Subject: Highland Estates Weekly Site Visit 7/14

Hi Bob,

It was great to see you onsite yesterday! As we discussed, please address the following action items:

- 1. Repair leaking equipment on Lots 9/10. Thank you for keeping secondary containment underneath them, but prior to using this equipment onsite we will want this equipment to be repaired.
- 2. Please repair and replace silt fence on Lot 11, as it has fallen into disrepair. This is especially important prior to earthwork/fine grading that is coming up to ensure that sediment is captured.

Thanks so much!

Jessie Henderson-McBean

Hi Camille,

I conducted my weekly site inspection at Highland Estates yesterday. Bob and I met onsite and discussed the needed repairs to the silt fence, and also discussed the schedule for completing fine grading and stabilization. He told me that they are still waiting on PG&E so that they can complete the utilities onsite. They are hoping to get those done before the fine grading and landscaping can be completed, but Bob was going to discuss with Noel and get back to me.

Attached is my report. Please let me know if you have any questions!

Thanks so much,

Jessie Henderson-McBean
