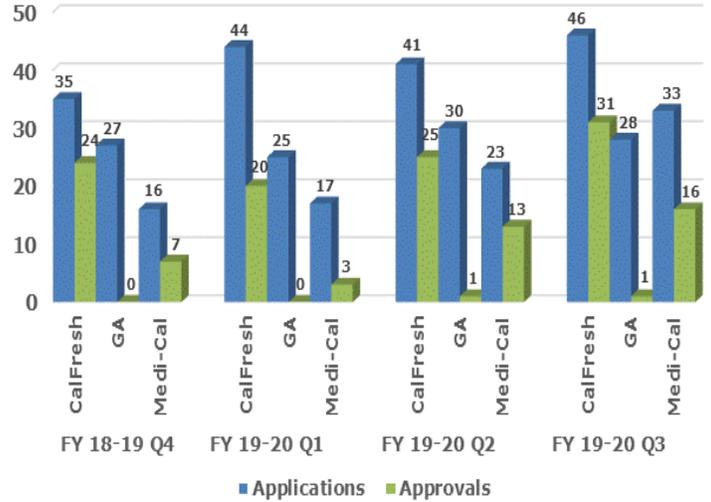

During Q1, drug/alcohol offenses, ID theft and vehicle theft remained the top three offenses committed by the in-custody population. As mentioned on Page 1, please note that “other property crime” refers to offenses such as vandalism, forgery, and elder theft. “Miscellaneous” refers to a number of assorted offenses that do not amount to any one category including but not limited to: resisting arrest, arson, conspiracy, pimping & pandering.

FY 19-20, Q3 (January 2020 – March 2020)

New Intakes

- Third quarter of FY 19-20 had 86 intakes.
- There was an increase in UR intakes from 31 in Q2 to 38 in Q3. AB109 intakes decreased by 30% in Q3 from Q2. Parole had no change with 18 intakes in both quarters.
- In the first three quarters of FY 19-20, there were 263 intakes in total: 42% UR, 37% AB109, and 21% Parole.

Eligibility/Benefits

- There were 107 applications received and processed in Q3, an increase of 14% from Q2's 94. Of the 107 applications: 43% were CalFresh, 31% Medi-Cal, and 26% General Assistance.
- Approved applications increased by 23%, from 39 in Q2 to 48 in Q3: 31 were CalFresh, 16 Medi-Cal, and 1 General Assistance.
- Twenty-five applications were denied in Q3, a 28% decrease from Q2's 35. Top reasons for denial were out-of-county residence and failure to submit required verifications. Withdrawals totaled 14 as clients opted to participate in employment training or look for employment.

Employment Services

- There were 45 clients who obtained employment in Q3: 51% were subsidized placements, 42% were unsubsidized, and 7% were offsite placements.
- The top three businesses that accounted for 79% of placements where clients obtained employment were in services, retail, and construction.
- Average wage per hour was \$21.57 in Q3, an increase of 14% from Q2's \$18.86.
- There were 44 in-custody employment workshops conducted and 85 participants earned a Certificate of Completion for completing a five-workshop cycle.

Services Provided

- Transportation continued to be the most requested service. In Q3, an average of 408 bus tickets a month and 51 monthly bus passes were provided to an average of 97 clients.
- The second most requested service was emergency shelter. An average of 112 motel nights and 85 shelter bed nights were used each month.
- Food assistance was provided to an average of 95 clients per month in either VRS meal vouchers and/or food totes.

Peer Support Services

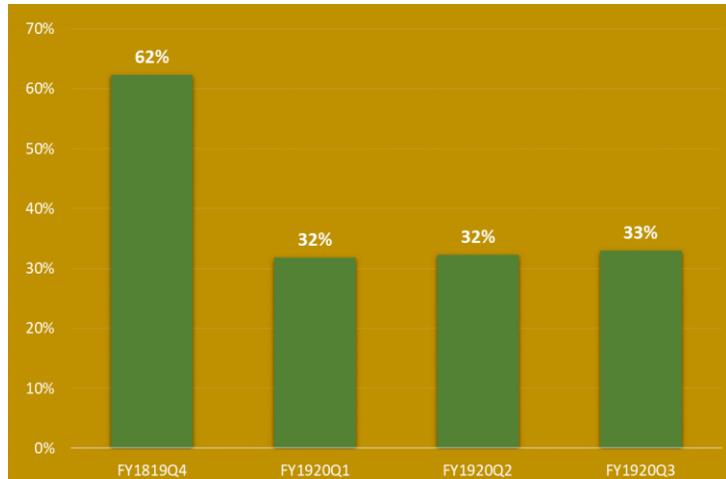

- The total number of unduplicated clients served by peer mentors in Q3 was 74. The top 3 services provided were phone check-ins, transportation, and warm hand-off.
- There were 21 support group meetings conducted with Iron Sharpens Iron and Wellness Recovery Action Program groups. Two community engagement events were held to encourage positive pro social interactions; a trip to the Ice Cream Museum and a sober Super Bowl watch party at the David Lewis Reentry building in East Palo Alto, CA.

Service Connect BHRS Dashboard

FISCAL YEAR 2019-20 THIRD QUARTER
SUMMARY REPORT NARRATIVE

SAN MATEO COUNTY HEALTH

BEHAVIORAL HEALTH
& RECOVERY SERVICES

AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services, or Booking Encounter

The total number of participants referred to BHRS for treatment since the inception of the Service Connect is 2,651 and of these, 1,489 entered into treatment and/or recovery plans (these participants were served by BHRS and is a lower number because not all assessments result in treatment).

Referred is defined as participants showing up for the first post-referral appointment and does not include those referred, but who did not follow through on the referral. This also represents the total number of services, 16,121 (both mental health and substance use treatment) provided to participants during the third quarter of the 19/20 fiscal year. Service type detail for the third quarter is presented in the pie chart at the bottom of the dashboard.

Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS service. The numbers do include participants that continued from quarter to quarter, so a participant could be counted more than once in each quarter if their case was open across multiple fiscal quarters. Therefore, this graph indicates the total open cases from the last quarter of FY18/19 for reference and all three quarters of this fiscal year. The most recent quarter has significantly lower participation.

Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant that has received four or more services. This means that the participant has returned to BHRS for multiple appointments regarding different services, which demonstrates that the participant is engaged in treatment because they actively participate. The current report generally reflects consistent engagement, but at a significantly lower rate than prior year due to service impacts associated with staffing issues.

Percent of Participants with Substance Abuse Recovery Plan or a Mental Health Treatment Plan

This graph presents what percentage of Service Connect participants who had a mental health treatment plan or a substance abuse recovery plan. Recovery plans are typically at a rate of two to one as compared to a mental health treatment plan. MH was trending up last year and AOD was trending down, but it appears that the two have returned to a normal pattern. It should be noted that co-occurring participants are not represented.

Average Days in Treatment In and Post Custody

This graph shows the average days a patient spends receiving treatment for Alcohol and Other Drugs, as well as Mental Health Services. The recent trend of MH Services exceeding AOD Services has returned to a more typical pattern and the average days has increased significantly. The data reflects FY19/20 staffing issues that have been addressed.

Mental Health and Alcohol & Other Drugs Services Provided by Service Connect

This pie chart reports mental health and substance abuse treatment services provided by BHRS to Service Connect participants for the FY19/20 third quarter. The top five services utilized in order are AOD Residential, MH Services, AOD Methadone, AOD Intensive Outpatient, and medication support services.

Mobile Health Van Services

This graph shows data for Mobile Health for FY19/20 Q3 as compared to Q2. Total visits for Q3 are higher than Q2 Work Physicals grew substantially, with the highest count of all categories. Vivitrol medication assisted treatment was the next highest area of growth, increasing by six additional participants.

Correctional Health Services

Correctional Health data presents the total participants that flow through Correctional Health in the current quarter as compared to the previous quarter, the number of participants screened, the number treated medically, for mental illness, and for substance abuse.

Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect, counts do not include episodes when subject was not a participant in Service Connect. The third quarter of FY19/20 showed there were 20 visits and 2 inpatient, which is generally better results than any other quarter represented in the infographic on the dashboard.
