San Mateo County Planning Commission:

I am sending this email in support of the removal of the tree in the front of 150 Wienke Way, Moss Beach, CA. This tree poses as a safety concern for my family as I live next door. I have witnessed several large branches break from this tree in which one narrowly missed hitting my car. The tree has grown significantly and is heavily weighted on one side due to PG&E trimming and now is greater risk for landing on the owner's home or mine especially when the south winds prevail.

The power, cable and telephone lines run through the middle of the tree and almost every time there is a storm, I get the pleasure of having interrupted service or no service at all.

Moss Beach, and in particular Wienke Way, has had two trees totally uprooted this storm season. One tree landed on Hwy 1, closing the highway and the other taking out the power lines. The tree's root system also causes sewer problems as its roots have to be removed several times during the year from the main sewer line.

I would appreciate the approval of the permit to remove this unsafe tree so that it may be removed before it causes a major problem. If you have any questions, please email me or contact me at 650-580-1397. Thank you.
