May 13,2020

from Baloian Family...541 the alameda

Thank you to my neighbors, especially Birgitta, and some commissioners for helping us understand and attain some kind of control over the proposed illegal apt. building across the street. My last peek at the ocean is now blocked, and I am sorry but my anger builds every day as to why this project was allowed at the "get go." I am in remission from Cancer and none of this is good for me. So my prayers and good thoughts extend to my neighbors, as they present their objections, and a fair and open mind to our commissioners, who I hope will re-evaluate this project.

May the Force Be With Us!! cecelia baloian

Good morning Rene and Ruemel,

My name is Molly Romm, and I live at 559 The Alameda. While Birgitta has been the voice of the neighborhood, I fully stand behind and support the objections to this project she has outlined, as well as all the communication she has been sending.

Birgitta is essentially representing 7 households immediately surrounding this project who feel very strongly that the current proposed building should not be approved as is. The building approval process is incredibly difficult to navigate and understand, but there is one fact to me that is very clear. This proposed project has disrupted the peace in 7 households and has caused tremendous anxiety for many of us. I do not understand why exceptions are even being considered let alone potentially granted to 1 resident (who isn't even going to be living here) knowing it would upset and disrupt the lives of 7 families in the immediate area.

So, in addition to the formal objections Birgitta has outlined, I wanted to appeal to the humanistic side of this situation and respectfully ask that what I've said above be taken into consideration when reviewing this project. I will be in attendance for the Thursday zoom meeting at 3:30.

Sincerely,  
Molly Romm
