1	This approval applies only to the proposal, documents and plans described in this report and submitted to and approved by the Board of Supervisors on April 27, 2010. Minor revisions or modifications to these projects in compliance with Condition No. 5 may be made subject to the review and approval of the Community Development Director. Revisions or modifications not in compliance with Condition No. 5 shall be deemed a major modification and shall be subject to review and approval by the Planning Commission at a public hearing.	County of San Mateo Planning and Building Department	Confirm and document during building permit review	X	x	х	х	x	х	X	NC	NC	
2	This subdivision approval is valid for two years, during which time a Final Map shall be filed and recorded. An extension to this time period in accordance with Section 7013.5.c of the Subdivision Regulations may be issued by the Planning and Building Department upon written request and payment of any applicable extension fees (if required).	County of San Mateo Planning and Building Department	Confirm and document two years from issuance of building permit	х	х	х	х	х	х	х	O	NC	
3	The Final Map shall be recorded pursuant to the plans approved by the Board of Supervisors; any deviation from the approved plans shall be reviewed and approved by the Community Development Director. Revisions or modifications not in compliance with parcel size and configuration as approved by the Board of Supervisors and applicable conditions of approval (including but not limited to) Condition Nos. 8, 9 and 11 shall be deemed a major modification and shall be subject to review and approval by the Planning Commission at a public hearing.	County of San Mateo Planning and Building Department	Confirm and document upon acceptance of the Final Map	х	х	х	х	х	х	х	Ο	А	
4	The property owner shall comply with all mitigation measures as revised and listed below (based on the Mitigation Monitoring and Reporting Program [MMRP] incorporated within the Final EIR and made available to the public on January 4, 2010). When timing has not been specified below, then mitigation timing and monitoring shall be as specified in the MMRP. The applicant shall enter into a contract with the San Mateo County Planning and Building Department for all mitigation monitoring for this project prior to the issuance of any grading permit "hard card" for the project. The fee shall be staff's cost, plus 10 percent, as required in the current Planning Service Fee Schedule. Planning staff may, at their discretion, contract these services to an independent contractor at cost, plus an additional 10 percent for contract administration. -AES-1a -AES-1b -AES-2 -BIO-2a -BIO-2b -BIO-2c -BIO-2d -BIO-3 -BIO-5b -BIO-5c -BIO-6 -GEO-1 -GEO-2a -GEO-2b -AQ-1 -NOI-1 -HAZMAT-2 -HAZMAT-3 -TRANS-1 -TRANS-1 -TRANS-2 -UTIL-1	County of San Mateo Planning and Building Department; SWCA Environmental Consultants	Confirm and document prior to issuance of building permig; during construction	X	х	X	Х	x	X	x	O	A	

5	This project will be implemented as proposed, mitigated, conditioned, and approved by the Board of Supervisors, regarding parcel size and configuration, home sizes, home locations, architectural design, style and color, materials, height and foundation design. Prior to the issuance of a Certificate of Occupancy for any residence, the applicant shall provide photographs to the Current Planning Section staff to demonstrate utilization of the approved colors and materials. Materials and colors shall not be highly reflective.	Confirm and document prior to issuing Certification of Occupancy	х	х	х	х	х	х	х	O	А	
6	on the applicable parcels when they are sold: a. Lots 1 through 11: Development shall employ colors and materials which blend in with, rather than contrast with, the surrounding soil and vegetative cover of the open space parcel. All exterior construction materials shall be of deep earth hues such as dark browns, greens, and rusts. The applicant shall utilize roof materials that perform as a "cool roof." Roof colors shall be of a medium tone, subject to the approval of the Community Development Director. Exterior lighting shall be minimized and earth-tone colors of lights used. b. Lots 1, 2, 3, 4, and 11: Homes shall be no more than one-story high on the front	Confirm and document prior to issuance of building permit and prior to issuance of Certification of Occupancy	х	x	x	x	х	х	x	NC	NC	
	curbside. Home design will be compatible with the area's contemporary, mid- 20th century modern style. Rear facades of homes on Lots 9 through 11 shall have details to reduce the massing of the structure, specifically architectural articulation to break up the vertical facade, color variation, and brick or stone treatment for retaining walls supporting the residences.											
7	Grading and Construction Staging Limits: Grading and construction activities shall be limited to the grading and staging limits presented in the approved Clearing, Construction, and Grading Limits Plan. The property owner shall maintain nonconflicting vegetation in the side and rear yard areas adjoining 2285 Bunker Hill Dr. until the foundation is installed. The construction drawings associated with the subdivision improvement plans and the individual site development plans for Lots 1 through 11 shall include a Clearing, Construction and Grading Limits Plan (Limits Plan). The Limits Plan and all associated documents must utilize current topographic data (2009) for all parcels, as mapped by Chris Hundemer at Treadwell and Rollo. The Limits Plan shall depict the fencing and protection of the adjacent open space parcel in conformance with the approved Vesting Tentative Map. This plan shall be subject to review and approval of the County Planning and Building Department and the Department of Public Works. The applicant shall install orange fencing, staked securely at intervals, along all staging limits prior to the issuance of any Grading Permit "hard card."	Confirm and document prior to issuance of grading permit; During construction	x	x	x	x	х	х	x	O	A - Lots 9 and 10 have silt fencing (and some orange snow fencing) in place to mark limits of grading. Lot 11 has fencing in place NC - Lots 5, 6, 7, 8	
8	the parcel (shown as hatched on Attachment L) is in a "No-Build Zone." The "No-Build Zone" shall be shown on the Final Map for the subdivision. All setbacks shall be measured from the limits of the buildable portion of the parcel (i.e., excluding any "No-Build" areas on the Final Map). For the purpose of calculating the Maximum Building Site Coverage Ratio of 40%, the Building Site Area shall exclude any "No-Build" areas as shown on the Final Map for the subject property.	Confirm and document upon acceptance of the Final Map							х	NC	NC	
9	Development Restriction Over Lot 11: All areas of Lot 11 are developable as allowed by the County Zoning Regulations, with the exception of a "No-Build Zone" on the right side of the parcel, as illustrated in the approved Clearing, Construction, and Grading Limits Plan. The "No-Build Zone" shall be shown on the Final Map for the subdivision. All setbacks shall be measured from the limits of the buildable portion of the parcel (i.e., excluding any "No-Build" areas on the Final Map). For the purpose of calculating the Maximum Building Site Coverage Ratio of 40%, the Building Site Area shall exclude any "No-Build" areas as shown on the Final Map for the subject property.	Confirm and document upon acceptance of the Final Map			х					NC	NC	

10	Storm Drainage Plan: Project implementation shall comply with the approved Storm Drainage Plan. DPW		Confirm and document prior to issuance of building permit	х	х	х	х	х	х	х	С	GA - Storm Drainage Plan on Civil drawings	
12		·	Confirm and document upon acceptance of the Final Map	х	х	х	х	х	х	х	NC	NC

	Twelve (12) separate Grading Permit hard cards are required, one for the subdivision improvements and one for each of the eleven homes. "Hard cards" shall be issued according to the following schedule: Count and Br	Building Department;	Confirm and document upon issuance of the grading permit										
17	a. The "hard card" for grading of improvements related to the subdivision (including a sidewalk for Lots 5-8 and all shared access ways) may be issued after the final approval of this project, subject to the approval of the Planning and Building Department's Geotechnical Engineer, Department of Public Works and the Current Planning Section, and subject to the conditions below.	suitants		х	х	х	х	х	х	Х	C - Lots 9 and 10 NC - Lots 11, 5, 6, 7, 8	А	
	b. The "hard card" for grading ofimprovements related to the residences (the preparation of building sites and yard areas) can only be issued simultaneously or after the issuance of a building permit for the construction of each new residence, subject to the approval of the Planning and Building Department's Geotechnical Engineer, Department of Public Works and the Current Planning Section.												
	specified: and Bi SWCA	Building Department;	Confirm and document prior to issuance of the grading permit and tree removal										
19	b. Grading Permit hard card cannot be issued for Lot 8 until evidence of completion of Mitigation Measures BIO-6 has been submitted and approved by the project planner.			х	х	x	х	х	х	х	C - Lots 9 and 10 NC - Lots 11, 5, 6, 7, 8	А	
	c. Grading Permit hard card cannot be issued for Lot 11 until evidence of completion of Mitigation Measures B10-2d and 5a has been submitted and approved by the project planner.												
	d. Trees shall not be removed until evidence of implementation of Mitigation Measure B10-2c has been submitted and approved by the project planner and the Grading Permit hard card has been issued.												
20	potential soil erosion unless approved, in writing, by the Community Development and Br	Building Department; A Environmental	Confirm and document upon issuance of exception to grading moratorium	х	х	х	х	х	х	х	C - Lots 9 and 10 NC - Lots 11, 5, 6, 7, 9	A - Winter grading exemption was approved for Lots 9 and 10 on 10/1/19	

21	Supervisors. Such activity would require application for and issuance of a separate Resource Management (RM) Permit. All trees not approved for removal under this permit shall be protected during grading operations. Prior to the issuance of the Grading Permit hard card. the applicant shall implement the following tree protection plan: The applicant shall establish and maintain tree protection zones throughout the entire length of the. project. Tree protection zones shall be delineated using 4-foot tall orange plastic fencing supported by poles pounded into the ground, located as close to the driplines as possible while still allowing room for construction/grading to safely continue. The applicant shall maintain tree protection zones free of equipment and materials storage and shall not clean any equipment within these areas. Should any large roots or large masses of roots need to be cut, the roots shall be inspected by a certified arborist or registered forester prior to cutting. Any root cutting shall be monitored by an arborist or forester and documented. Roots to be cut should be severed cleanly with a saw or toppers. Normal irrigation shall be maintained, but oaks should not need summer irrigation. The above information shall be on-site at all times	County of San Mateo Planning and Building Department; SWCA Environmental Consultants	to issuance of the grading permit and tree removal; During construction	x	x	X	X	X	X	x	A - orange snow fenc around tree drip lines 10 A - orange snow fe chainlink fencing wa. Lot 11 NC - no fencing has b at lots 5, 6, 7,	at lots 9 and ncing and installed at een installed	1
	Prior to the issuance of the grading permit "hard card," the applicant shall schedule an erosion control inspection by Current Planning Section staff to demonstrate that the approved erosion control plan has been implemented. The applicant is responsible for ensuring that all contractors minimize the transport and discharge of pollutants from the project site into local drainage systems and water bodies by adhering to the San Mateo Countywide Water Pollution Prevention Program's (SMCWPPP) "General Construction and Site Supervision Guidelines," including: a. Stabilizing all denuded areas and maintaining erosion control measures continuously	County of San Mateo Planning and Building Department; SWCA Environmental Consultants	Confirm and document prior to issuance of grading permit; During construction										
	between October 15 and April 15. Stabilizing shall include both proactive measures, such as the placement of straw bales or coir netting, and passive measures, such as minimizing vegetation removal and revegetating disturbed areas with vegetation that is compatible with the surrounding environment.										GA - Erosion Control	Plan on Civil	11/18/19 and 11/25/19 - SWCA environmental monitor noted that
22	b. Storing, handling, and disposing of construction materials and wastes properly, so as to prevent their contact with stormwater.			X	X	Х	Х	X	Х	Х	O drawings		silt fence was not keyed in per the SWPPP and CASQA requirements.
	c. Controlling and preventing the discharge of all potential pollutants, including pavement cutting wastes, paints, concrete, petroleum products, chemicals, wash water or sediments, and non-stormwater discharges to storm drains and watercourses.												
	d. Using sediment controls or filtration to remove sediment when dewatering site and obtaining all necessary permits.												
	e. Avoiding cleaning, fueling, or maintaining vehicles on-site, except in a designated area where wash water is contained and treated.												
	f. Delineating with field markers clearing limits, setbacks, and drainage courses, per												

	While the applicant must adhere to the approved erosion and sediment control plan	County of San Mateo Planning	Confirm and document prior										
	during grading and construction, it is the responsibility of the civil engineer and/or	and Building Department;	to issuance of grading permit;										
	construction manager to implement the Best Management Practices (BMPs) that are	SWCA Environmental	During construction										
	best suited for this project site. If site conditions require additional measures in order	Consultants											12/2/10 12/12/10 11/12/10/10
	to comply with the SMCWPPP and prevent erosion and sediment discharges, said												12/2/19, 12/13/19 and 12/19/19 -
	measures shall be installed immediately under the direction of the project engineer. If			.,				.,	.,			GA - Erosion Control Plan on Civil	SWCA environmental monitor
