Good Morning Camille,

Dean conducted the weekly inspection at Highland Estates this week. There are some ongoing issues onsite, but we also recognize that they are very close to final stabilization.

I will be onsite this week to conduct the inspections and I will let you know how things are looking.

Hope you had a wonderful Thanksgiving!

Jessie

Hi Bob,

Thank you for working on the list of action items we previously discussed. Dean shared the following action items with me from his site inspection this week. Please address these issues ASAP:

1. Make certain the east end of Cowpens Way in front of lot 11 is cleaned of debris after Medeiros Construction has completed backfilling the utility trench in the street .
2. Install orange snow fencing to protect trees along the west side of lot 9.
3. Reinstall silt fencing along the south and east borders of lot 9.
4. Completely cover the utility pit in the lawn of 2189 Cobblehill Pl. This is an ongoing issue and should be addressed immediately.
5. Drain and provide escape ramps for the sewer injection pits on the southeast side of lots 9 and 10. This is an ongoing issue and should be addressed immediately.

If you have any questions about these items please feel free to call me.

Thanks so much!
