WWW.SMCGOV.ORG

**To:** Measure K Oversight Committee  
**From:** Roberto Manchia, Budget Director  
**Subject:** **Items 7 and 8: Oversight Committee Annual Report for FY 2018-19**

**RECOMMENDATIONS:**

- (1) Accept the FY 2018-19 Annual Audit of Measure K Sales and Use Tax Receipts and Results of Agreed-Upon Procedures on Measure K Spending
- (2) Create Ad Hoc Committee on Performance Measures

**BACKGROUND:**

Measure A is the ten-year half-cent general sales tax approved by San Mateo County voters in November 2012. On November 8, 2016 the voters of San Mateo County approved **Measure K**, which extends Measure A for 20 years. The Measure requires the appointment of “a committee to perform an annual audit of the general fund revenues generated by [the] Retail Transactions (Sales) and Use Tax.” The Committee is bound by a set of Bylaws and Rules of Procedure (“Bylaws”), which set forth the operating procedures and duties of the **Measure K** Oversight Committee.

One of the requirements laid out in the Bylaws is for the Committee to present an annual report to the Board of Supervisors with the Committee’s review of (1) the annual audit of Measure K receipts, (2) results of the Agreed-Upon Procedures (AUP) on Measure K spending, and (3) performance report for existing **Measure K** initiatives.

**DISCUSSION:**

Agenda Item 7 will be presented by the Controller’s Office. It includes the annual audit of Measure K revenues, and results of the agreed-upon procedures on Measure K spending for the period covering July 1, 2018 to June 30, 2019. The Measure K receipts totaled \$98,604,386, a 10.0% increase from the previous year. Measure K expenditures were \$102,600,256 in the priority areas of public safety, health and mental health, youth and education, housing and homelessness, parks and environment, older adults, veterans and community services, and district-specific spending.

There was one exception noted in the audit and agreed-upon procedures. The exception was due to four initiatives exceeding the approved budgeted amounts in FY 2018-19. These exceptions were due to the use of manual processes. The County is

reviewing these practices. It is recommended that the Committee accept the Controller's Report.

Agenda Item 8 will be presented by the County Manager's Office. Based on performance data reported on During the 2018-19 fiscal year the County implemented or continued 115 initiatives funded wholly or in part by Measure K across the seven tracked categories. Each initiative is evaluated based on established performance measures.

Based on initial performance data, 154 of a total of 230 performance measures achieved targets during the fiscal year, or 66.96%. Seventy-six performance measures, or 33.04%, did not meet targets or were in data development.

As required by Committee bylaws, it is recommended that an ad hoc committee be created to review performance measures with County staff, and make recommendations to the County Manager's Office on measures that can be improved to communicate outcomes and impact of Measure K spending.

The Committee will submit its final FY2018-19 annual report to the Board of Supervisors in February 2020.

## Introduction

---

On November 6, 2012, the voters of San Mateo County (County) passed by majority vote Measure A, *The County of San Mateo Sales and Use Tax Ordinance* (Ordinance). Measure A levies a half-cent tax, for a period of 10 years, on the gross receipts of any retailer selling tangible personal property in the incorporated and unincorporated territory of the County. The proceeds are to be used to support general fund services and facilities which include, among others, abuse prevention programs, healthcare services, County parks, fire protection and other safety services, and educational programs and services. Measure A was to sunset on March 31, 2023.

The County's Board of Supervisors (Board) approved putting a 20-year extension of the half-cent sales tax on the November 8, 2016 ballot (Measure K). Measure K received the majority vote needed to pass. Following certification of the election results on December 5, 2016, the Measure A initiative and all future references thereto were changed from Measure A to Measure K. Measure K will sunset on March 31, 2043.

The Board identified programs and services that can benefit from Measure K funds. The table below represents Measure K revenues and expenditures since inception.

Fiscal Year	Measure K Revenues	Measure K Expenditures
2012-13	\$ 4,397,206	\$ -
2013-14	75,577,548	24,113,909
2014-15	80,598,111	36,396,204
2015-16	79,888,971	44,081,784
2016-17	83,033,888	58,199,714
2017-18	89,602,981	88,416,871
2018-19	98,604,386	102,600,256
<b>Total</b>	<b>\$ 511,703,091</b>	<b>\$ 353,808,738</b>

The Measure K Fund balance as of June 30, 2019 was \$157,894,353 (\$511,703,091 - \$353,808,738)

As of the report date, the Board appropriated an additional \$92,027,950 for Measure K initiatives. Additionally, of the remaining unappropriated amount, \$4,695,007 is restricted for airport use only and \$29,600,000 has been set aside and not yet budgeted.

The Board also designated a Measure K Oversight Committee (Committee) as required by the Ordinance to ensure the completion of an annual audit of the Measure K Sales and Use Tax revenues. Section I of this report fulfills this requirement. In addition, the Committee by-laws ensure the performance of additional agreed-upon procedures by the Controller's Office related to Measure K expenditures. Section II of this report fulfills this requirement.

This report is divided into two sections as follows:

**Section I:** Audit of Measure K Revenues Received by the County of San Mateo for the Period July 1, 2018 to June 30, 2019. Current year revenues received by the County totaled \$98,604,386.

**Section II:** Agreed Upon Procedures Performed on Measure K Expenditures for the Period July 1, 2018 to June 30, 2019. Current year expenditures incurred by the County totaled \$102,600,256.

This report covers the period of July 1, 2018 to June 30, 2019. All procedures were performed in accordance with the *International Standards for the Professional Practice of Internal Auditing* established by the Institute of Internal Auditors. This report is intended solely for the information and use by the Committee, the Board, and County management. This report should not be used by anyone other than these specified parties. However, as the County is a government entity, this report is subject to public inspection.

## SECTION I – Audit of Measure K Revenues Received by the County of San Mateo for the Period of July 1, 2018 to June 30, 2019

---

The Controller’s Office Audit Division reviewed State Remittance Advice Forms and the County’s financial accounting records to determine if Measure K sales and use tax revenues received were recorded in a separate fund in a timely and accurate manner.

### Results

No exceptions noted. All Measure K monies transmitted by the State from July 1, 2018 to June 30, 2019 were deposited into the Measure K Fund.

## SECTION II – Agreed Upon Procedures Performed on Measure K Expenditures for the Period of July 1, 2018 to June 30, 2019

---

1. Reviewed Board Resolutions to determine if the amounts to be funded for each initiative and sub-initiative by Measure K proceeds have been approved by the Board through the County’s budget process.

**Results:** No exceptions noted. **Schedule A** lists all Board approved initiatives and amounts.

2. Reviewed internal invoices representing departmental reimbursement requests and payment records to determine if the distributions made from the Measure K Fund to agencies governed by the Board were made after receipt of an invoice.

**Results:** No exceptions noted. **Schedule B** lists the sub-initiatives and related expenditures that were reimbursed by Measure K monies since inception. Amongst the 193 Measure K initiatives, 188 were administered by agencies governed by the Board and 5 were administered by non-county entities.

3. Reviewed invoices received from agencies governed by the Board to determine if Measure K monies were used for purposes of the initiative approved by the Board, as evidenced by Department Head and County Manager or their designee’s signature.

**Results:** No exceptions noted.

4. Reviewed invoices to determine if the amounts spent were categorized by type of expenditure and then reviewed the County’s financial accounting system records to determine if the expenditures and Measure K reimbursements were properly recorded.

**Results:** No exceptions noted.

5. Reviewed Board Resolutions and accounting records to determine if distributions of Measure K Funds to agencies governed by the Board did not exceed the Board approved budgeted amounts for each initiative during the fiscal year.

**Results:** Exceptions noted. Distributions to four initiatives exceeded the approved budgeted amounts in fiscal year 2018-19. These exceptions were due to the use of manual processes and inappropriate approvals.

**Corrective Action:** The County has reviewed its current procedures and will automate and update them to reduce the risk of future errors.

6. Reviewed invoices, accounting records, and Board Resolutions to determine if distributions made from the Measure K Fund to entities that are not governed by the Board, agree to invoices received from those entities, and have not exceeded the amount legally authorized by the Board.

**Results:** No exceptions noted.

# EXECUTIVE SUMMARY

This report contains highlights from and performance data for initiatives funded in whole or in part with Measure K funds from July 1, 2018, to June 30, 2019.

Approved by 70% of voters countywide in November 2016, Measure K extends a previous voter-approved (Measure A, November 2012), half-cent general sales tax for an additional 20 years, until March 31, 2043. The 2018-19 fiscal year marked the sixth full year the County has collected the sales tax.

Measure K provides limited-term funding to meet critical service needs, address service gaps or save money by improving performance. In the resolution placed before voters and in public budget sessions, the Board of Supervisors has listed the following as priorities for Measure K funds:

- Ensure at least 80% of all third-grade students are reading at grade level
- End homelessness
- Provide foster youth help they can graduate high school and enroll in college or vocational training
- Provide affordable homes for seniors, veterans, individuals with disabilities and families
- Maintain emergency operations and 9-1-1 police, fire and paramedic dispatch
- Combat human trafficking
- Maintain paratransit services for the elderly and individuals with disabilities
- Maintain preschool, after-school and library programs for children and teens
- Keep County parks open
- Maintain health care for low-income children, seniors and people with disabilities
- Provide neighborhood health clinics
- Maintain countywide gang and drug task forces
- Address the effects of sea level rise
- Maintain child abuse prevention programs

The Board of Supervisors allocates Measure K funds to internal County departments, other government agencies, nonprofit organizations and for-profit enterprises to achieve their goals. The Board, at a public meeting, must approval all recommendations for the use of Measure K funds.

## MEASURE K INVESTMENTS 2018-19 FISCAL YEAR

Actual expenditures across all initiatives for the 2018-19 fiscal year totaled \$102,600,256. This represents a 16% increase from the \$88,416,870.63 spent in the 2017-18 fiscal year.

To enhance transparency and accountability, the County tracks all Measure K funds and places initiatives funded by Measure K into one of seven categories:

- Public Safety
- Health and Mental Health
- Youth and Education
- Housing and Homelessness
- Parks and Environment
- Older Adults and Veterans Services
- Community Services

In addition, the County separately tracks initiatives that are funded at the recommendation of a member of the Board. These initiatives are approved by the full Board of Supervisors outside of the budget process to quickly meet unanticipated needs, leverage other funding sources and fill critical service gaps.

These are collectively categorized as “District Specific” or “District Discretionary” initiatives. (Note: these initiatives range from targeting specific needs within a supervisorial district to countywide issues or concerns.)

## MEASURE K SPENDING FY 2018-19

Overall, Measure K investments in Public Safety topped the spending by category with nearly a third of total Measure K spending, at 32.8 percent or \$33.65 million. This was due mainly to significant progress toward building a new, two-story Regional Operations Center, or ROC. The ROC was substantially completed during the fiscal year with 9-1-1 Public Safety Communications dispatchers, the Sheriff's Office of Emergency Services and a secure data center set to open in the 2019-20 fiscal year.

At \$24.29 million, investments in Housing and Homelessness represented 23.7 percent of total Measure K spending. Nearly \$15 million was spent with regional housing partners on building, maintaining, rehabilitating and protecting housing that is affordable for families at all income levels.

Public Safety and Housing and Homelessness (which together accounted for 56.5% of total spending) were followed by spending on Youth and Education (16.7%, \$17.1 million); Community Services (12.1%, \$12.5 million); Health and Mental Health (5.5%, \$5.6 million); Parks and Environment (3.8%, \$3.9 million); Older Adults and Veterans Services, (2.8%, \$2.9 million); and District Specific/Discretionary (2.6%, \$2.7 million).

## PERFORMANCE

During the 2018-19 fiscal year the County implemented or continued 115 initiatives funded wholly or in part by Measure K across the seven tracked categories. Each initiative is evaluated based on established performance measures.

Based on initial performance data, 155 of a total of 227 performance measures achieved targets during the fiscal year, or 68.28%. Seventy-two performance measures, or 31.72%, did not meet targets or were in data development.

Work on the County's new Regional Operations Center, or ROC, was substantially completed during the 2018-19 fiscal year. The 37,000-square-foot ROC will become the County's hub for disaster planning, response and recovery.

# PUBLIC SAFETY

## LARGEST PROJECT FUNDED

The ROC represents the largest project funded by Measure K to date

The County of San Mateo, home to three quarters of a million people, coordinates countywide disaster planning, response and recovery. The County invested \$30.5 million in Measure K funds in the 2018-19 fiscal year toward completion of a new \$64.5 million Regional Operations Center, which opened in fall 2019.

## REGIONAL OPERATIONS CENTER

The ROC, as it is known, is the new home for 9-1-1 Public Safety Communications, the Sheriff's Office of Emergency Services and a secure data center. 9-1-1 dispatchers, who handle fire, law enforcement and emergency medical calls, moved into the ROC from the basement of the 1950s Hall of Justice.

The two-story, 37,000-square-foot ROC is designed to withstand and remain functional during and after a major earthquake. Independent power generators and water systems will allow first responders and support personnel to operate "off the grid" for up to a week.

## NEW AND REPLACEMENT EMERGENCY RESPONSE VEHICLES

Four new emergency vehicles were placed into service by San Mateo County Fire in the 2018-19 fiscal year

<b>ERV59</b> A small all-terrain vehicle for remote rescues and fire suppression	<b>U59</b> A utility truck to reach remote areas and drive on sandy beaches	<b>WT59</b> A water tender to supply engines on fire lines	<b>Chief 11A</b> A sport utility vehicle for command staff
---	--	---	---

Three additional vehicles were ordered during the fiscal year but were not yet delivered. These are a wildland replacement engine, a specialized battalion command vehicle and a utility truck for transporting hose, tools and equipment.

The County spent \$632,000 in Measure K funds in the

2018-19 fiscal year on new and replacement fire response vehicles. San Mateo County Fire provides fire protection and emergency response services to unincorporated areas not covered by another agency as well as regional mutual aid support.

## WORKING TO COMBAT HUMAN TRAFFICKING

Often called modern-day slavery, human trafficking is the exploitation of another person through the use of force, fraud or coercion. It can involve commercial sex or forced labor.

The Board of Supervisors created the Human Trafficking

Program in 2015 to coordinate a countywide effort to identify human trafficking and lead education efforts. The program, with the investment of \$190,000 in Measure K funds in the 2018-19 fiscal year, employs two experts on trafficking who work closely with both law enforcement

and victims' advocacy organizations.

During the 2018-19 fiscal year, the program met the performance target of holding six trainings with first responders and coordinating with law enforcement on six anti-trafficking operations.

## IN FEBRUARY 2018 THE HUMAN TRAFFICKING PROGRAM LAUNCHED MONTHLY PUBLIC MEETINGS

for anyone interested in the response to human trafficking. Meetings typically include an update on anti-trafficking efforts, educational presentations and the chance to network with others involved in the fight against human trafficking. More information is available at [stophumantraffickingsmc.org](http://stophumantraffickingsmc.org)

*We need to understand that modern slavery is limited by only two things: the imagination and the coercive skill of the trafficker."*

## SPOTLIGHT

### WHOLE PERSON CARE

Whole Person Care supports individuals who are high utilizers of emergency services and who struggle with homelessness, mental illness, substance use, multiple complicated medical conditions or a combination of challenges. Often these individuals cannot break the cycle on their own. They need strong, coordinated and effective community-based support.

To achieve this, San Mateo County Health, in 2017, launched Whole Person Care. This initiative aims to help clients with high needs to navigate a complex health care system to achieve better health outcomes. These individuals disproportionately suffer from the effects of social determinates that negatively impact their health and ability to utilize health care services. Whole Person Care aims to help 5,000 people by 2020.

Since May of 2017, Measure K dollars have supported the most vulnerable, chronically homeless individuals. Using a Housing First model, these monies, used for housing location and direct rental subsidies, have enabled 73 individuals, with an average age of 55, to end the cycle of homelessness. Once housed these individuals receive on-going supportive services to maintain their housing and continue on their journey of improved health and quality of life.

In the 2018-19 fiscal year, 58 of 60 individuals referred for housing services received those services. The two not receiving services found other housing solutions. This 96% success rate far exceeded the target of 70% of those referred receiving a housing service.

**FUNDED UNDER 1115 MEDI-CAID WAIVER,** which allows states to obtain federal matching funds for innovative programs. \$2 million annually in Measure K funds supports Whole Person Care

*Whole Person Care brings all parts of the health system together to treat the 'Whole Person.' This collaborative care coordination model enables us to help people with complex needs live longer, better lives"*

LUCINDA DEI ROSSI,  
MANAGER OF THE WHOLE PERSON CARE  
PILOT, SAN MATEO COUNTY HEALTH

### PARTNERS FOR SAFE AND HEALTHY CHILDREN

With support from Measure K, the Public Health Nurse Program provides expertise to proactively identify possible health issues and obtain medical records for youth in the County's Children and Family Services' care.

**EXCEEDED TARGET OF 90%** in the 2018-19 fiscal year, 166 of 175 children, or 95%, in out-of-home placements had documented, timely annual physical exams

**EXCEEDED TARGET OF 90%** over the same period, 157 of 175 children, or 90%, in out-of-home placements had documented, timely twice-a-year dental exams

**\$729,000 MEASURE K FUNDS** supported the Public Health Nurse Program during the 2018-19 fiscal year

# YOUTH AND EDUCATION

**EARLY SUCCESS**  
 More than 1,500 new child care spaces have been completed or are in the development pipeline

## BUILD UP FOR SAN MATEO COUNTY'S CHILDREN

Working families face a critical challenge in San Mateo County: finding safe, affordable and quality child care. In response, local government, philanthropies and nonprofits came together in 2017 to create Build Up SMC, a public-private initiative that aims to create 3,000 new quality child

care spaces by 2020.

How? By working with large employers, advocating for child care in new developments, expanding existing facilities and seeking capital funds. A one-time \$50,000 grant of Measure K funds in March 2019 provides seed funding.

*With a lack of facilities being one of the most difficult obstacles, cities and counties need to prioritize developments that include childcare. Childcare availability doesn't just impact families, it's a critical piece of community infrastructure with massive economic implications."*

 REDWOOD CITY-SAN MATEO COUNTY  
 CHAMBER OF COMMERCE

## EARLY CHILDHOOD COMMUNITY TEAMS

Is investing in early education and intervention services a wise public investment? The answer in San Mateo County is yes.

The local nonprofit Star Vista offers young children, particularly those from families who face obstacles to accessing services, with opportunities to play in group settings and to socialize. Trained clinicians,

meanwhile, work with child care providers and families to help identify children who may need additional services and interventions that can make a difference in a child's life.

In the 2018-19 fiscal year, caregivers for 397 children ages 5 and under received early childhood mental health consultation. Eighty-five percent of child care providers working

with Star Vista reported increased competency, enhanced skills in working with children and improved abilities to identify at-risk children.

Under contract with San Mateo County Health, Star Vista offers the services in both Spanish and English in Pescadero, La Honda, the mid-coast, Daly City, South San Francisco and Redwood City.

## TEENS AS TEACHERS AND ROLE MODELS

Healthy Living Ambassadors are teenagers with specialized training from the nonprofit 4-H Club who lead elementary school students in after-school projects involving gardening, physical activity and nutrition. The teen leaders learn leadership and life skills while the

younger students enjoy hands-on activities.

During the 2018-19 fiscal year, 254 local youth were engaged in the 10-week Healthy Living Ambassadors program, exceeding the goal of 250 participants.

# HOUSING AND HOMELESSNESS

## INVESTING IN AFFORDABLE HOUSING

The Department of Housing provided financing to 12 projects summing to 1,193 units of affordable housing in the 2018-19 fiscal year. Of those developments, six were new to the department's financing pipeline having not receive affordable housing funds in the past.

Those six projects will provide 626 units of affordable housing, which includes

575 units affordable to households earning up to 80% of the area median income (that is, extremely low-, very low-, and low-income groups). One project (MidPen Housing's Downtown San Mateo project) will provide an additional 51 units of moderate income housing targeting households earning between 81% to 121% of the area median income.

## HOMELESS PREVENTION ASSISTANCE SERVICES

The price tag of an unexpected car repair or health emergency can plunge struggling families into homelessness.

To lend a hand in one of the most expensive housing markets in the nation, the Board of Supervisors launched the Homeless Prevention Assistance Program in 2014. The County provides a pool of local sales tax funds from Measure K that designated local nonprofit organizations,

known collectively as Core Service Agencies, can draw upon to pay off small debts incurred by qualified applicants.

During the 2018-19 fiscal year, 250 households received emergency assistance. Ninety-eight percent of program participants who received emergency rental assistance remained housed after six months, exceeding the target.

## SAFE, AFFORDABLE HOUSING FOR FARMWORKERS

Peninsula Open Space Trust (POST) completed construction on four, three-bedroom housing units on a San Gregorio farm that will provide safe and low-cost housing for farmworkers. The County provided \$300,000 in Measure K funds through its Agricultural Workforce Housing Program that was vital to the completion of the project in

September 2018.

POST awarded a long-term lease on the property to Blue House Farm, which grows a variety of organic fruits, vegetables and flowers. Blue House Farm, in turn, worked with POST, the County and other stakeholders to build the infrastructure and the new homes for farmworkers.

# PARKS AND ENVIRONMENT

## COASTAL RESURGENCE

Located between Pacifica and Devil's Slide, the Pedro Point Headlands offers stunning coastal views and three miles of trails. Yet it's also suffered from off-highway vehicle use, persistent erosion and an influx of invasive plants.

In a partnership with the Pacifica Land Trust and other organizations, the County invested \$53,000 in

Measure K funds during the 2018-19 fiscal year to restore the 255-acre headlands.

Crews removed invasive species and restored native plants during the rainy season to reduce the need for irrigation. A footpath connecting two trails was completed while a previous trail was decommissioned. All performance targets were met

while restoration work will continue in the 2019-20 fiscal year.

Restoration of the Pedro Point Headlands benefits county residents and visitors seeking a local coastal area with remarkably, photogenic shoreline views and hiking trails amidst diverse plant communities of coastal scrub, reedgrass and Monterey pine woodlands.

## ACCESSING HISTORY

Nestled on a hillside just west of the Town of Woodside, the rustic serenity of Wunderlich County Park is reminiscent of an earlier era. The Park's largely undeveloped 942 acres include beautiful stands of mixed redwoods, madrones, and oaks, steep hills, and lovely open meadows — all crossed with trails for hikers and equestrians.

Wunderlich features the magnificent Folger Stable, once part of the estate of the Folgers Coffee family and listed on the National Register of Historic Places. The stable also includes the original Carriage Room with a museum that showcases local history with a replica blacksmith shop, 19th century carriages, logging exhibits and more.

During the 2018-19 fiscal year, the County completed a major project to rehabilitate the Carriage House which once stored carriages and later automobiles. Today it provides program and meeting space. Work included improving access to restrooms, entrances, exits, routes of travel and the parking lot.

## VOLUNTEERS MAKING A DIFFERENCE

Opportunities abound for nearly anyone with an interest in the outdoors. Combat invasive plants by becoming a weed warrior. The Stewardship Corps takes on a new project at a new park every week. Park docents, trail ambassadors, tour leaders – all are performed by dedicated volunteers.

During the year, Parks filled the volunteer coordinator position, which

will work with corporate partners, schools and community service groups to expand volunteer opportunities.

At a corporate volunteer day in November 2018, 30 employees of a local commercial real estate development and property management firm gathered at Fitzgerald Marine Reserve. They dug holes and installed 150 yards of fencing.

“Many of these volunteers were project managers and clearly understood how to get a construction project done,” said County Parks Ranger Rob Cala. “At one point, they were doing such a good job that I said they didn’t have to make the measurements exact to the millimeter, a centimeter would be just fine.”

# OLDER ADULTS AND VETERANS SERVICES

## RESOURCES, SERVICES FOR VETERANS

Established in 1946, the San Mateo County Veterans Services Office helps veterans access state and federal benefits that help veterans, their spouses and family members. The office also provides information and referrals to a wide range of services and connects veterans to programs such as the California Veteran

College Fee Waiver for veterans and dependents.

During the 2018-19 fiscal year, the County spent approximately \$230,000 in Measure K funds toward veterans services. The office on average worked with 280 veterans each month, short of the target of 350. Veterans services will continue

to implement outreach activities and partner with community-based organizations to bring greater awareness of Veterans Administration benefits and services provided locally.

Clients are invited to meet with the Veterans Services Office on both a drop-in basis and by appointment.

The Institute on Aging's Friendship Line provides services to older adults and adults with disabilities in San Mateo County.

The Friendship Line is the only 24-hour hotline in the U.S. offering suicide intervention and prevention for seniors and disabled adults, and provides crisis support services that include active suicide intervention and a unique call-

## "I FEEL LONELY. CAN I TALK TO YOU?"

out service. The call-out service acts as an intervention to prevent suicide in the long term and to improve the quality of life and connectedness of lonely and isolated callers.

Staff and trained volunteers build strong, trusting relationships with callers that enable them to effectively monitor physical and mental health needs and concerns. In the second-

half of the 2018-19 fiscal year, the program trained 50 new volunteers who provided 9,500 hours of call support.

If you have any suspicions about an older dependent adult being a victim of abuse, please call 1 (800) 675-8437. Also, you can go online to [SMCHealth.org/elderabuse](http://SMCHealth.org/elderabuse) where you can learn more about the signs and symptoms of abuse.

## PROTECTING OLDER ADULTS

The most common type of elder abuse is financial. A family member raids a relative's bank account or steals valuables. A stranger befriends an older adult whose money suddenly vanishes. Older adults are also prey to physical and emotional abuse.

That's why the County in 2015 created the Elder and Dependent Adult Protection Team, or EDAPT.

The team consists of social workers backed by the County Counsel's office and the District Attorney. During the 2018-19 fiscal year, the program averaged 125 monthly consultations or case updates with district attorney deputies or investigators. These frequent meetings are needed due to complex financial cases where law enforcement expertise is needed.

## DATA POINT

The fastest growing part of the population here in San Mateo County is people over the age of 65. And one of the fastest growing crimes is elder abuse

## COMBINED FUNDING

County spent approximately \$675,000 in Measure K funds and approximately \$950,000 came from the District Attorney's Office

Shannon Morgan, member of the Elder and Dependent Protection.

# COMMUNITY SERVICES

## PROVIDING FOR BASIC NEEDS

It may be hard to believe in an area of such explosive economic growth, but one in 10 people in Silicon Valley receive assistance from Second Harvest Food Bank, which serves San Mateo and Santa Clara counties. This is due in large part to the sky-high cost of housing, which leaves many families with little left over for food, medicine and other essentials.

During the 2018-19 fiscal year, the County contributed \$150,000 in Measure K funds to Second Harvest Food Bank to distribute food directly and to distribute food through a network of local providers.

In all, Second Harvest distributed 18 million pounds of food, exceeding the target of 16 million pounds. On average, nearly 21,000 San Mateo

County residents received food each month directly from Second Harvest, exceeding the target. Another nearly 53,000 residents received food each month from Second Harvest's extensive network of local providers. This fell short of the goal of 55,000 on-average monthly recipients. Moving forward, Second Harvest will explore additional outreach strategies.

## OPEN DATA AND TECHNOLOGY INFRASTRUCTURE

We live in the heart of Silicon Valley, but even in San Mateo County we have a significant digital divide between those with high speed Internet access and those with slow speed or no access.

In response, the County of San Mateo launched SMC Public WiFi, which provides free Internet access at more than 75 hotspots from downtown Pescadero to Daly City's Top of the Hill. County officials

believe creating onramps to knowledge and information available online is the 21st Century equivalent of building roads and infrastructure.

One of the Board of Supervisors' initial investments following approval of the half-cent local sales tax in 2012 was to improve the County's technology and create open data and performance dashboards. These dashboards enhance

government accountability and transparency.

Public WiFi and open data are two of numerous technology projects supported with Measure K funds. Additional projects include ensuring critical communications will work in the event of a disaster and providing secure and private communication channels for health, public safety and social services.

## A GRAND OPENING AND A GROUNDBREAKING

The beginning of the 2018-19 fiscal year began with two major milestones: the groundbreaking for a new library in Brisbane and the grand opening of the Half Moon Bay Library.

A large crowd gathered in downtown Brisbane in July to witness the groundbreaking for a new library that had been in the

planning stages for two decades. The new Brisbane Library is designed to be a community hub with a popular collection of books, DVDs and eMedia along with family programs, free WiFi, a teen area and a shared "Makerspace" and community room.

Then in August the new Half

Moon Bay Library opened its doors to the community for the first time. The 22,000-square-foot library offers quiet study rooms, an expansive children's room, a teen room and both indoor and outdoor meeting spaces.

Both projects received Measure K funds.

It was reported that the evaluation that is necessary to determine that an individual is incompetent to stand trial takes longer than the 6 days that the measure is covering. There have been changes at the Courts as related to psychological evaluations this last year as there were provider and contract changes. It would seem that these changes may have had a negative affect on this program. While the experience and tenure of the staff is limited, the length of the psychological evaluation has not been an issue in prior years. This will be investigated to determine why this substantial change.

Coastside was suspended for a year due to low attendance and the South Collaborative was folded into the Ravenswood/EPA Collaborative. However, more school staff and providers joined all of the collaboratives, increasing participation overall. In May three School Counselor Collaboratives (North, Central, South) were created based on a model similar to the existing collaboratives. These were created based on a survey that found the counselors desired similar info sharing systems that existed for the six school-based collaboratives.	\$163,822	\$80,000	(\$83,822)	-51.17%	Consolidation of programs

3: Youth & Education	BHRS	EOBIP	Bi-Polar Early Assessment and Management (BEAM)	Number of youth screened, assessed, and treated by the BEAM program	30	34		Target Met	34 Assessed/Treated + 9 Additional Screened. BEAM started out the year with strong census and has continued to grow. This year, BEAM screened/treated 43 youth clients with 28 of them meeting full criteria and engaging in evidence-based services beyond initial assessment. Data regarding Screenings is obtained from the Program's Referral Tracking Spreadsheet and the details regarding served/treated are obtained through the Program's EHR, CIRCE. BEAM was able to achieve its target census by maintaining strong relationships with community partners and stakeholders, responsiveness to referrals, and ongoing outreach efforts by program staff. At the time of this report, BEAM has served and treated 17 individuals and has 5 individuals screened and in the pipeline pending assessment. BEAM is on track to meet this Performance Measure for Fiscal Year 2019-2020.					
3: Youth & Education	BHRS	EOBIP	Bi-Polar Early Assessment and Management (BEAM)	Percent of youth clients who experience a decrease in the number of days hospitalized after beginning the program	85%	91%	In Progress	Target Met	Out of 23 participants with prior hospitalization history, 21 (91%) saw a reduction in days hospitalized since beginning treatment in BEAM. Additionally, 3 out of 4 participants with no hospitalization history (75%) were able to maintain 0 hospitalizations while receiving services. Hospitalization data is obtained at intake for comparison purposes and throughout the treatment process. The dates of each hospitalization is recorded in the Program's EHR, CIRCE and the results compare hospitalizations prior to treatment to any hospitalizations that occur following determination of eligibility for and commencement of services. Reductions in hospitalizations is an expected outcome of BEAM services and it is anticipated that this trend will continue into the future. The results named here vary from those reported at the mid-year report due to the need for manual entry of hospitalizations into the EHR. As a number of the program's participants have private insurance, not all hospital data can be obtained through Avatar and manual entry is subject to errors at times. 3: Youth & Education	BHRS	EOBIP	Bi-Polar Early Assessment and Management (BEAM)	Percent of students who received early onset bipolar intervention services that remained in school without serious disruption	90%	95%	In Progress	Target Met	21 out of 22 (95%) participants who have are working toward educational goals have maintained their progress toward their goals without disruption. 1 Graduated High School - accepted and enrolled at UC Irvine; 1 Graduated from College; 17 Remain in School (High School = 5, College = 11, Specialty Training Program = 1); 2 Enrolling in Fall 2020 Term - return to school. Data regarding education outcomes is gathered on an ongoing bases and recorded in both the Program's EHR, CIRCE, and in an Education Spreadsheet Tracker. BEAM staff work closely with participants and their families to identify their goals and review these frequently. The Employment and Education Specialist works closely within the team, with outside providers, and with school staff to ensure that the optimal learning environment is in place for the accomplishment of identified academic goals in adherence to the Evidenced Based Practice of Individual Placement and Support (IPS). IPS is a very well researched and documented approach; there is a growing focus on applying the model towards school when working with young adults. BEAM's Employment and Education Specialist applies the model towards participant education goals and the entire team supports those goals through coordination and collaboration. Services include helping participants to create individualized plans for education goals and follow along support. This continues to be one of the strongest performing measure of the program and it is expected that it will remain a foundational outcome of the BEAM Program.					
3: Youth & Education	BHRS	FAMHX	Youth Mental Health First Aid	Percent of students exhibiting positive student behaviors	80%	100%	In Progress	Target Met	In FY18/19, of the total number of students participating in, as well as engaged in the BHAGAT Program, 100% of these served students consistently exhibited positive student behaviors. The population base increased by 220% or more than 670 students when this Program moved from the Ronald McNair Academy to Ravenswood Middle School and Cesar Chavez Academy. During FY18/19 there were 74 students served or 11% of the student population. Of these 74 cases, there were 34 students that were served consistently throughout the reporting period. Of these 34 students, 100% exhibited positive student behaviors.					
3: Youth & Education	BHRS	FAMHX	Youth Mental Health First Aid	Percent of school officials and student peers reporting higher levels of knowledge about mental health problems in students, six months after attending Mental Health First Aid	95%	93%	In Progress	Target Not Met	Mental Health First Aid (MHFA) remains a successful program that continues to expand in service to schools throughout the county. As more school staff and students attend MHFA, the awareness around mental health issues on school grounds throughout the county continues to grow. This growth is critical to the safety of our local schools. During FY18/19, 6 month post training surveys are conducted with participants that completed MHFA in the previous 6 months. This survey shows that 94% of participants responding were more confident in recognizing the signs of youth experiencing crisis, 93% were more confident to reach out to a person in distress, 93% were more confident to assist a young person in seeking professional help, and 93% were more confident to connect a young person with community, peer, and professional supports. This averages 93%, which is 2% below the benchmark. BHRS plans to address this by being more diligent in collecting a higher number of 6 month post training surveys as the response is less than 100%.	\$259,708	\$197,831	(\$61,877)	-23.83%	Lower than expected overall costs

The FY18/19 year end actual is the lowest ever recorded and similar to other measures, may be a victim of a low follow up survey response rate. The post survey results during this reporting period indicate that children of parents that participated in the Parent Project, 94% were not expelled and 84% were not suspended. The reporting number for this measure is the average of these two numbers when weighted or 93%. Additionally, as staff become more confident in the process, they become more used to providing referrals without guidance. The staff member responsible for being the liaison for the referrals also stays in consistent communication with the HV program in order to ensure that the follow up is timely. 3: Youth & Education	BHRS	YOPCM	Expansion of Outpatient Services	Percent of transitional age youth who receive at least one clinical follow up within seven days after leaving Psychiatric Emergency Services	65%	73%	In Progress	Target Met	225 out of 307 youth received a follow up clinical service post discharge from PES. 100% of these youth are engaged prior to discharge from PES. This measure is outdated due to the fact that we do engage all youth prior to discharge that the first clinical visit within 7 days following discharge is really irrelevant since all treatment planning occurs prior to discharge.

These 11 youth represent 6% of the total youth discharged during FY18/19. This is the highest re-admission rate since FY16/17. This reflects that although overall youth population counts are decreasing, the complexity of the cases is much greater. BHRS continues to have a child psychiatrist shortage, although it is improving. Last year, the methodology for capturing the number of participants changed to more accurately reflect the program's reach and our annual target continues to be set at an ambitious level. Through the support of Measure K funding, we are engaging 145% more youth than we did prior to the investment in 2014." Summer learning loss can leave low-income children 2.5-3 years behind their peers; the Summer Learning Challenge aims to stop this learning loss. In 2019, 90,148 children and youth participated in the Summer Learning Challenge. Of families with participating children surveyed, 87% said their family read more, learned more, had more active learning experiences as a result of the Summer Learning Challenge; 99% enjoyed the program; and, 40% said it was their first time participating. Having a home library is as predictive of educational success as parents' education level. Measure K enabled libraries to distribute a total of 117,357 books for home libraries, including bilingual books in Spanish and Chinese. Measure K also supports a youth employment program that provides high school students with work experience. 5: Parks & Environment	Parks	NATRS	Natural Resource Management	Number of Annual Parks Visits - Natural Resource Management	3,000,000	2,954,520	Completed	Target Not Met	Restoration efforts at Pigeon Point Bluff and San Vicente Creek are ongoing in FY 2018-19. Invasive species are being controlled at these sites and will continue to be controlled with Natural Resource Management (NRM) funding and by the Stewardship Corps Volunteer Program (also Measure K funded). GIS applications have been implemented by the natural resource staff for field data collection, monitoring, reporting, and tools for operations staff to track park assets. Contractors have implemented GIS-based applications to report on work performed using a tool developed by the NRM staff. Invasive species funds have been used to treat the slender false brome, jubata and pampas grass, fennel, oxalis, and broom species, in various locations throughout the parks that have the best chance for success. These efforts will continue to expand in FY 2019-20. The activities to control invasive vegetation and conduct habitat restoration work improves native plant diversity, benefit wildlife and their habitat, and protects sensitive species present in these parks. Parks visitation was able to reach close to 3 million people in FY 2018-19, in part, due to the various NRM programs which maintain scenic landscapes and high-quality habitats that park users enjoy.	\$441,688	\$38,739	(\$402,949)	-91.23%	Funding has been shifted to other projects

The project at Edgewood supported ongoing efforts to map and monitor areas for the endangered San Mateo Thornmint and the Bay Checkerspot butterfly in order to increase recovery efforts for these species. Funds used at San Pedro Valley, Junipero Serra, and San Bruno Mountain County Parks, supported mapping wildlife occurrences using wildlife camera traps. These mapping efforts identified new locations for winter burrowing owl habitats (special status species), as well as less frequent and unexpected species such as the long-tailed weasel. Mapping efforts to identify locations of the Kings Mountain manzanita in Huddart and Wunderlich County Parks were also conducted.
