\$2,100

“Using a centuries-old printmaking technique called “Nature-Printing,” I sustainably and respectfully obtained fresh plants of California Poppy and Wild Oak, inked the samples and hand-pressed their impressions onto paper. The anatomical aspects of the plants remain organically apparent through this process, revealing a unique monotype that is botanically identifiable. Energy is infused into each botanical “fingerprint” with watercolor, returning permanent life to the ephemeral.”

*Mother to Son: don't let them steal your sunshine*

Acrylic, fabric and paper collage

Redwood City

\$3,000

rebeccaarcher@gmail.com

“Looking at a photo from 1956 Alabama, I was struck by how these two black boys looked so sweet and innocent and my instinct as a mother was towards protecting them. But because it was a picture from 1956 and they were black, I was equally aware that there was little anyone could do to protect them. The title is inspired by Langston Hughes’ poem *Mother to Son*.

Well, son, I'll tell you:

Life for me ain't been no crystal stair.

It's had tacks in it,

And splinters,

And boards torn up,

And places with no carpet on the floor—

Bare.

But all the time

I'se been a-climbin' on,

And reachin' landin's,

And turnin' corners,

And sometimes goin' in the dark

Where there ain't been no light.

So boy, don't you turn back.

Don't you set down on the steps

'Cause you finds it's kinder hard.

Don't you fall now—

For I'se still goin', honey,

I'se still climbin',

And life for me ain't been no crystal stair.”
