Hi Diane,

FYI, the Community Development Director has extended the comment period for the EIR Addendum by 30 days to 5pm on June 17, 2021.

Thanks

Dear Ms. Leung,

Thank you for your response. I'm struggling to understand how the information we received that includes a blurry map an a 289 page project addendum can be summarized as a "minor modification" with a very short time to respond. This will have a significant impact on the open space on Ticonderoga Drive and seems to increase the risk of landslide.

We request that the County give the Highlands and neighboring communities an additional 45 days beyond May 17 to review and respond to the lengthy 289-page project addendum document "Highland Estates Subdivision Project Addendum to the Highland Estates Final Environmental Impact Report SCH No. 2007052068" referenced in the 'minor modification' notification letter. Thank you,
Diane and Douglas Hamilton

Hi SungSim,

If development on one private property affects another private property and/or privately-owned improvements, the affected property owner can pursue civil damages if they choose to. If the construction did not comply with approved plans, the County can also pursue enforcement for unpermitted construction.

Thanks

Thank you for the information, Camille.

I am the occupant at 2259 Cobblehill Pl, San Mateo, CA 94402

Could you let me know what recourses are there if the construction compromise hillside integrity and cause damage to an existing structure (Diane's deck) or oaktree and apple tree in my backyard near the hill?

Thank you.

Best,

SungSim

Hi Diane,

Sorry for the delay. We worked with the Owner to obtain permission to post the plans to:

<https://planning.smcgov.org/documents/highland-estates-eir-addendum>

See Civil Pages for Lot 5, which adjoins your property at the rear property line.

Thank you

Hello Camille

Thank you for sending the letter dated May 2 2021 regarding the proposed "minor modification to an approved resource management permit" for lots 5 - 8 in the San Mateo Highlands area.

It appears construction will be below our property (2271 Cobblehill Place - Parcel number 041-166-060, property line is 118 degrees SE)) and our neighbor's (2259 Cobblehill Place).

Unfortunately, the map we received is not readable and the lots in question are not numbered so we cannot determine the potential impact on our property.

We have a permitted deck with footings adjacent to the SE corner of our property line.

We'd like to know the extent to which the hill will be excavated and what measures will be in place to ensure hillside integrity. We ask this out of concern that there could be an impact upon the safety of our property.

Thank you,

Diane Clarkson Hamiton
