Subject:	RE: Highlands Estates Construction Project - Public Comment on Highlands EIR addendum provided 5/3/21

Hi Trudie,

The County has considered the requests from interested members of the public for a 15-day extension of the scheduled June 17, 2021 close of the public review period for the Highland Estates EIR Addendum. The request has been granted to allow the public more time to review the EIR Addendum and appendices, with the County's decision on the project modification request to be made after July 2, 2021.

Thanks

Regarding the Highlands Estates EIR addendum

My name is Gertrude Huygen and I've lived at my property on Cobblehill for more than 50 years. I would like to comment on the proposed Highlands Estates Lots 5 thru 8 project changes.

The changes to the original proposal are major and deserve a thorough investigation.

The time being allowed for review is dangerously short.

The homeowners are not being given sufficient time to review and comment.

I am concerned that my home will not be safe to live in, not just during the construction period, but after. The amount of soil being moved cant help but come into my yard, cover my house, and fill the air with particulate matter. I'll be forced to live indoors with the doors shut. Not to mention the noise. I don't drive and I will not be able to escape it.

I am also worried about the stability of the ground under my house. I'm concerned about the hillside coming down and having my house slide down the hill with me in it.

Regards

Gertrude Huygen
