Hi Jessie,

Thanks for the update! Is the land around the houses stabilized (EC measures or landscaping?). What do you think of halting SWCA weekly inspections after the land is stabilized and only interior work is taking place? We can still rely on Neil's inspections. Any other mitigation measures/conditions we still need to inspect on a weekly basis?

Also, I think Bob was supposed to be back this week, so I am copying him here to see when the sites can be stabilized.

Thanks

Hi Camille,

I conducted my weekly inspection this week on Tuesday at Highland Estates. Overall things are looking good, however the only work currently onsite is inside the houses. I spoke with Neil yesterday about the silt fence on Lot 11 which should be replaced along the south side of the property prior to additional grading. Neil said that he had spoken with Noel about it, and when NexGen gets back onsite for grading they plan to do additional repairs.

I hope you are enjoying your vacation this week!

Thanks!
