

## Summary of Typical Development Review Process Incorporating Provision C.3 Stormwater Requirements

- 1) If total new and/or replaced impervious surface is 2,500 sq. ft. or greater, project is subject to **Provision C.3.i.** (See Page 5 of Checklist).
- 2) Applicant should incorporate other applicable site design and source control measures for water quality protection.
- 3) Applicant continues with standard project review process.

\*Stand-alone single-family residential projects which are not part of a larger project (e.g., subdivision), are exempt.

\*\*5,000 sq. ft. or more for an auto service facility, gas station, restaurant, or
