Subject: Re: Design of House on Lot 11

CAUTION: This email originated from outside of San Mateo County. Unless you recognize the sender's email address and know the content is safe, do not click links, open attachments or reply.

Hi Camille,

Thanks for your reply. Since this issue matters to many people in the Highlands community, we're looking for some additional details.

1. When did the County determine that the design of the new house on Lot 11 matches the design, style, color and materials approved by the Board of Supervisors, including Condition 6.b that home design will be *compatible* with the area's contemporary, mid-20th century modern style?
2. Who from the County made that determination?
3. How and on what basis did the County make the determination? For example, was an architectural firm involved in the determination, and if so, which firm?

Thanks,
Tom

On Thu, Jul 30, 2020 at 7:37 AM Camille Leung <cleung@smcgov.org> wrote:

Hi Tom, Emily, Deke and Corrin, and other interested parties,

Thanks Tom for your inquiry. Condition No. 5 requires compliance with the architectural design, style, color, and materials, as proposed, mitigated, conditioned, and approved by the Board of Supervisors. Condition 6.b, requires that home design will be *compatible* with the area's contemporary, mid-20th century modern style and the recording of a deed restriction to maintain the design as approved. After review of the design and the applicable conditions of approval, the County has determined that the design of the house for Lot 11 matches the design, style, color and materials, approved by the Board of Supervisors, the conditions do not require re-design of the house on Lot 11, and the design does not conflict with the design requirements established by the required deed restriction.

Thank you

We agree with Tom. How difficult could it be to have the architect pull a mid-century design from their portfolio ?

Hi Camille,

I also want to thank Tom for his commitment to our neighborhood, and am curious as well, as to how this will proceed?

I want to comment on something that was said earlier in this email conversation, that “the decision can no longer be appealed”. It seems to me that what Tom is trying to do is make sure that part of the decision (that the house will be built in mid-century modern style) is not appealed, but properly enforced? The fact that it is not appealable any more should be an even stronger argument for a change of the esthetics of the build, as it then most definitely needs to adhere to a mid-century modern style.

Thank you for your time!

All the best,
Emily Bond

Thanks Tom.

Camille, I'd echo the curiosity here. The intended design I believe I've seen in correspondence on this subject bears, to my eyes, no resemblance to that stylistic guideline, one that is obviously a core part of this particular neighborhood's fundamental aesthetic and appeal, which I'm sure in turn underpins a large portion of its economic impact.

I'm hopeful that it will be respected, just as I'm hopeful this process itself reflects a fundamental respect for the ongoing health and safety of Highlands residents as it moves forward.

Dylan

Subject: Re: Notice sent to Owners within 200 feet and Interested Parties - Highlands Lot 11

Hi Camille,

Checking in to ask if the County plans to address my question about whether the project condition of approval that says "home design to be compatible with the area's contemporary, mid-20th century modern style" will be enforced.

Thanks,
Tom

On Mon, Jul 20, 2020 at 2:46 PM Tom Finke <tomfinke2010@gmail.com> wrote:

Hi Camille,

Following up on my email from last week, will the County enforce the project condition of approval that says "home design to be compatible with the area's contemporary, mid-20th century modern style"?

Attached for reference is the conceptual drawing of the proposed house, which has a craftsman ranch style, and three examples of contemporary mid-20th century modern style house designs that would fit nicely into

a neighborhood of Eichler homes. It would be especially great if this new house, if it had a modern design, might someday end up as a centerpiece on the bi-annual San Mateo Highlands Eichler home tour (<http://eichlerhometour.org/san-mateo-highlands-1>), which benefits our local Highlands Elementary School.

Thanks,

Tom

On Thu, Jul 16, 2020 at 9:45 AM Tom Finke <tomfinke2010@gmail.com> wrote:

Hi Camille,

1. The document "COUNTY OF SAN MATEO, Inter-Departmental Correspondence, Planning and Building Department, DATE: **April 12, 2010**, FROM: Jim Eggemeyer, Interim Directory of Community Development, TO: Board of Supervisors, Subject: ...PLN 2006-00357 (Ticonderoga Partners / Chamberlain Group)", under the section Construction of Proposed Residences on page 25, says:

"Section 6324.2 (Site Design Criteria) ...For Lots 1, 2, 3, 4 and 11, the condition limits homes to one—story on the front curbside, requires home design to be compatible with the area’s contemporary, mid-20th century modern style".

2. Attachment B of the document, which is another document called "COUNTY OF SAN MATEO, PLANNING AND BUILDING DEPARTMENT, REVISED FINDINGS AND CONDITIONS OF APPROVAL FOR THE HIGHLANDS ESTATES PROJECT, Permit File Number: PLN 2006—00357, Board Meeting Date: **April 27, 2010**, Prepared By: Camille Leung, For Adoption By: Board of Supervisors", under the section RECOMMENDED CONDITIONS OF APPROVAL on page 53, says:

"Lots 1 2 3 4 and 11: Homes on Lots 1, 2, 3, 4, and 11 shall be no more than one-story high on the front curbside. Home design will be compatible with the area’s contemporary, mid-20th century modern style,~~as shown in conceptual drawings approved by the Board of Supervisors.~~" (strikethrough of the words 'as shown in conceptual drawings approved by the Board of Supervisors' was not added by me, it is there in the original document)

3. Another attached document, called "County of San Mateo, Planning and Building Department, REVISED FINDINGS AND CONDITIONS OF APPROVAL FOR THE HIGHLANDS ESTATES PROJECT, Permit or Project File Number: PLN 2006-00357, Hearing Date: **February 10, 2010**, Prepared By: Camille Leung, Project Planner, Adopted By: Planning Commission", under the section CONDITIONS OF APPROVAL on page 17, says:

"All homes on Lots 1, 2, 3, 4 and 11 shall be no more than one—story high on the front curbside. Home

design will be compatible with a contemporary, mid-20th century modern style, as shown in conceptual drawings approved by the Board of Supervisors." (my guess is that drawings were not officially approved by the Board of Supervisors, which is why these words are struck through in the later April 27, 2010 document)

4. Another attached document, an email on **February 8, 2010** from Jack Chamberlain of Ticonderoga Partners / Chamberlain Group to Camille Leung says:

"Camille, Here are some things that could be done on the homes to give them a more Eichler appearance. 9 and 11 could be treated similarly. Jack" (which shows that Mr. Chamberlain is indeed interested in building a house with a more modern design)

5. The earliest dated conceptual drawing I can find of the proposed house on Lot 11 is from Mark Gross & Associates Architecture and Planning in **August 2015**. The drawing (attached earlier in this email thread) is of a craftsman ranch style architectural design.

6. On **July 14, 2020**, Bob Pellegrine, project superintendent from Ticonderoga Partners / Chamberlain Group / Nexgen Builders, told me in person he does not understand why the design of the new house does not have a modern architectural style, and that Nexgen has successfully built modern design style homes in the past.

Here is my desired outcome: the footprint and square footage of the new house on Lot 11 need not change, but the County should enforce the project's documented conditions of approval by requiring Ticonderoga Partners / Chamberlain Group / Nexgen Builders to have their architectural firm redraw the exterior design of the house, such that it is compatible with the Highlands' contemporary mid-century modern architectural design style. The San Mateo Highlands Eichler subdivision is the largest contiguous mid-century modern Eichler development in the U.S. with over 700 homes, built over an 11-year period from 1955 to 1965 - we in the Highlands community want this new house to fit into the neighborhood.

Thanks,
Tom

Thank you Camille and Suki.

The attached meeting minutes document from April 27, 2010 says: "9:30am Public hearing to consider: (Planning and Building) F) Approving a Major Subdivision of APN 041-101-290 to create ten new residential parcels, Lots 1 through 9 and 11, with appropriate development restrictions on the remainder parcel as allowed by Section 6318 of the Zoning Regulations, subject to the required findings

and conditions of approval", but it does not mention approval of the design of the proposed house on Lot 11. Is there another document that would mention the approval of the house design, or could it have been approved at a different meeting of the Board of Supervisors?

Thanks,

Tom

Subject: Re: Notice sent to Owners within 200 feet and Interested Parties - Highlands Lot 11

CAUTION: This email originated from outside of San Mateo County. Unless you recognize the sender's email address and know the content is safe, do not click links, open attachments or reply.

Hi Camille,

Thank you for continuing to keep us informed about the project. Three questions:

1. On the site of Lot 11 several large oak trees have ribbons, tags, and markings. Which ones will stay and which ones will be removed? Asking because it looks like all of the oak trees were cleared from Lots 9 and 10, so wondering if any will remain on Lot 11.
2. Where can we find a project plan for development of the house on Lot 11? Asking because so many of us Highlands residents are working from home now due to the covid-19 situation, that the noise and traffic disruptions from the project will have more of an impact than they would have, so want to know how long the project is going to take.

3. The project document "Revised Findings and Conditions of Approval for the Highlands Estates Project" from February 10, 2010 on Page 17 Section 6 Paragraph b says: "All homes on Lots 1, 2, 3, 4 and 11 shall be no more than one-story high on the front curbside. Home design will be compatible with a contemporary, mid-20th century modern style, as shown in conceptual drawings approved by the Board of Supervisors." The architectural drawing of the proposed house (attached below) shows that it is two stories high from the front curbside, and is not of a contemporary mid-20th century modern style. How can we make a request that Chamberlain Associates / NexGen Builders revise the architectural design of the proposed house to fit the wording of the document?

Thanks,

Tom

Hi Highlands neighbors,

Please see attached for a County notice pertaining to the construction start date after 10 days of this date for a house on Lot 11 at 88 Cowpens Way. This notice has also been mailed to property owners within 200-feet of Lots 9, 10, and 11 of the Highlands Estates Subdivision.

Please note contact information provided in the letter for future questions and correspondence.

Thanks!
